The following reports on activities for the period shown:

Current Situation
- Lake County General Health District (LCGHD) is currently managing 100 COVID-19 cases. There have been five deaths in Lake County as the result of COVID-19 infection.

Critical Issue(s)
- LCGHD does not have medical/other supplies for distribution.

Health District Updates
- LCGHD continues to enforce the Stay At Home Order, operate the Lake County COVID-19 hotline (440-350-2188), and perform contact tracing.
- LCGHD has received 701 complaints to date regarding local business compliance to the Stay At Home Order, with 389 complaints being received since March 30, 2020.
- Ron Graham met with the Lake County Development Council to discuss small business loans.
- Ron Graham attended meetings with Mayors and Managers and Lake County Fire Chiefs.
- LCGHD met with Lake County Point of Dispensing Supervisors and Lake County Emergency Management Agency to discuss possible scenarios for the administration of future vaccinations.

Governor DeWine’s press conference of April 9, 2020 relayed the following information:
- If personal protective equipment (PPE) cannot be bought, Ohio is reworking manufacturing to produce it.
- Nineteen manufacturers, in conjunction with three hospital partners, have the ability to make upwards of 750,000 to 1 million face shields over the next five weeks. These face shields are able to be sterilized after use.
- Ohio’s compliance to social distancing has worked to flatten the epidemiological curve; while the length of the infection period will ultimately be extended, the state’s COVID-19 caseload will be more manageable. We need to continue to ensure these social distancing practices are maintained.
- In the next week or so, a statewide plan for gradual return to normalcy will be presented.
- Hospitalizations and deaths are still increasing, and remain relatively lagging indicators.
- A blood plasma protocol for determining those most at-risk for COVID-19 death has been developed. This protocol now has United States Food and Drug Administration (FDA) approval.
- April 28 is Election Day. Ballots must postmarked by April 27. There will not be any in-person voting.

Our Mission: Working to prevent disease, promote health, and protect our community
Our Mission: *Working to prevent disease, promote health, and protect our community*

- Ohio is currently building a system for independent contractors to apply for unemployment.
- Current data suggest that African American and Latino communities may be disproportionately affected by COVID-19.

### Planned Activities (next 24 – 72 hours)
- Complete dashboard that will post complaint locations and measures taken via Lake County Geographic Information System should go live.
