Top 10 Ways to Be a Good Septic Owner

septicsmart

SAM

Have your system inspected every three years by a qualified professional or according to your state/ local health department's recommendations

Have your septic tank pumped, when necessary, generally every three to five years

Avoid pouring harsh products (e.g., oils, grease, chemicals, paint, medications) down the drain

Discard non-degradable products in the trash (e.g., floss, disposable wipes, cat litter) instead of flushing them

Keep cars and heavy vehicles parked away from the drainfield and tank

Follow the system manufacturer's directions when using septic tank cleaners and additives

Repair leaks and use water efficient fixtures to avoid overloading the system

Use soaps and detergents that are low-suds, biodegradable, and low- or phosphate-free

Prevent system freezing during cold weather by inspecting and insulating vulnerable system parts (e.g., the inspection pipe and soil treatment area)
