- # of bedrooms: _____
- # of occupants: _____
- public water supply
- garbage disposal
- dishwasher
- water treatment
- private water supply (well/spring)
- hot tub/Jacuzzi
- other: __________________________

System Description

Septic Tank Size:
- number of tanks: __________
- total gallons: ______________

Pump Tank Size: ______________

Aerobic Treatment Unit Size:
- gallons: ______________
- make/manufacturer: __________________________

- one compartment
- multi-compartment
- other: __________________________

Soil Treatment System Dimensions:
- trenches
- mound
- gravelless
- drip distribution
- at-grade
- below grade
- spray distribution system
- chamber
- at-grade
- below grade
- spray distribution system
- other: __________________________

NPDES permit #(if applicable): __________________________

System Dimensions: __________________________

Accessories:
- septic tank effluent filter
- diversion valve
- siphon
- pump
- distribution box
- other: __________________________

Additional Treatment Components:
- peat filter
- intermittent sand filter
- disinfection
- recirculating sand filter
- other: __________________________

- constructed wetland
- media filter synthetic
