Needle Disposal

To prevent injury, illness and pollution, used needles or “residential sharps” should be disposed of carefully by placing them in a rigid container (hard plastic or metal) with a tight fitting lid. **Liquid Laundry Containers work great!**

Reinforce the lid with a heavy-duty tape. Label the Container as “DO NOT RECYCLE” and place in the bag with your regular weekly trash pickup.

Do not place in your recycle bins.

You can contact the Lake County General Health District at 440.350.2543 for more information about needle disposal.

REV1: 12/6/2017

OUR VISION

Lake County citizens enjoy continually improving health and quality of life. Healthy, happy, productive workforce which provides quality health services.

OUR MISSION

Working to prevent disease, promote health, and protect our community.
