The following reports on activities for the period shown:

### Current Situation

- Cumulative daily count: cases – 148; hospitalizations – 46; deaths – 6 (current status. Definitive cause of death can take weeks to determine.)
- Due to limitations with data available in the Ohio Disease Reporting System, which is used by local health departments, infection preventionists, healthcare facilities, laboratories, and the Ohio Department of Health (ODH) for capturing and reporting information regarding infectious diseases, the Lake County General Health District is only able to report a cumulative number of COVID-19 cases at this time. While there are some variables that could be used to indicate when individuals have recovered, the sources for this data differ for each case depending on at what stage of their illness they were diagnosed and the extent of their interaction with health care providers. The data are often incomplete or may not apply to all cases (e.g. hospital discharge information, which does not apply to the majority of cases and may indicate improvement, but not necessarily full recovery). Due to these inconsistencies, available data is not reliable for reporting currently active infections with accuracy.

### Health District Updates

- LCGHD continues to enforce the amended stay at home order, operate the Lake County COVID-19 hotline (440-350-2188) and covid19@lcghd.org email inbox, and perform seven day per week contact tracing activities.
- LCGHD has received 859 complaints to date regarding local business compliance to the stay at home order, with 556 complaints being received since March 30, 2020.
- Ron Graham was interviewed on the Spanish-language radio station La Nueva Mía 88.3 FM about COVID-19.
- LCGHD provided consultation for Lubrizol regarding their COVID-19 response plan.

Governor DeWine’s press conference of April 23, 2020 relayed the following information:

- Permissible surgery or procedure criteria for hospitals, per the updated stay at home order:
  - Threat to a patient’s life
  - Threat of permanent extremity/organ dysfunction
  - Risk of worsening of disease or condition
  - Risk of rapidly worsening to severe symptoms

Our Mission: Working to prevent disease, promote health, and protect our community
Our Mission:  Working to prevent disease, promote health, and protect our community

- An Announcement will be provided next Monday, April 27, regarding the reopening of the economy
- COVID-19 is characterized by droplet-based spread
- OSU modeling of the environment
  - Personal controls
  - Business operated controls
  - Facility/building controls
- Food supply chain jobs
  - Over 50,000 jobs available from 866 companies

**Planned Activities (next 24 – 72 hours)**
- Collaborate with Lake County Emergency Management Agency, Lake County Buildings and Grounds, and Lake County Commissioners to receive a fourth shipment of personal protective equipment from the Strategic National Stockpile.

**Additional Information**
- What’s New on the CDC Website
- Ohio COVID-19 Dashboard – Long-Term Care Facilities
