

AGENDA
BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
June 21, 2021

- 1.0 Call Meeting to Order, President Randy Owoc
- 2.0 Opening of Meeting
 - 2.01 Declaration of Quorum
 - 2.02 Citizen's Remarks
 - 2.03 Certification of Delivery of Official Notices of Meeting
- 3.0 Board of Health
 - 3.01 Minutes, Regular Meeting May 17, 2021
- 4.0 Health District Staff Reports
 - 4.01 Clinical and Community Health Services Report
 - 4.02 Environmental Health Report
 - 4.03 Finance and HR Director
 - 4.04 Health Education and Outreach Report
 - 4.05 Office of Health Policy and Performance Improvement
 - 4.06 Health Commissioner's Report
- 5.0 Committee Meetings
 - 5.01 School Health Committee, Meeting Held Tuesday, May 11, 2021
 - 5.02 School Health Committee, Meeting Held Tuesday, May 25, 2021
- 6.0 Old Business
 - 6.01 Board of Health Tracking
 - 6.02 Recommendations from the Technical Advisory Committee, Meeting Held Monday, April 19, 2021
 - 6.03 Recommendations from the School Health Committee, Meeting Held Tuesday, May 4, 2021

7.0 New Business

7.01 Resolutions

7.01.01 Certification of Monies, Resolution 21-06-07-01-01-100

7.02 Permission to Submit Safe Communities Grant, \$42,000

7.03 Permission to Submit Integrated Naloxone Access and Infrastructure (IN23) Grant, \$61,000

7.04 Permission to Accept COVID-19 Enhanced Operations Grant, \$35,772

7.05 Permission to Contract with First United Methodist Church in Middlefield to Conduct WIC Clinics, \$420.00

7.06 Permission to Accept Coronavirus Response Supplemental Grant, \$26,694.00

7.07 Permission to Submit Contract Proposal with Ohio Department of Commerce for Lake County's Manufactured Home Inspection Contract for 2021 and 2022-2023

7.08 Executive Session

8.0 Adjournment

1.0 Call to Order

The regular meeting of the Board of Health of the Lake County General Health District was called to order at 3:00 p.m. on Monday, June 21, 2021, by President Randy Owoc. The meeting was held at the Lake County Health District offices located at 5966 Heisley Road, Mentor, Ohio, and online via Zoom and link was on the Lake County General Health District website (www.lcghd.org).

2.0 Opening of Meeting

2.01 Declaration of Quorum

The following members were present constituting a quorum:

Dr. Alvin Brown	Steve Karns	Ana Padilla
Dr. Irene Druzina	Brian Katz	Dr. Lynn Smith
Rich Harvey	Patricia Murphy	Dave Valentine
Nicole Jelovic	Randy Owoc	Lindsey Virgilio

Absent: Roger Anderson and Anthony Vitolo

Minutes were recorded by Gina Parker, Deputy Registrar.

Also present from the Health District staff:

Dyan Denmeade	Helga Nicastro	Mariann Rusnak
Ron Graham	Matthew Nichols	Paul Stromp
Adam Litke	Gina Parker	Rebecca Trenn
Bert Mechenbier	Dr. Sachin Patel	Chris Wilson
Kathy Milo		

Also in attendance: Gianine (Nina) Germano and Michael DeLeone from the Lake County Prosecutor’s Office, Steve Pelton, Pam DiFranco, Robert McSween, Tim O’Keefe, Kathleen Schneiderman.

David Valentine was introduced as the new Board of Health member representing the City of Mentor-on-the-Lake.

2.02 Citizens' Remarks

Kathleen Schneiderman said that the director's orders requiring facial coverings in schools have been rescinded, the state of emergency has been withdrawn in Ohio, and the reporting advisory system is gone. When the Lake County General Health District (LCGHD) makes recommendations for the upcoming school year, she hopes they recommend no COVID-19 protocols. The recommendations should also include proper hygiene, eating and sleeping habits, and leading healthy lifestyles. She does not feel that students should be wearing/not wearing masks based on their vaccination statuses, as it is discriminatory and would lead to bullying and other issues. She feels the younger kids are being targeted. She said that herd immunity in Lake County has been reached, as 62% of the population is either vaccinated or has natural infection.

Discussion:

Dr. Sachin Patel said that herd immunity is the number in which the virus will no longer be spreading, not necessarily when you have a lower number of cases. The initial estimation for herd immunity was based on the contagiousness of the original strain of COVID-19 and is not applicable to the current variants. The vaccine has shown high efficacy for other strains of the illness and it has shown increase resilience in the younger population. In the past few months throughout the country, there has been a higher rate of hospitalizations amongst teenagers who contracted COVID-19 compared to those with the flu earlier in the pandemic; however, the rate of complications and mortality are still low among that population. His expectation of recommendations is that no COVID-19 protocols be required in schools in the fall, but he cannot be sure. The more people that are vaccinated, the better for our country. For herd immunity, we would need to be closer to 90%.

Dr. Alvin Brown asked if natural immunity is as effective as the vaccine. Dr. Patel said there has only been one study with significant numbers regarding this specifically and it is from the Cleveland Clinic. Clinically, there was no difference between the two groups, but the study only contains five months of data and does not include data from the variants. Lab-based studies on antibody titer suggest immunity is likely greater through the 2-dose vaccines than through natural infection.

Robert McSween is a Lake County resident who used to own a natural food store in Willoughby. He has been studying the benefits of nutrition prevention regarding cancer and other pre-existing conditions in the City of Cleveland. The main causes of these are poverty, stress, and poor nutrition. Personal choices can make a big impact to pre-existing conditions. This information is not included in the media in regards to COVID-19. Even though studies have been documented on the impact of nutrition as a medical benefit, it contradicts some experts' beliefs and is not equally represented. We need to optimize our immune systems to prevent COVID and other diseases.

Tim O'Keefe has not seen detailed and compelling information that would prompt the health department's recommendations for COVID-19 protocols for the 2021-2022 school year and he does not want any COVID-19 protocols in place for it. If recommendations are made, he wants the Board to do its due diligence in gathering the information.

Discussion:

Dr. Brown asked Tim O’Keefe if he read Dr. Patel’s emailed response to his questions. Tim O’Keefe said he had, but did not receive the detailed information he had requested, only generalities for answers.

Ana Padilla stated schools need to prepare COVID-19 plans for the upcoming school year. She shared details of Painesville City Schools plan.

Ron Graham said schools are required by the Ohio Department of Education to submit plans using guidance from the health department to create them.

2.03 Certification of Delivery of Official Notices

Certification of delivery of the official notices of the regular meeting of the Board of Health on June 16, 2021, was made by Health Commissioner Ron H. Graham.

3.0 Board of Health

3.01 Approval of Minutes

Dr. Lynn Smith moved and Patricia Murphy seconded a motion that the minutes of the May 17, 2021, Board of Health meeting be approved as written; motion carried. Brian Katz abstained.

4.0 Health District Staff Reports

4.01 Community Health Services

4.01.01 Division Director’s Report

Staff are continuing to work COVID clinics. Focus has fully shifted from MegaPod style clinics to walk-ins and mobile sites. We are working with various groups across the county to ensure we are going to both the west end and the east end. Homebound visits are still taking place on Mondays. The ODH provided nurses are with us until 6/19 and 6/25, the state has not finalized any extensions at this time.

Per IMPACTSIIS, LCGHD has given 35,608 first or one dose vaccines, and 30,939 second vaccine doses. 60% have received Pfizer, 38% Moderna, and 2% have received J&J. IMPACTSIIS reviewing has started to ensure people at risk of “timing out” for their second dose has started.

Type of Event	Number Completed	Total Vaccinated	Minors Vaccinated
MegaPods	8	11,301	---
Schools	10	322	---
Businesses	13	~400	---
Mobile Clinics	12	~500	---
Walk-Ins (5/17)	5	574	309
Walk-Ins (5/24)	4	300	131

We are still roughly averaging a <2% rate of people who have not received their second dose with us. This still does not take into account the people who reschedule their dose and receive it at a separate clinic.

On a non-Covid note, staff training for eClinicalWorks is scheduled for the end of June. Our to-be-hired clerical/translator will be attending this training. Staff is working through a backlog of ODRS reports and ensuring reports are correctly closed and outbreak reports are generated.

4.01.02
Clinical Services Unit Report

4.01.02
Communicable and Environmental Disease Report

Due to unanticipated circumstances the reporting for Communicable Disease is not available this month.

Get Vaccinated Ohio (GV Ohio)

Carol Tackett, RN completed all six required school immunization validation reviews. She also provided immunization information and education to the respective school nurses as required to complete grant deliverables 7a and 7b.

Children with Medical Handicaps (CMH)/Lead

In May, 247 clients were active on the Treatment, Diagnostic, and Service Coordination divisions of the CMH program. Home visits have been suspended due to COVID19. Clients continue to be assisted by phone as necessary.

The CMH nurse also provides case management for the Lead Testing and Surveillance program. One child with a blood lead level in the 5-9 range continues to be followed until their level is below 5. There were no new children identified with elevated blood lead levels in the month of May.

Car Seat Program (OBB)

Distributed 2 car seats in the month of May. Education is still virtual due to Covid 19 and appointments are on an individual basis. Three nurses are scheduled to attend the Car Seat Training program to increase the number of car seat certified educators. Car seat referrals have been steadily increasing.

Dyan Denmeade provided the following highlights:

- *State nurses will be staying until August 23rd.*
- *Let me know if you would like a tour of the mobile vaccine bus.*

Discussion:

Ron Graham said we would like to retain the \$95,000 mobile vaccine vehicle for future use. The Commissioners are looking to use American Rescues dollars to purchase it.

4.02

Environmental Health

4.02.01 Division Director's Report

4.02.01.01

Updates and Special Topics

Since the last Board meeting, team members from all parts of the Health District have been working to deliver vaccines to the residents of Lake County. Since last month, the target vaccination group has opened up to include anyone over 18 years of age, 12 if Pfizer is used. Clinic focus has shifted to businesses, organizations, walk-in clinics at the Health District, or census areas of the county with a high social vulnerability score. The CDC uses U.S. Census data to determine the social vulnerability of every census tract. Census tracts are subdivisions of counties for which the Census collects statistical data. The CDC ranks each tract on 15 social factors, including poverty, lack of vehicle access, and crowded housing to get a social vulnerability score.

4.02.02 Air Pollution Control Programs

4.02.02.01 Unit Supervisor's Report

Air Pollution Control

Staff participated in an Ohio Technical Services Organization conference call on May 13th. The main discussion topic was how agencies will deal with the return to normalcy after the state allows site visits again. There are quite a few equipment audits that need to be completed to remain compliant with the USEPA requirements. Other topics included statewide standardization of monitor operating guidelines, and seasonal Ozone data updates.

Staff participated in Ohio EPA air monitor audits at the Painesville site. The audit monitors were well within allowable limits.

4.02.03 General Environmental Health Programs

4.02.03.01 Unit Supervisor's Report

Food Safety

The food staff assisted with 4 COVID-19 vaccination clinics in May. 5 staff participated in an Ohio Mosquito Control Association seminar on May 11th. Topics included Pesticide Safety Update, Integrated Mosquito Management, and Ohio Vector Surveillance Update. Registered sanitarian continuing education and Ohio Department of Agriculture pesticide hours were given for this seminar.

The staff are beginning to get back to “regular” work including 231 restaurant inspections, 15 re-inspections, 6 pre-licensing inspections, 7 complaint investigations, 30 swimming pool inspections, and 2 temporary event inspections.

Increased inspections continue at the Hibachi Restaurant in Painesville Township. Progress continues to be made with the sanitation of the facility. There is a deadline of June 21st for the items mentioned at last month's BOH meeting.

Housing

Lake County Elder Interdisciplinary Team

C. Loxterman attended the monthly meeting of the inter-disciplinary team hosted by Job and Family Services.

4.02.04 Vector-borne Disease Program

4.02.04.01 Unit Supervisor's Report

Mosquito Control

We began planning for the 2021 season. With the retirement of John Pitts we will be in a transition period this season. Clarke Mosquito Control has offered to spend a few days with us training both the Larval,(day) and Adulicide,(night) crews. This will be scheduled for late June. Interviews were scheduled for EH staff interested in assisting with the Mosquito program.

4.02.05 Water and Waste Programs

4.02.05.01 Unit Supervisor's Report

Storm Water

On May 17th Kristen Fink posted on the LCGHD Facebook page and Twitter with messages regarding “Pick up Pet Waste” tips to preventing pet pollution to our waterways and Lake Erie. Also included was a link to the new dog waste guidance document for residents.

https://www.lcghd.org/wp-content/uploads/EH/Stormwater/EH_Dog-Waste_Trifold_Rev1-LCGHD.pdf

In May, Kristen Fink conducted Stormwater BMPs at restaurants in Madison including Mary's Diner, Wild Burrito, and Pulp Juice & Smoothie Bar. Posters were delivered along with a brief discussion with management on pollution prevention efforts at their facilities as well as the need to train new employees on the importance of good housekeeping.

She also conducted inspection at the Village of Timberlake Service garage with Mayor Marra on May 13th.

On May 20th -21st Kristen Fink attended the Ohio Stormwater Conference 2021 at Kalahari Conference Center.

Mary Grmek will be serving as our summer EH Technician. She will be working in the afternoons on the stormwater program helping screen outfalls and enter data into the system. She is also handling the Beach program sampling activities. She is a student at The University of Akron majoring in biology.

Sewage Treatment

D. Lark participated in the monthly Ohio Dept. of Health conference call and Technical Advisory Committee.

Rachel Kalb, Brianna Madrigal, George Minger, and Marlena Puhalj are our other summer EH Technician/interns for the NPDES program. They will be conducting our sampling program for our entire household discharging septic systems in the NPDES program. We currently have over 480 discharging systems that must be sampled yearly to verify their performance and prevent pollution of the waters of the State. They will be sampling systems Monday through Thursday throughout the summer. They are all students at Lake Erie College. We currently contract with the College in conducting this program.

H2Ohio/Water Pollution Control Loan Fund

Bids went out and were received in May for the following applicant properties:

98 Deerfield Dr., Painesville Twp.
10681 Lindmar Dr., Concord
84 Fruitland Ave., Painesville Twp.
8589 Billings Rd., Kirtland

**These will all be funded through the H2Ohio funding through OEPA. This funding must be used first before WPCLF funds are to be utilized.

Solid Waste

Liz Militante-Advey conducted the monthly inspections at the Lake County Solid Waste Facility Landfill in Painesville Township.

Water Quality

Bathing Beach

The beach program began on May 24th and the recreation season officially started on Memorial Day. Elizabeth Militante-Advey has worked hard to update the predictive modeling program that we utilize to predict when the lake water may pose a bacterial hazard to swimmers.

Mary Grmek, our summer EH Technician/intern, will be performing most of the beach duties including surveying/sampling the beaches at Mentor Headlands and Fairport Harbor as well as entering all the data into the modelling program.

The bathing beach pages on our website have been updated and redesigned to provide user friendly information to beach goers.

Division Director's Report

Over the past couple of months, our “likes” on FaceBook has increased! We are also sponsoring a raffle to increase our “likes” on FB. Our goal is to have all WIC participants follow us on Facebook. When the waivers are lifted by the United States Department of Agriculture, this will be another way we can effectively communicate with our WIC families! Go ahead and “like” us on FB and be a part of our WIC team! Here is a graph of our progress:

The Director and the WIC Supervisor attended three events to start networking with our Lake-Geauga families and our partners. The networking opportunities with our partners are secondary but are crucial to extend our outreach efforts. At the Geauga County Resource Fair, a connection with the Greater Cleveland Food Bank was made. This connection will be providing shelf stable food box to our WIC participants. The food boxes contain cereal, pasta, canned spaghetti sauce, vegetables and tons more! The picture below is in one box. The first drop off occurred on May 25 at the Wickliffe and Painesville locations. Huntsburg received their food boxes on May 26. The food boxes are free and future distribution has not been determined yet.

Two of our Registered Dietitian's will be working with our families at the Farmers Market as a Farmer Market Navigator. The Navigator's role is to help the WIC participant purchase fruits and vegetables, suggest recipes, offer ways to cook, store, and freeze produce. Also, the Breastfeeding Peer Helpers will be working specifically with our pregnant and breastfeeding moms as a Navigator. Not only will the peers perform all of the duties that the Registered Dietitian will perform but the Peer will be able to start a relationship with the newly pregnant or breastfeeding Mom.

The Middlefield Survey continues to be conducted. In July, it will be a year since we established this location. Every month caseload has increased in Middlefield. The goal of the survey is to determine if we are serving the residents on the correct day, time, location, and find out how we can serve them better.

The Breastfeeding Peer Helpers are conducting a separate survey in Wickliffe, Painesville, and Madison. The Breastfeeding Support Groups have been on hold for quite some time. This survey will gather information regarding the location, day, time of a breastfeeding support group. A gift basket is being raffled off to those who complete a survey.

- May 10 – Lake County Birthright Marketing Committee
- May 10 – Phone call with Director of the Auburn Career Center Culinary School
- May 11 – Early Childhood Services Subcommittee – Lake County
- May 11 – Lake County Breastfeeding Coalition Meeting
- May 11 – Marketing partnership opportunities and grant writing meeting with Birthright of Lake County
- May 21 – Lake Geauga United Head Start Policy Committee
- May 22 – Geauga Baby Shower Event
- May 24 – WIC staff meeting
- May 25 – Painesville Head Start at Summit Academy
- May 27 - Employee Wellness Committee
- May 27 – Lake County Birthright Board meeting
- May 28 – Geauga Head Start Outreach Event

Attendance at the Painesville Resource Center was very beneficial. Contacts were made with Christ Child Society of the Western Reserve, Lakeland Community College, Lake Geauga Head Start, Crossroads Health, Eastern Chambers of Commerce, and Signature Health. We also established a WIC appointment for a child. The Lakeland Community College contact will be passing WIC's contact information along to a person who works with the moms who have children in the preschool program. The Director offered to share WIC information and all of the services that the Health District offers.

The Geauga Head Start Event on May 28 was very beneficial also. The Director had an opportunity to meet the Family Advocate for Geauga Head Start and provided a short talk to around 50 parents about WIC before the Geauga Head Start Graduation started. Distributed WIC brochures, WIC Shopper App flyers, and Myplates.

One Door to Pathways

In the month of May the Service Coordinator participated in the ODH Results Based Accountability 101 training via zoom. The training program teaches health department staff an easy method to create and evaluate health programs with the community goals and data as the forefront. The method aligns well with PHAB reporting requirements. The Service Coordinator plans to share the information with Denise Powell, Senior Coordinator, to help her organization. The Service Coordinator also completed 2 Medicaid applications for clients, and submitted one tech grant for the senior center database.

The Service Coordinator attended the following meetings and trainings:

- May 3rd – CMS SHOP Insurance Referral Meeting
- May 6th – Medicaid Client Meeting
- May 10th – Results Based Accountability Training
- May 12th – CMS Assister Webinar
- May 13th - Results Based Accountability Training
- May 17th – HIPAA Training
- May 18th - Results Based Accountability Training
- May 19th – Meeting with Denise Powell
- May 19th – Georgia Health Policy Webinar
- May 19th – Client Medicare Meeting
- May 20th - Results Based Accountability Training
- May 20th – Client Medicaid Meeting
- May 24th – WIC Staff Meeting
- May 24th – Grant Meeting with Ron and Cleveland Clinic
- May 24th – Client Medicaid Meeting
- May 25th – Clear Impact Scorecard Training with ODH

4.04.02 Women, Infants and Children (WIC) Unit Report

Nutrition Education

WIC is continuing to offer nutrition education to all participants with every visit. We have started tracking the folic acid SMART goal education given to all women who are of child bearing age. We have not started having group classes due to the COVID-19 restrictions which are still in place through State WIC.

We have received our allocation of Farmer’s Market vouchers for this year. Huntsburg has already begun giving out the vouchers in their clinic. Their clients like to shop early for the berries. State WIC has also provided the local agencies with the purple shopping bags pictured below.

Breastfeeding Updates

The breastfeeding team is working hard to create a virtual celebration for breastfeeding awareness month which is in August. The theme this year is “Protect Breastfeeding: A Shared Responsibility”. They have partnered with the Painesville YMCA for donations of diapers, sanitary napkins, tampons, breast pads, wipes, etc. The drive is from June 1-July 16. The breastfeeding team will also be asking for donations from local businesses from both Lake and Geauga Counties to give to our breastfeeding moms.

4.05

Office of Health Policy and Performance Improvement

4.05.01

Director

During the month of May, Matthew Nichols participated in weekly COVID-19 business compliance, vaccine planning, and vaccine equity meetings, respectively, while also monitoring biweekly Ohio Governor's Press Conferences, and supporting the agency's Incident Command System (ICS) Planning Section Chief and Public Information functions, as they relate to contribution towards weekly Situation Reports (SitReps) and COVID-19 data briefs. Beginning on Friday, June 11, distribution of a weekly COVID-19 SitRep will cease (unless situationally necessary), and COVID-19 data briefs will transition to a monthly distribution schedule.

Throughout the month of May, Matthew Nichols and Jessica Wakelee continued to prepare the 2020 Holmes County Community Health Needs Assessment Technical Report on behalf of Holmes County General Health District, Pomerene Hospital, and Partners for a Healthier Holmes County. The respective report is scheduled for completion during the month of June. Additionally, Matthew Nichols is in the process of identifying a series of meeting dates for the LCGHD Strategic Planning Committee to convene, in order to identify strategic priorities to be included in the 2021-2023 LCGHD Strategic Plan.

4.05.02

Quality Assurance and Special Projects Coordinator

LCGHD's COVID-19 public information response is currently demobilizing. Weekly SitReps ceased distribution on June 11, and Lake County COVID-19 data reports will move from a weekly to monthly distribution cycle. The COVID-19 data report will be posted on the LCGHD website and sent to those who sign up to receive it, similar to how LCGHD distributes other data reports. Information on LCGHD's COVID-19 webpage has been edited so that daily updates are no longer necessary; however, pertinent information is still accessible and easy to locate. Christine Margalis and Jessica Wakelee will continue to post COVID-19 clinic information on LCGHD's website and social media until Community Health Services identifies a staff member who is able to take on the task.

Reaccreditation Workgroup met virtually on June 3, and will hold its first in-person meeting in over a year on July 1. While progress toward reaccreditation activities understandably stalled throughout the pandemic, routine activities will be reinstated during the monthly of July. This includes customer satisfaction survey distribution, LCGHD workgroups, monthly staff meetings, workforce development trainings, and quality improvement activities. Christine Margalis will be working through the month of June with each division to insure a smooth transition back to routine activities.

4.05.03

Policy, Research, and Planning Coordinator

Jessica Wakelee continues to assist Christine Margalis as back-up Public Information Officer (PIO) for the COVID-19 response, focusing primarily on maintaining the LCGHD website content, and weekly COVID-19 data reporting. LCGHD was notified in late May of two additional funding reallocations for the Coronavirus Response Supplemental (CO21) and COVID-19 Enhanced Operations (EO21) subgrants. The EO21 subgrant, the funding period for which extends through July 30, 2022, received an additional allocation of \$35,772.00 on May 26, increasing the total funding of this award to \$672,743.00. The CO21 subgrant, which extends through December 30, 2021, received an additional allocation of \$26,694.00 on May 27, increasing the total funding of this award to \$587,751.00. Budget revisions for both awards are in process. The Vaccine Equity subgrant (VE21), originally scheduled to run through June 30, 2021, was extended through September of 2021. A revised work plan was submitted to the Ohio Department of Health (ODH) on June 7, 2021, in order to update amended activities based on increased access to the one-dose Johnson & Johnson COVID-19 vaccine.

From May 3 to May 6, Jessica Wakelee traveled to the National Emergency Training Center in Emmitsburg, Maryland, to attend “Exercise Foundations, Program Management, Design, and Deployment,” the first of two courses required for the FEMA Master Exercise Practitioner Program. The course offered an opportunity to network with colleagues from a variety of disciplines across the country who manage exercise programs for their agencies, such as state and local emergency management, fire, law enforcement, healthcare, federal government, military, government contracting firms, and other disciplines. Ms. Wakelee will complete several homework assignments related to the planning of a local exercise before returning to Emmitsburg in September of 2021 to complete the second week of coursework. Following the completion of this coursework, Ms. Wakelee is required to complete a capstone project within one year, which entails designing, executing, and evaluating a functional or full scale exercise locally, and successfully presenting and defending it to a panel before being granted Master Exercise Practitioner (MEP) credentials.

4.05.04

Emergency Preparedness

In response to the 2019 novel coronavirus (COVID-19) pandemic, Emergency Preparedness Coordinator Dawn Cole continued to fulfill the role of ICS Planning Section Chief during the month of May. Other activities included the following:

- Issued four Situation Reports for distribution to Lake County General Health District partners.

The following Public Health Emergency Preparedness (PHEP) and/or Cities Readiness Initiative (CRI) grant deliverables were submitted to ODH:

- Deliverable-Objective 5.4 – Fourth Quarter Outbreak Report Status Worksheet
- Deliverable-Objective 14.4 – Tactical Communications Strategy
- Deliverable-Objective 16.1 – Volunteer Management Activity Plan

The following PHEP and/or CRI grant deliverables were approved by ODH:

- Deliverable-Objective 5.4 – Fourth Quarter Outbreak Report Status Worksheet
- Deliverable-Objective 13.1 – After Action Report/Improvement Plan Activity Report
- Deliverable-Objective 14.4 – Tactical Communications Strategy
- Deliverable-Objective 16.1 – Volunteer Management Activity Plan

Meetings/Trainings Attended:

- Attended the Northeast Ohio Metropolitan Medical Response System Healthcare Coalition meeting on May 7, 2021.
- Attended the Cleveland BioWatch Action Committee meeting on May 18, 2021.
- Facilitated all equity planning meetings that occurred in May.
- Facilitated all Management Update Coordination and Communication meetings that occurred in May.
- Participated in weekly COVID-19 update conference calls with ODH every Wednesday in May.
- Participated in all Tuesday and Friday COVID-19 Public Information Officer calls with ODH.
- Monitored all COVID-19 press briefings with Governor DeWine in May.
- Attended weekly COVID-19 Mass Vaccination Friday conference calls with ODH in May.

Dawn Cole also collaborated with graduate students from Northeast Ohio Medical University to assist in a senior loneliness social media campaign.

Lake County Health Commissioner Clarifies Lifting of Ohio Public Health Orders	May 18, 2021

Marketing Committee

The Marketing Committee did not meet in May.

4.05.05

Health Education

Tobacco Youth / Cessation

During the month of May, NAMI of Lake County (NLCO) passed an agency smoke-free policy. Health Educator Tammy Spencer provided NLCO with templates and language that could be used for their policy, the latter of which were modified to meet the needs of their agency. Tammy also provided NLCO with cessation resources from the Ohio Tobacco Quit Line and My Life My Quit to distribute to clients. Passing tobacco and smoke-free policies have been shown to assist in preventing initiation of tobacco use, increase quitting, and decrease use among those who continue to use tobacco. Policies are foundational tools for social norm change.

The following Tobacco Use Prevention and Cessation (TUPC) grant deliverables were submitted to ODH:

- Deliverable Objective P8C – Activity 3 – Policy 4th Quarter Community Readiness Activities
- Deliverable Objective P8E – Activity 5 – Policy Vote or Hearing
- Deliverable Objective P8F – Activity 1 – Approved Policy
- Deliverable Objective P8F – Activity 2 – Policy Implementation Plan
- Deliverable Objective P8F – Activity 3 – Policy Target Number
- Deliverable Objective Y9C – Activity 5 – Youth 4th Quarter Community Readiness Activities
- Deliverable Objective Y9D – Activity 1, 2 & 3 – Potential Stakeholders, Meetings Listing
- Deliverable Objective – Y9F – Activity 1 – Youth Policy Passed
- Deliverable Objective – Y9F – Activity 3 – One Policy Passed
- Deliverable Objective – C11B3 – Activity 4 – 100% of Target Partner Participation
- Deliverable Objective – V13B – Activity 5 – Vaping Community Readiness Activities
- Deliverable Objective – V13D – Activity 2 – MLMQ Activities and Barrier Report
- Deliverable Objective – H15A – Activity 9 & 10 – Health Equity #5 Training
- Deliverable Objective – H15F – Activity 4 – Health Equity 4th Quarter Community Readiness Activities

Meetings/Trainings Attended:

- ODH “One on One” Monthly Call
- ODH Tobacco Staff “All Hands” Monthly Call
- County Collaboration Tobacco Call
- NAMI Health Disparity & Tobacco Meeting
- Equitable Enforcement in Commercial Tobacco Control Policy
- Stigma, Biases and Shame: Tobacco Use and Wellbeing Masterclass

Tammy Spencer also provided data entry support at COVID-19 vaccination clinics on May 7th and May 21st.

Medical Reserve Corps (MRC)

Lake County MRC Coordinator Tammy Spencer continued to schedule MRC members for requests received to assist with data entry, pharmacy, and vaccination support at COVID-19 vaccination clinics occurring during the month of May. In total, the unit provided a total of 165.5 hours of support in May, and were deployed 38 times to help staff 10 response activities. MRC members also provided support to the CIOT Buckle-Down Project. Members helped assemble postcards that were distributed at the event, and provided support on the day of events filling out seatbelt surveys. Tammy Spencer completed the PHEP CORE 16.1 Volunteer Management Activity Plan that was submitted for the PHEP grant.

Meetings/Trainings Attended:

- Weekly COVID-19 Vaccine Planning Calls
- Weekly Health Equity Planning Calls
- State MRC Coordinator Bi-Weekly Calls

Safe Communities

- May car crash fatality – 1 (Data Source: SAU Fatal Crash Database)
- Social Media Safe Driving Campaigns
 - Motorcycle Awareness Month – 6,856 people reached
 - Click It or Ticket (May 24-June 6) – 16,167 people reached
- Printed Media – 27,250 people reached
 - Click It or Ticket Campaign article in Lake County Tribune – May 14 (7,250 readers)
 - Click It or Ticket press release sent to all media contacts – May 18
 - Received confirmation of on-air PSA from WINT Radio (20,000 listeners per hour)
- Buckle Down Seat Belt Preliminary Results:
 - As of June 2, *89.2% of McDonald’s drive-thru patrons wear seat belts. See chart below.

McDonald's Location	Total Cars	Total Surveyed	Drivers		Front Passengers		Backseat Passengers	
			Belted	Unbelted	Belted	Unbelted	Belted	Unbelted
Broadmoor	153	198	131	22	24	3	17	1

Total	631	818	561	70	107	11	62	7

* Data from one location is not included. Updated results will be reported once all data is collected.

- Safe Communities FY 2022 Grant Proposal – Submitted May 20
- Meetings Attended:
 - Virtual S.A.D.D. Organization Webinar – The Road to Teen Traffic Safety 1 of 3 (May 12)
 - Virtual S.A.D.D. Organization Webinar – The Road to Teen Traffic Safety 2 of 3 (May 19)
- Upcoming LCSCC & Fatality Review virtual meetings – Wednesday, June 16 at 9:00 am

Project DAWN / IN22

- Number of naloxone trainings: 35
- Number of kits distributed: 35
- Number of known reversals: 1
- IN23 Continuation Grant Proposal 2022 – Due June 7
- Meetings Attended:
 - OPN Data Subcommittee (May 4)
 - OPN Policy Subcommittee (May 6)
 - OIPP Meeting (May 7)
 - Recovery Ohio Drug Trends (May 18)
 - OPN Harm Reduction Subcommittee (May 19)
- Scheduled Trainings:
 - Medical Reserve Corps, Naloxone Training – Tuesday, June 8, at 10:00 am

OMHAS

- Law enforcement reported a total of five lives saved during the month of May by way of naloxone administration reported
- Number of ER transports reported: 2
- Number of kits distributed from LCGHD to LEAs: 37

Lake County Community Health Improvement Plan / Motivate Lake County

Continuing from last month's updates, OHPPI staff are in the process of adding additional data to the 2019 Lake County Community Health Needs Assessment and 2020-2021 Lake County Community Health Improvement Plan, in order to illustrate the effects of the COVID-19 pandemic in Lake County. The goal is to have the data updates and document addendums complete by the end of June.

Based on survey feedback, "Ask the Expert" programming has been moved from Fridays at 2:00 pm to Thursdays at 11:00 am. Additionally, a new monthly blog related to dating and relationship violence will be posted at the beginning of each month, and new video content developed before the end of June to be featured on the Motivate Lake County website. Partnerships with a financial advisor and a community education specialist have been secured to create this new, unique content.

Matthew Nichols provided the following highlights:

- *Another Public Health Associate from the Centers for Disease Control and Prevention (CDC) has been awarded. It is a two-year paid position and the associate will begin in October.*

Discussion:

Steve Karns asked if it was a full-time position. Matthew Nichols stated it is and is paid for by the CDC.

4.06

Health Commissioner's Report

4.06.01

What Health Orders Have Ended?

Ohio Department of Health Director Stephanie McCloud signed an order rescinding the following COVID-19-related health orders:

- The Director's Order to Limit Access to Ohio's Jails and Detention Facilities.
- The Director's Order to Release Protected Health Information to Ohio's First Responders.
- The Director's Order Requiring the Use of Facial Coverings in Child Education Settings.
- The Director's Order for Retail and Business Compliance for Facial Coverings through the State of Ohio.
- The Second Amended Director's Order on Adult Day Support Services and Vocational Habilitation Services.
- The Third Amended Director's Order on the Opening of Senior Centers.
- The Third Amended Director's Order on the Opening of Adult Day Services Centers.

The rescissions went into effect at 12:01 a.m. on June 2, 2021.

The Director's Second Amended Order for Social Distancing, Facial Coverings, and Non-Congregating was previously set to expire at 12:01 a.m. on June 2, 2021, and is also now no longer in effect.

The director previously rescinded several other orders.

The Director's Order to Laboratories in Ohio to Report Results of COVID-19 Tests was rescinded May 12, 2021.

These orders were rescinded April 5, 2021:

- The Director's Order to Require an Inventory of All Ventilators in Ohio.
- The Director's Order that Reopens Campgrounds, with Exceptions.
- The Director's Order that Provides Guidance for Baseball, Softball, Batting Cages, Golf Courses, Miniature Golf, Local and Public Pools and Aquatic Centers, Tennis Facilities, Skills Training for All Sports, and General Non-Contact Sports including Bowling Alleys, with Exceptions.
- The Director's Order that Reopens Gyms, Dance Instruction Studios, and Other Personal Fitness Venues, with Exceptions.
- The Director's Updated and Revised Order for Business Guidance and Social Distancing.
- The Director's Order that Amends the Requirements for Non-Essential Surgeries and Procedures.
- The Director's Order Updating and Revising Requirements and Guidance for Youth Camps and Residential Camps, with Exceptions.
- The Director's Second Order to Extend the Expiration Date of Various Orders.

- The Director’s Order for Facial Coverings throughout the State of Ohio.
- The Director’s Order that Provides Mandatory Requirements for Entertainment Venues.
- The Director’s Third Amended Order that Reopens Restaurants, Bars, Banquet and Catering Facilities and Services to Dine-in Service, with Exceptions.
- The Director’s Second Amended Order that Provides Mandatory Requirements for Youth, Collegiate, Amateur, Club and Professional Sports.
- The Amended Director’s Order that Reopens Hair Salons, Day Spas, Nail Salons, Barber Shops, Tattoo Parlors, Body Piercing Locations and Tanning Facilities, with Exceptions.
- The Addendum to Director’s Third Amended Order that Reopens Restaurants, Bars, Banquet and Catering Facilities and Services to Dine-in Service, with Exceptions.
- The First Amended Revised Order to Limit and/or Prohibit Mass Gatherings in the State of Ohio, with Exceptions.
- The Addenda to Director’s Second Amended Order that Provides Mandatory Requirements for Youth, Collegiate, Amateur, Club and Professional Sports and Director’s Order that Provides Mandatory Requirements for Entertainment Venues.
- The Director’s Order that Reopens Fairs and Animal Exhibitions, with Exceptions.
- The Addendum to Director’s Second Amended Order that Provides Mandatory Requirements for Youth, Collegiate, Amateur, Club and Professional Sports and Extracurricular Activities.

4.06.02

President Biden Releases Full FY22 Budget Proposal

In early June, President Biden released his [full budget proposal](#) for FY 2022. While Presidential budgets are only proposals—and Congress is welcome to adopt any part of it, or not, when they appropriate funding for the next fiscal year—it is seen as an important statement of what the Administration values and would like to prioritize.

The budget contains the **largest proposed investment in the Centers for Disease Control and Prevention (CDC) in two decades**, investing \$9.7 billion for the agency— a \$1.7 billion increase over FY2021. All budget line items in CDC divisions received increased funding in the budget.

The Biden budget expands existing programs such as the Maternal, Child and Health Block Grant program, while creating new programs as the nation pulls through the COVID-19 pandemic. The Department of Health and Human Services (HHS) budget focuses on preparedness efforts with large increases to the strategic national stockpile and the Biomedical Advanced Research and Development Authority (BARDA); however, it neglects to increase funding to needed local health department grant programs such as the Public Health Emergency Preparedness program, a key priority of National Association of County and City Health Officials (NACCHO).

The budget also heavily focuses on the threat of violence as a public health issue, including a new Community Violence Intervention initiative through CDC. In addition to the discretionary investment of the initiative, the budget includes a total of \$5 billion in mandatory funding for CDC and the Department of Justice, beginning in FY2023 and continuing through FY2029.

Public health impacts from climate change are also a focal point in the budget request. The budget supports increased funding and research towards understanding the health impacts of climate change.

Specific budget amounts requested include:

Centers for Disease Control and Prevention (CDC)

- CDC Injury Center – \$1.1 billion, an increase of over \$420 million over FY2021 levels, which focuses on supporting state and local health departments to prevent unintentional and intentional injury and violence that affects youth, prevent rape, sexual and intimate partner violence; and prevent child abuse and neglect.
- Opioid Overdose Prevention and Surveillance program – \$713 million, a \$238 million increase from FY2021 enacted levels, that would expand the reach of the program to approximately 25 of the nation’s largest cities and 40 smaller communities heavily impacted by the overdose crisis.
- Social Determinants of Health program – \$153 million, a \$150 million increase over FY2021, for CDC’s Social Determinants of Health program to expand activities to address social determinants of health in all states and territories. The funding can support data and communication efforts aimed at addressing health disparities.
- Public Health Data Modernization – \$150 million, a \$100 million increase over FY2021, to efforts to expand electronic case reporting and connectivity to electronic health records. NACCHO has advocated for increased data modernization efforts to assist with administrative burden of antiquated systems, such as local health departments faxing COVID-19 information to CDC.
- Ending the HIV Epidemic program – \$275 million, a \$100 million increase over FY2021 levels.
- Climate and Health program – \$110 million, a \$100 million increase over FY2021, to support local, state, tribal and territorial public health agencies to be climate ready and prepared.
- Public Health Emergency Preparedness – \$695 million, same as FY2021 enacted levels. NACCHO has requested \$1 billion for this critical program.

Health Resources and Services Administration (HRSA)

- Maternal and Child Health Block Grant - \$823 million, an increase of \$110 million from FY2021
- Ryan White AIDS Programs – \$2.6 billion, an increase of \$131 million from FY2021.
- Part A Emergency Assistance (cities) - \$666 million, an increase of \$10 million from FY2021.
- Part B Comprehensive Care (states) - \$1.3 billion, an increase of \$30 million from FY2021.
- Part B AIDS Drug Assistance Program - \$900 million, same as FY2021.

- Ending the HIV Epidemic Initiative - \$190 million, an increase of \$85 million from FY2021.

HHS Public Health and Social Services Emergency Fund

- Assistant Secretary for Preparedness and Response - \$3.5 billion, an increase of \$676 million from FY2021.
- Hospital Preparedness Program - \$292 million, an increase of \$11 million from FY2021.
- Biomedical Advanced Research and Development Authority - \$823 million, an increase of \$227 million from FY2021.
- Project BioShield - \$770 million, same as FY2021.
- Medical Reserve Corps - \$6 million, same as FY2021. MRC received a \$100 million appropriation in the American Rescue Plan Act.
- Pandemic Influenza Preparedness - \$328 million, an increase of \$48 million from FY2021.
- Strategic National Stockpile – \$905 million, an increase of \$200 million from FY2021.

The Biden budget also proposes new programs and budget lines. Of note, the budget includes new investments in Public Health Infrastructure and Capacity to transition from a “boom and bust cycle” of supplemental funding tied to a specific emergency to sustainable funding that can prepare for and prevent another public health crisis. Some of these programs include:

- Public Health Infrastructure and Capacity - \$400 million in flexible funding that can rebuild the most critical public health infrastructure needed to safeguard against the next pandemic and other emerging health threats.
- Prepare Americans for Future Pandemics - \$6 million in FY2022 in discretionary funding but requests \$30 billion in mandatory funding over four years, in HHS, the Department of Defense, and the Department of Energy for medical countermeasures manufacturing and related activities to create jobs and prepare Americans for future pandemics.
- Community Violence Intervention Initiative - \$100 million to CDC to start the initiative, in collaboration with the Department of Justice, to implement evidence-based community violence interventions at the local level.
- Reducing Maternal Mortality - \$3 billion over five years in mandatory funding to invest in maternal health and reduce the maternal mortality rate and end race-based disparities in maternal mortality.

4.06.03

Proposed Limits on Public Health Authority: Dangerous for Public Health

This report is a culmination of a rapidly developed project between NACCHO and the Network for Public Health Law with assistance from Johns Hopkins and many others. This project was supported in part from funds NACCHO received from the CDC Foundation for COVID-related projects. The following is an excerpt from the report describing its contents and intent:

In recent months, at least 15 state legislatures have passed or are considering measures to limit severely the legal authority of public health agencies to protect the public from serious illness, injury, and death. Other states may consider such legislation in the future. It is foreseeable that these laws will lead to preventable tragedies.

Specifically, this report finds that dissatisfaction and anger at perceived overreaches by governors and public health officials in response to the COVID-19 pandemic has led to an onslaught of legislative proposals to eliminate or limit the emergency powers and public health authority used by these officials. Public health officials are also being threatened personally.

The report provides a brief history of public health authority and an overview of the forces seeking to limit public health authority. It offers examples of specific laws that would limit public health authority, and key arguments to counter proposed legislation. It is intended as a resource for public health officials, advocates, and policymakers.

Thanks in advance for helping to disseminate the report widely in any of your appropriate channels and to utilize the report to help support your own jurisdiction's defense against any proposed legislation to limit public health authority.

AOHC Signs onto Coalition Letter in Opposition to House Bill 248

Association of Ohio Health Commissioners (AOHC) has signed onto a [Vaccine Coalition Letter 5.20](#) that opposes HB 248, which proposes dangerous changes to Ohio's current public health framework that has been built over decades to quickly respond to and prevent outbreaks of potentially lethal diseases – such as measles, meningitis, tuberculosis and hepatitis. It is broad legislation that prohibits requiring any and all childhood vaccines and removes the key motivating factor for parents to take their children to regular well care visits – which will have catastrophic, long-term effects on both the mental and physical health of children and adolescents. It also prohibits any entity from requiring masks for entry for any reason – including hospitals.

Ohio already has some of the most lenient vaccination requirements in the country – parents can currently opt out of ANY vaccinations (including COVID-19, flu, etc.) for any reason – medical, religious, philosophical, etc. This bill will go even further prohibiting schools and child care providers from requesting vaccination records and even prohibits parents from voluntarily submitting these records.

In a nutshell, HB 248-11 will systematically dismantle the childhood vaccination program in our state – and will have catastrophic long-term ramifications for Ohio's health outcomes, workforce and vitality.

Federal Public Health Workforce Funding

The Biden administration [announced](#) plans for an investment of \$7.4 billion from the American Rescue Plan to bolster the public health workforce to respond to COVID-19 and prepare for future public health challenges. This funding will be distributed by the CDC through a cooperative agreement with 65 grantees, including the Ohio Department of Health (ODH).

The first distribution will be \$2 billion, with Ohio slated to receive approximately \$69 million. Federal experts report that no less than 40% is to be designated to local health departments. AOHC has established a workgroup to review federal guidance, as it is issued, and to work with ODH on Ohio's approach to this unprecedented funding opportunity.

Board of Health: New Member and Reappointments

Dave Valentine has been appointed as the new representative for Mentor on the Lake. Dave is a safety director for a large construction company.

Dr. Irene Druzina is up for reappointment as the representative for the City of Kirtland. Dr. Druzina has been on the Board of Health since December 2019.

Patricia Murphy is up for reappointment as one of the representatives for the City of Mentor. Patricia has been on the Board of Health since February 2011.

Web Site Report

Ron Graham provided the following highlights:

- *Patricia Murphy of the City of Mentor and Dr. Irene Druzina of the City of Kirtland have been reappointed to the Board of Health. David Valentine has been appointed by the City of Mentor-on-the-Lake.*
- *We may receive up to \$2 million from the Lake County Commissioners to help with building improvements, services, and staffing.*
- *Lake County is still ahead of the state in vaccination rates. The van is helpful in reaching equity and high-risk populations.*

Discussion:

Steve Karns asked if the health department is competing with other agencies for the \$2 million from the Commissioners. Ron said that we are not.

School Health Committee, Meeting Held Tuesday, May 11, 2021

**Lake County General Health District
School Health Committee Meeting
Minutes
May 11, 2021**

The meeting of the Board of the Lake County General Health District's School Health Committee was held on May 11, 2021. The meeting was held online via Go To Meeting and link was on the Lake County General Health District website (www.lcghd.org).

In attendance at the meeting were Board of Health members:

Dr. Alvin Brown
Rich Harvey
Ana Padilla

Patricia Murphy
Lindsey Virgilio

Also in attendance were: Ron H. Graham, Health Commissioner; Mariann Rusnak, Office Manager/Registrar. General Public: Tim O'Keefe, Lisa Reed, Nicole Loerch, Becca Vojacek and Tom Hach. Educational leaders: Chuck Schlick, Assistant Superintendent Riverside Schools; James Kalis, Superintendent Riverside Schools; Josh Englehart, Superintendent Painesville City Schools; Mark Crowley, President Lake Catholic; Jennifer Felker, Superintendent Educational Service Center

The meeting was called to order at 8:00 a.m. by Ron Graham, Health Commissioner.

Ron Graham provided the educational leaders the opportunity to express their opinions regarding school operations for the fall of 2021.

Josh Englehart

Appreciated the relationship with Ron and the Health District providing guidance and support. Painesville City Schools intends to return to 100% in person learning in the fall of 2021. Children who chose on-line learning have not been successful regarding achievement, engagement, or attendance. Impact of resources due to on-line learning and face to face learning. Provisions for allowing districts to create dedicated on-line programs may or may not be extended into next year. Would like to plan and share with our families what our intentions may be in the fall. Information was shared with the School Board that the plan is to return to 100% in person learning. However, we need to communicate with families directly and need projected guidance from the local level.

James Kalis

Second session of remote learning in the fall of 2020 was much better than last spring. We would like to see children back in the classroom for face to face learning. We will follow any guidelines in place by the State with backing from the School Board. Only use on-line courses occasionally. The State has not provided much guidance. The local Health District has been accessible, resourceful and quick to respond as needed.

Ron Graham stated that Tania Nanavati, Muhammad Jafar and other Health District staff have been a big part in assisting schools.

Mark Crowley

Lake Catholic has been open since August 20th. In class learning about 80% of the time. Remotely only a few times due to the extra workload on faculty. Protocols with masks were helpful and kept kids safe. About 7-10% are remote learning, except during the holidays. We hope with the increase in vaccination that will increase the comfort level of our remote learners to come back into the building. The Diocese is exploring a virtual option, however it heavily impacts the faculty.

Question – potential for herd immunity eliminating the need for masks if 70-75% of the building were vaccinated, would that reduce the protocols? Ron Graham stated he was unsure and that would be a question for infectious disease.

Discussion

Patty Murphy asked Mark Crowley if the Diocesan effort to centralize remote learning for next year in all grades. Mark Crowley stated yes, in all grade levels across the diocese.

Rich Harvey inquired about the percent of students that are remote learning at Riverside and Painesville City Schools. Jim Kalis stated about 27-28% are remote learning. Josh Englehart stated that about 40% are remote learning.

Lisa Reed

Conversations for planning for schools and parents is now. Why parents chose remote learning for their children, did they not agree with the setting in the classroom or did they not agree with wearing masks all day. If the setting were to change in the classroom, would that impact their decision on remote learning? Summer learning/summer school – could they do this mask free? A couple school districts in Ohio were having summer learning mask free. Lisa placed information from Texas school districts in the drop box regarding mask mandates being lifted.

Tom Hach

Discussion at the school board meeting: How to proceed in the fall: 1) Is the current environment with masks or on-line learning been positive for our children's education; 2) Potential impact with any change on the coronavirus. We need to do what's best for education. Ohio children are 1 year behind in math and 6 months behind in reading. There will always be a risk. Reviewed data from the health district and the risk is minimal for the younger age group. The school boards should make the decision of what is best for our students and cost for the school district. They are directly responsible and accountable to the voter. Tom noted that he speaks on his own behalf and not that of the School Board.

Tim O’Keefe

Don’t defer to medical personnel or organizations, such as the Ohio Department of Health (ODH) or Centers for Disease Control and Prevention (CDC) in making your decision on school protocols. Make your decision from the perspective of the town or the organization that appointed you to this board.

Jennifer Felker

The Health District has been very supportive to the schools. They worked with the school districts to organize the vaccination of faculty at all of the schools. We try to coordinate a systematic approach and help coordinate the decisions. Our role is to educate our children. The demographics and culture in our communities are different. We support our schools in their decisions, with guidance in their direction.

Comments:

Mark Crawley – question on safety and education from Tom Hach; Students that wore masks allowed us to be in the building. Students being in a close optimal position in terms of mental health and ability to study and follow up on the work really helped. If wearing masks in the fall allows the school boards to choose to have in person learning, all the better. The pandemic has not impacted the students’ performances. To Tim O’Keefe’s point – we have been in discussions on a regular basis working with the Lake/Geauga Health Districts and Superintendents and are making decisions based on our communities. Lisa Reed added masks should be reviewed at all grade levels. Tom Hach commented that COVID-19 has been part of our environment and we need to learn to live with it. Concerned about what type of psychological issues will be with us. We need to graduate people from these institutions that are educated, competent, psychologically stable and as adaptable as possible. Decision should be up to the school board, as it is not a “one size fits all”. Ron Graham stated that we need to assess the risks, outbreaks, transmission and protocols as a team.

Patty Murphy stated that the consensus is safety, education, and openness in the fall. Best decision should come from the lowest level, health district guidelines with leadership roles, such as possible guidelines if masks are optional and daily health checks recommended. CDC provides guidelines, not rules or laws.

Rich Harvey stated that placing the decision on the school board is okay. It is concerning as a health district; do we do everything that way, restaurants, business, etc. We need to be cautious of our decisions and look at all aspects - mask wearing is important, many children have mental health issues, socialization, spread of COVID-19, vaccinated and non-vaccinated people. We do not have supporting documentation to open everything up. Tom Hach stated it is people’s choice to be vaccinated or not vaccinated. Don’t treat people differently.

Ron Graham stated that further discussion will take place at the Board of Health meeting on May 17th. We have reduced the use of ventilators, mortality, hospitalization, compliance K-5 of masks, age specific, case rate, etc. We will have discussions with our medical director.

Patty Murphy – Asked if the group (health department and superintendents) would carefully re-evaluate the opening of school options, parental voice, etc. Ron stated that we need to help the parents by providing guidance regarding impact of school programs. No decision will be made until August.

Meeting adjourned at 9:00 a.m.

School Health Committee, Meeting Held Tuesday, May 25, 2021

Lake County General Health District School Health Committee Meeting Minutes May 25, 2021

The meeting of the Board of the Lake County General Health District's School Health Committee was held on May 25, 2021. The meeting was held online via Go To Meeting and link was on the Lake County General Health District website (www.lcghd.org).

In attendance at the meeting were Board of Health members:

Dr. Alvin Brown
Dr. Irene Druzina
Rich Harvey

Randy Owoc
Ana Padilla

Also in attendance were: Ron H. Graham, Health Commissioner; Dr. Sachin Patel; Medical Director; Gina Parker, Deputy Registrar. General Public: Tom Hach, Tim O'Keefe, David Rako, Lisa Reed, and Kathleen Schneiderman.

The meeting was called to order at 8:00 a.m. by Ron Graham, Health Commissioner.

Ron Graham reviewed the information discussed in previous meetings. He shared the following recommendations from Dr. Sachin Patel, Medical Director:

Today through June 2nd, 2021: Status quo, no changes.

June 2nd, 2021, to the end of the school year: status quo, no changes (Recommended)

June 2nd/3rd, 2021 (Optional):

Students in elementary school should not have to wear masks at school (K-5, K-6 by building or wing)

Masks do not need to be worn by vaccinated students (age 12+)

For unvaccinated/non-elementary school students

Masks should continue to be worn in classrooms as these students still likely transmit the virus as efficiently as adults

Masks do not need to be worn outdoors by these students unless in crowded outdoor settings (such as sitting in the stands while watching a football game)

Masks do not need to be worn during active participation in indoor athletic activities (e.g. basketball or indoor gym class)

The rationale for maintaining masks in non-elementary students is driven by data showing that they likely transmit the virus as efficiently as adults and, while they are certainly far less likely to develop severe or debilitating disease than adults, there are still some potential significant long term risks to their health that is under investigation (e.g. heart injury/myocarditis) which is of particular concern for athletes.

Vaccination is the best way out of the pandemic for good, and all Lake County residents who qualify for the vaccine and do not have a medical contraindication to doing so (e.g. allergy to a component to the vaccine) are strongly encouraged to get the vaccine.

Lower vaccination rates with higher levels of circulating virus increases risk of developing and spreading mutant strains that are more contagious, more deadly and importantly may better evade the effects of current vaccines which raises the risk of new surges and further death. The more parents, guardians, and Lake County residents that opt in for getting vaccinated will further help prevent COVID-19 spread in schools by reducing the number of potential points of transmission.

Public Comment:

Kathleen Schneiderman said that if the state removes the COVID-19 protocols on June 2, the Lake County General Health District (LCGHD) should recommend masks no longer be required for K-12 students, as schools are looking to the health department for guidance especially with summer school and summer camps starting. She also suggested the schools promote healthy lifestyles: healthy immune systems, vitamins, exercise, clean living, etc. She said individuals should vaccinate to protect themselves, not others. She does not think unvaccinated students should be segregated by having to wear masks.

Lisa Reed said students should be able to attend summer school without having to wear masks. She is worried for children who do not want to get the vaccine, but feel they should because they don't want to be different. She compared the embarrassment of students wearing masks to that of students who were on free and reduced lunches. She is concerned for bullying of those that are wearing masks. She said the vaccines are meant to protect ourselves.

David Rako said he would like to see marketing materials from the government that helps us understand our own immune systems and promotes exercise, sleep, and diet. He would like to view the numbers and facts that justify the mask mandate. He said that some states have already removed the students' mask mandate and the data of children and the virus do not justify the mask mandates in school. He sees the mask mandate as a burden and that it now needs to be a choice for parents, the key decision-makers for their children. He urges the Board of Health to revoke the mask mandate after June 2nd.

Tom Hach said input from experts should be given, but ultimately the decision-making should be left to the elected school boards. He is livid about segregating those vaccinated and not vaccinated. Everyone is responsible for their own health and school boards should be allowed to make decisions regarding school protocols.

Tim O’Keefe said if the Board of Health recommends continued mask protocols, it will be done against the wishes of a majority of Lake County residents. He gave examples of places he’s been this past week where masks have not been worn by a majority of the people. Protocols are not supported by science and/or reason. In 2020, 13 children under the age of 19 were hospitalized with COVID-19 in Lake County compared to the 28 hospitalized with the flu during the 2019-2020 flu season. Adults can conduct their own risk assessments for themselves and their children. He said he does not want his children to be guinea pigs for the COVID-19 vaccine.

Dr. Sachin Patel reviewed the interim guidance. He said students in elementary school should not be required to wear masks in school. No students need to wear masks outside. The expectation is that COVID-19 protocols will not be required for next year, but it may change based on evidence of variants that are resistant to the vaccines and antibodies. There is also widespread misconceptions about how quickly the vaccines were developed. This was accomplished with significant amounts of money put into the research, allowing for tasks to be done in parallel, which would normally be done in sequential order. The mRNA vaccine research has been ongoing for about 16 years; the pandemic just accelerated the deployment timeline. The expectation is that mask mandates for all ages next year will not be required, however there is a risk of protocol changes as viruses are prone to mutate.

Ron asked Dr. Patel to specify recommendations for summer school. Dr. Patel said that as most summer programs are outdoors, masks are not needed. If the cases get to the point where they are low enough, then the protocols may be removed. For those not in elementary school, masks should be worn indoors. There is concern for complications in adolescents, especially for athletes, such as heart inflammation, decrease in functional and athletic capacities, and brain fog. Although the risk of death and hospitalizations are low, it is not without consequences. We will get to the point where protocols are not needed for the teenage population, but we are not there yet.

Comments:

Dr. Irene Druzina asked if there is country-wide data regarding mask use following removal of restrictions in those 12 years old and under. She also asked if the virus mutates within a population or if it spreads by traveling. Dr. Patel said there has been a study of the virus mutating within an individual. There is no data specific to mask use following restrictions, as there is not a control group. More time would be needed to study the groups that are masked and the ones that are unmasked. However, it was clear that during the early part of the pandemic, the counties that masked earlier had lower cases of COVID-19 than those that required them later. He expects, that as the current trend continues, mandates will not be needed and the recommendations can be reevaluated later in the summer.

Dr. Druzina asked what the threshold is to keep the numbers down. Dr. Patel said he is not looking at vaccination rates; he is looking at the rate of cases. It is unreasonable to expect that 70%-80% of the country will be vaccinated. When the vaccine was released, it was expected that more people would want it, accounting for the 90% vaccination rate. Since then, the number has been revised. The 60%-70% needed to reach herd immunity was based on the infectivity of the initial virus. Since then the strains have increased their ability to infect people. The need for masks in a classroom is different than the need in a department store, as students are in close contact with each other for a longer period of time.

Tim O'Keefe said the medical community doesn't understand that people can do their own risk assessment. He asked that if the vaccinations are safe, why are they still in emergency use and why are manufacturers still protected from lawsuits. Dr. Patel said the data shows the vaccines are safe, however regulatory hurdles must be completed before the emergency use authorization can be removed. He thinks the vaccines will be fully approved by summer, end of the year at the latest.

Tim O'Keefe said the Centers for Disease Control and Prevention (CDC) has no indication that antibodies are inferior to the vaccines. People gain immunity from getting COVID-19. He said that just as his family has had to change their lives to take care of a child, others also need to take care of themselves. Dr. Patel said people previously infected with COVID-19 are at a much lower risk of getting it again or are unlikely to be as sick as they were the first time. He said we have been slow in addressing that. None of the measures were meant to be permanent. The government's goal is to keep the population safe. Someone who has been infected can spread it to others. You are not just making a decision for yourself and your family, but also for everyone around you. People who have a high rate of infecting others should wear masks to protect the community.

Tom Hach asked Dr. Patel what is best for education versus a reduced risk of infection. Dr. Patel said his job is an advisory role: what is best from the standpoint of infection, prevention, and mitigation of infectious diseases. It is up to the Board of Health and elected officials to make decisions based on practicability. The risk of completely eliminating school COVID-19 protocols is likely low.

Ron Graham said a decision needs to be made by the Board of Health. Dr. Alvin Brown said that enough information has been presented by both the parents and Dr. Patel to make a decision. Ron said he will summarize the pros and cons for the June Board of Health meeting. He also said the Boards of Education can make their own decisions, but we will continue to monitor isolation and quarantine issues.

Meeting adjourned at 9:09 a.m.

6.02

Recommendations from the Technical Advisory Committee, Meeting Held Monday, April 19, 2021

Brian Katz moved and Dr. Alvin Brown seconded a motion to permanently table recommendations from the Technical Advisory Committee; motion carried.

This item was tabled at the Board Meeting on May 17, 2021.

Comments:

Nicole Jelovic stated that we should continue to talk about technology in the day-to-day operations as needed.

6.03

Recommendations from the School Health Committee, Meeting Held Tuesday, May 4, 2021

Any recommendations resulting from the School Health Committee will be acted upon under this Old Business item. Additional meetings were held May 11th and 25th. This item was tabled at the Board Meeting on May 17, 2021.

Comments:

Ron Graham stated the governor rescinded COVID-19 protocols following the meetings. The School Health Committee Meeting will reconvene, but most likely at this point unless there is a change, no recommendations will be sought for the fall.

Dr. Alvin Brown stated we are lucky to have Dr. Patel as medical director. He is highly qualified, well-trained, and a tremendous asset to the health department. Ron Graham agreed and stated the Board had previously approved additional payment from \$600 to \$1200 per month for him because of his extensive hours during the pandemic.

7.01

7.01.01

Certification of Monies, Resolution 21-06-07-01-01-100

Dr. Lynn Smith moved and Brian Katz seconded a motion to adopt Resolution 21-06-07-01-01-100 to approve payment of bills, as listed in the recapitulation sheets attached to these minutes, be adopted; motion carried.

7.02

Permission to Submit Safe Communities Grant, \$42,000

Brian Katz moved and Dr. Lynn Smith seconded a motion to submit to Ohio Traffic Safety Office for the Safe Communities grant for \$42,000. The grant period is October 1, 2021 - September 30, 2022; motion carried.

This grant funds traffic safety education and awareness activities for residents of Lake County. Educational focus areas derive from car crash report data recorded by the Ohio State Highway Patrol (OSHP) and National Highway Traffic Safety Administration (NHTSA). Specific programming include, but are not limited to seat belt, impaired driving, distracted driving, and motorcycle safety. Through implementation of such programming, the goal is to reduce the number of car crash injuries and fatalities.

7.03

Permission to Submit Integrated Naloxone Access and Infrastructure (IN23) Grant, \$61,000

Nicole Jelovic moved and Dr. Alvin Brown seconded a motion to submit to Ohio Department of Health for the Integrated Naloxone Access and Infrastructure (IN23) grant for \$61,000. The grant period is September 1, 2021 - August 31, 2022; motion carried.

This grant funds community access to free naloxone for residents of Lake County. Through agency partnerships and mail order programming, residents receive free administration training and naloxone medication to reverse a suspected opioid overdose. The program is driven by Ohio Department of Health (ODH) Vital Statistics and Lake County Coroner Office data with the overall goal of increasing opioid overdose emergency room visits and decreasing opioid-related fatalities recorded in the county.

7.04

Permission to Accept COVID-19 Enhanced Operations Grant, \$35,772

Patricia Murphy moved and Nicole Jelovic seconded a motion to accept from Ohio Department of Health for the COVID-19 Enhanced Operations grant in the amount of \$35,772. The grant period is from February 1, 2021 - July 31, 2022; motion carried.

The additional funds are part of the allocation for COVID-19 response activities. This is an additional amount awarded for the COVID-19 Enhanced Operations grant. The Board of Health previously approved an award of \$636,971.00 at the January 25, 2021, Board of Health meeting. This additional award brings the total amount received to be \$672,743.00.

7.05

Permission to Contract with First United Methodist Church in Middlefield to Conduct WIC Clinics, \$420.00

As the requested amount is less than \$10,000, permission is not needed.

Permission to contract with First United Methodist Church in Middlefield for a total of \$420 for the use of the lower level in the church to conduct WIC clinics every Tuesday. This contract is for July 7, 2021 – July 6, 2022.

7.06

Permission to Accept Coronavirus Response Supplemental Grant, \$26,694.00

Dr. Lynn Smith moved and Dr. Alvin Brown seconded a motion to accept from Ohio Department of Health for the Coronavirus Response Supplemental grant in the amount of \$26,694.00. The grant period is from March 1, 2020, through December 30, 2021; motion carried.

This is an additional amount awarded for the Coronavirus Response Supplemental grant. This grant is an additional emergency allocation to support Lake County Coronavirus (COVID-19) Response and Enforcement Activities. This additional award brings the total amount received to \$587,751.00.

7.07

Permission to Submit Contract Proposal with Ohio Department of Commerce for Lake County's Manufactured Home Inspection Contract for 2021 and 2022-2023

As the requested amount is less than \$10,000, permission is not needed.

Permission is hereby requested from the Board of Health to submit to the Ohio Department of Commerce a proposal to enter into a contract to inspect the manufactured home parks in Lake County to the amount of \$4,000 to \$5,000. The staff sanitarian will inspect each of the 22 manufactured home parks. The State will reimburse the Health District for each inspection based on the park size and whether or not the State would like us to re-inspect. The payment per inspection is based on size of the park regarding homes. The inspections will be conducted between March 1, 2021, and July 31, 2021. The Health District was contracted for the 2020-2021 year and inspections have been conducted between March 1, 2020, and June 30, 2020. Invoice for inspections conducted for 2021 will be submitted to the State by June 30, 2021. This year the State asked us to enter an agreement for a two year term for 2022 and 2023.

Adjournment

Brian Katz moved and Dr. Lynn Smith seconded a motion to adjourn the meeting at approximately 4:38 p.m.; motion carried.

Secretary

President

BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
Date June 21, 2021

The Board of the Lake County General Health District met this day, June 21, 2021, in a regularly scheduled meeting with the following members present:

<u>Patricia Murphy</u>	<u>[Signature]</u>
<u>[Signature]</u>	<u>[Signature]</u>
<u>Richard Hawes</u>	<u>Alvin J Brown, vms</u>
<u>[Signature]</u>	<u>[Signature]</u>
<u>[Signature]</u>	<u>[Signature]</u>

Dr. Lynn Smith presented the following resolution and named its adoption.

RESOLUTION TO: APPROVE CURRENT BILLS FOR PAYMENT

WHEREAS, the Board of the Lake County General Health District hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board of Health, and that all the deliberations of this Board of Health and of its committees, if any, which resulted in formal actions, were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Revised Code, and

WHEREAS, the Board of Health, by this resolution, approves the payment of current bills as indicated on the attached recapitulation sheets.

BE IT RESOLVED by the Board of Health in and for the Lake County General Health District, that as evidenced by the Certification of Funds signed by the Lake County Auditor, the Health Commissioner is hereby authorized to forward a certified copy of this resolution and attached recapitulation sheets to the Lake County Auditor for payment of current bills during the fiscal year ending December 31, 2021.

Brian Katz seconded the resolution and the vote being called upon its adoption, the vote resulted as follows:

"AYES" 11 "NAYS" 0

CLERK'S CERTIFICATION

I, Ron Graham, Health Commissioner of the Board of Health do hereby certify that this is a true and accurate copy of a resolution adopted by the said Board on June 21, 2021.

Witness my hand this 21st day of June 2021.

Secretary, Board of Health
