### Situation Report #25
#### Incident COVID-19

**Operational Period Dates:** 4/17-4/20/2020  
**Times:** 0800-0800

#### Reporting Unit Planning/Public Information

#### Form 04/09 ICS-209 Short/Modified

The following reports on activities for the period shown:

### Current Situation
- Cumulative Daily Count: Cases – 131; Hospitalizations – 44; Deaths – 6 (Current Status. Definitive cause of death can take weeks to determine.)

- Due to limitations with data available in the Ohio Disease Reporting System, which is used by local health departments, infection preventionists, healthcare facilities, laboratories, and the Ohio Department of Health for capturing and reporting information regarding infectious diseases, the Lake County General Health District is only able to report a cumulative number of COVID-19 cases at this time. While there are some variables that could be used to indicate when individuals have recovered, the sources for this data differ for each case depending on at what stage of their illness they were diagnosed and the extent of their interaction with health care providers. The data are often incomplete or may not apply to all cases (e.g. hospital discharge information, which does not apply to the majority of cases and may indicate improvement, but not necessarily full recovery). Due to these inconsistencies, available data is not reliable for reporting currently active infections with accuracy.

### Health District Updates
- LCGHD continues to enforce the amended stay at home order, operate the Lake County COVID-19 hotline (440-350-2188) and covid19@lcghd.org email inbox, and perform seven day per week contact tracing activities.
- LCGHD has received 810 complaints to date regarding local business compliance to the stay at home order, with 509 complaints being received since March 30, 2020.
- The Lake-Geauga Women, Infants, and Children program (WIC) remains open.
  - WIC serves those who are pregnant or have infants or children under 5 years old and meet income eligibility requirements. Please call the clinic closest to you to see if you qualify: Painesville (440) 350-2552; Willoughby (440) 269-8790; Madison (440) 428-2003; Huntsburg (440) 636-5331.

Governor DeWine’s press conference of April 17, 2020 relayed the following information:
- Governor DeWine reiterated that Ohio’s recovery phase will not start and end overnight. Everyone will need to balance compliance with public health measures, which include (1) implementation of safe guards in businesses, and (2) providing protection against the most vulnerable populations.

Our Mission: Working to prevent disease, promote health, and protect our community
Our Mission:  Working to prevent disease, promote health, and protect our community

Please refer to the website listed below that provides the graphic referenced during the press conference.

- Current small business best practices: (1) provide possible barriers, (2) surfaces should be cleaned more often, (3) possible staggered work and lunch hours, (4) work from home if possible, (5) check temperature of employees daily, and (6) limit the number of individuals in a store.
- Governor continues to network with the Governors of the Great Lakes region: Kentucky, Indiana, Illinois, Michigan, Wisconsin, and Minnesota to develop Ohio’s plan. Every state will develop their plan differently.
- Comprehensive testing of inmates is being conducted in Marion Correctional Institution, Pickaway Correctional Institution, and Franklin Medical Center.
- Lt. John Husted reiterated how the Economic Advisory Group continues to develop the strategies for our state. These will be shared next week. He wants everyone to be clear that employees and customers need to live with this virus safely.
