

AGENDA
BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
August 16, 2021

- 1.0 Call Meeting to Order, President Randy Owoc
- 2.0 Opening of Meeting
 - 2.01 Declaration of Quorum
 - 2.02 Citizen's Remarks
 - 2.03 Certification of Delivery of Official Notices of Meeting
- 3.0 Board of Health
 - 3.01 Minutes, Regular Meeting July 19, 2021
- 4.0 Health District Staff Reports
 - 4.01 Clinical and Community Health Services Report
 - 4.02 Environmental Health Report
 - 4.03 Finance and HR Director
 - 4.04 Health Education and Outreach Report
 - 4.05 Office of Health Policy and Performance Improvement
 - 4.06 Health Commissioner's Report
- 5.0 Committee Meetings
 - Nominations Committee Report
- 6.0 Old Business
 - 6.01 Board of Health Tracking
 - 6.02 Recommendations from the School Health Committee, Meeting Held Tuesday, May 4, 2021

7.0 New Business

7.01 Resolutions

7.01.01 Certification of Monies, Resolution 21-08-07-01-01-100

7.01.02 Increase/Decrease Appropriations, Resolution 21-08-07-01-02-100

7.02 Permission to Accept the Coronavirus Response Supplemental Grant, \$214,276.00

7.03 Permission to Submit the COVID-19 Public Health Workforce Supplemental Grant, \$440,000.00

7.04 Permission to Submit the Category 2 - Inspection Equipment Needs - Association of Food and Drug Officials (AFDO) Grant, \$30,000.00

7.05 Permission to Apply for Water Pollution Control Loan Fund (WPCLF) Funds for 2022 for the Repair or Replacement of Home Septic Systems, \$150,000

7.06 Permission to Accept a Contract with the Ohio Department of Health to Conduct Environmental Sampling in and around the Perry Nuclear Power Plant, \$45,964.10

7.07 Permission to Contract for School Nursing Services

7.08 Permission to Renew Contracts for School Nursing Services

7.09 Permission to Purchase Two Refrigerators and One Freezer from Helmer for the Community Health Services Programs, Not to Exceed \$16,000.00

7.10 Permission to Purchase COVID-19 PCR Tests from ThermoFisher Scientific for the Community Health Services Program, Not to Exceed \$45,000.00

7.11 Permission to Purchase Vaccine Incentives, Not to Exceed \$50,000.00

7.12 Permission to Accept up to \$24,000 from the Lake County Commissioners to Purchase Book Bags and School Supplies

7.13 Recommendations from the Nominations Committee, Meeting Held Prior to the Board Meeting

8.0 Adjournment

1.0 Call to Order

The regular meeting of the Board of Health of the Lake County General Health District was called to order at 3:05 p.m. on Monday, August 16, 2021, by President Randy Owoc. The meeting was held at the Lake County Health District offices located at 5966 Heisley Road, Mentor, Ohio, and online via Zoom and link was on the Lake County General Health District website (www.lcghd.org).

2.0 Opening of Meeting

2.01 Declaration of Quorum

The following members were present constituting a quorum:

Roger Anderson	Steve Karns	Dr. Lynn Smith
Dr. Alvin Brown	Patricia Murphy	Dave Valentine
Dr. Irene Druzina	Randy Owoc	Lindsey Virgilio
Rich Harvey	Ana Padilla	Anthony Vitolo
Nicole Jelovic		

Absent: Brian Katz

Minutes were recorded by Gina Parker, Deputy Registrar.

Also present from the Health District staff:

Dyan Denmeade	Chris Loxterman	Matthew Nichols
Ron Graham	Adam Litke	Gina Parker
Muhammad Jafar	Kathy Milo	Dr. Sachin Patel
Dan Lark	Helga Nicastro	Paul Stromp

Also in attendance: David Hackman from the Lake County Prosecutor's Office, Steve Pelton, Kathleen Schneiderman, Julie O'Keeffe, Jed Schneiderman, Tim O'Keeffe, Steven Michael, Michele Pokelsek, Ann Fiorilli, Dave Wible, Ed Jones, Connor Jones, Travis Whitehair, J Andrew Lauer, Michelle Hickey, Tim Hickey, Lorie McCandless, Terry Ciarcia, A Creek, Jen Jones, Katie Jones, Eric Downing, Larry Armstrong, Dave Lengyel Jr, Al Raddatz, Greg Spies, Gabe Cicconetti, Laura Wolf, Tricia Kelly, Kellie Zabivnik, Annie Payne, Stephanie Arnold, Joseph Arnold, Kevin Zelenic, Ann Lewis, Cynthia Bralley, Pam DiFranco, John Marra, Nancy Marra, Katherine Kosin, Barb Kilfoyle, Sharon Moten, Danina O'Leary, Laurie Kotoch, Christine Oliveto, Sheryl Lawrinson, Randi Gilmore, Heidi Ferg, Danielle Lenz, Alyssa Margheret, Cynthia Hardwick, Kathryn Hoover, Erin Fabian, Jayne Dervay, Jeffrey Goodman, Elizabeth Burr, Kristen Kirby, Joan White, Diego Bravo, Heather Freeman, Bob Haines, Jackie Woolnough, Lisa Keller, Daniel McIntyre, WEWS, Emily Nichols, John Hamercheck, Lisa Rees, Tara Sutton, Emily Kalina, Carrie Schaef, Lou Reho, Frank Kellogg, Robert Renau, Rebecca Watson, Trent Gondek, and other members of the public.

2.02 Citizens' Remarks

Steven Michael passed around a copy of the United States Constitution. He asked if any of the board members were elected officials or if they were appointed. Adam Litke said they are appointed. Steven Michael asked if any of them have taken a signature to the Constitution. Dr. Lynn Smith said he was elected when he was the coroner. Steven Michael read Article 6, Section 2 of the Constitution.

Kathleen Schneiderman said she was speaking on behalf of all the school-age children. She said the state of emergency is gone and mandates have been rescinded. She said the language and verbiage is important for any recommendations put forth by the LCGHD. She said the recommendations would put schools in tough spots. She said parents know the research and she recommends promoting healthy living and lifestyles. She would also like to hear more said about natural immunity.

Tim O'Keefe said that Senator Susan Collins no longer considers the Centers for Disease Control and Prevention (CDC) to be the gold standard. He said the reputations of the CDC and Ohio Department of Health (ODH) have been damaged. Senate Bill 22 is the desire of the public to reign in the unwise COVID actions by ODH. The health department should not follow CDC or ODH recommendations. Board members should provide full disclosure of the negative effects of any recommendations or mandated actions as it is their moral obligation to do so. He said if any Board member believes the Board does not have an obligation to provide the full disclosure, that member should resign.

Michele Pokelsek is a retired school administrative assistant and has three grandchildren in Lake County schools. She can't imagine kindergartners or first graders going to school wearing masks. Parents have the right to say what their children do medically. Mask wearing should be made optional.

Ann Fiorilli asked if anyone on the Board had a mental health background. She asked if children's mental health has been taken in to account when making decisions. She said a year and a half is a huge chunk of time for children and they need to get back to normalcy.

Dave Wible owns a home care facility for aging people. He said the shut downs and masking murder people and break all nine aspects of elder abuse. None of the vaccines keep people safe from COVID. He said there are 100,000 deaths in the US, but the VAERS site shows about 12,000 since it's only a 10% report. He said there are seven known cures for COVID, such as Hydroxychloroquine and Ivermectin.

Ed Jones said a lack of information is not an issue. Let parents make the decision for themselves of what's right for their children.

Tim Hickey said requiring masks is issuing medical devices for kids. The position the Board is taking is not for themselves, but for his kids. The t-cells of an infected person help the immune systems of that person's health family members. There also is racism in vaccine distribution as the minorities are the least vaccinated group. By making decisions for his children, the Board is pushing their views on him.

Lorie McCandless said she does not want the choice taken away from her and her children. Her daughter stayed home last year and is way behind where she should be. Her son is starting middle school. She said they can't test for variants and asked what tests are used to base everything on. She said that school boards can make their own decisions.

Larry Armstrong felt the Board has already made a predetermined decision since the members were all wearing masks.

Greg Spies said his daughter is a freshman at Lake Catholic High School and that last school year was a debacle. He provided numbers from the ODH website. He said the numbers do not make sense for persecuting the children and shutting down everyone's lives.

Gabe Cicconetti is a Painesville Township trustee and the Chair of the District Advisory Council (DAC). He said the role of LCGHD is to provide information and let others make the decisions. He said even though more kids die from the flu than COVID, there are no mandates for that. This is ruining their childhood. Masks should not be forced on children; it should be the parents' choice.

Laura Wolf has an elementary student and a high school student. One of her children had a mask exemption last year. The superintendent said her child could either be masked at school or needed to switch to online learning. He said that based on the way the doctor wrote the note, her daughter had the ability to remove her mask based on certain conditions; since the conditions were blacked out, the staff wouldn't know if her child was experiencing any of them. She said her child has a right to breathe freely and she knows what's best for her child.

Tricia Kelly held up a copy of the U.S. Constitution and said that it doesn't stop because of the pandemic. She said the virus has never been isolated. She wanted to know what peer reviewed studies were used to show that masks work. She suggested looking deeper into the meaning of masks and social distancing as they have Satanic roots. She said masks cut off oxygen to the brain and people need oxygen, exercise, whole foods, and vitamins to stay healthy.

Annie Payne said it's very concerning that the mental health aspect is missing. She said, according to the CDC, mental health emergency room visits for 12-17-year-olds in 2020 increased 31% compared to 2019. The possible causes are lack of connectedness, family issues, etc. She said there are far greater deaths from suicides and drug overdoses compared to COVID. Safety looks different for each person. She has tried researching time periods like this to see how children were affected from wearing masks. She said the trauma affects the body, both physically and emotionally. Parents should make their own decisions. She said suicide is a much greater risk than COVID.

Ann Lewis wanted to speak for the children. She said both sides recognize this is a very different thing. She feels for those who have been fired, jailed, etc. She wanted to talk about the future and the children. She said people lose their jobs and are afraid to speak up. She said she would love to talk individually with anyone who would like to take her up on her offer. Adam Litke gave her his contact information.

Pam DiFranco has an incoming junior and a child who graduated last year. They are both athletes and were harassed last year. She said if kids are sick, they should stay home. She said we are social

beings and masking children is child abuse. Discrimination should not happen against those that are not masking. She said people need hugs, handshakes, and close contact. Children need to be unmasked to live normal lives.

John Marra said the biggest thing is childhood memories. His son's senior year was ruined due to mask wearing. He said people should be eating health to build up their immune systems and doctors should tell people how to wear masks correctly since they are medical devices. He said masks are depriving people and kids of oxygen.

Nancy Marra said LCGHD recommendations turn into mandates for people who are fearful. She said kids are tired and there is no better teacher than love. She read COVID statistics from the LCGHD website. She feels adults' fears are being spread to children. She said to get over your fear and let the children live normal lives.

Katherine Kosin works in a critical manufacturing plant. Everyone was careful, with protocols for masking and sanitation. She said we need to teach children better hygiene. They can't wear their masks properly and they get germs, bugs, and bacteria in their bodies from their dirty masks.

Barb Kilfoyle works as a nurse. She sees patients go against doctors' advice and then return with the same or worse issues that could have been prevented. She is concerned for the schools that are taking off the guardrails in the middle of a pandemic. She said we need healthcare providers to advocate for children when parents can't. For those 12 and under, protocols should be in place since those children don't have access to the vaccine. She said the numbers don't show the after effects from having COVID.

Sharon Moten said monoclonal antibody therapy is used at Lake West. She said the CDC has made a recommendation/guideline that is not enforceable by law. She said ODH also has no authority. She read Title 18, Sections 241 and 242 of the U.S. Constitution; the rights for individuals. She said PCR tests are not reliable and there is no test for the variant. She said Biden's executive order for mask wearing on busses is unconstitutional and that masks don't protect people.

Christine Oliveto said she contacted the health department last year after her mother was harshly harassed at Subway for not wearing a mask. Her mother was afraid to go out after that and it upset her routine. She said the lack of leadership put her in that position. Her 17-year-old daughter had three medical conditions last year: six cavities and acne all over her face from wearing a mask and she also had COVID, but didn't need a medical visit for that because at her age and with her immune system, she was able to fight it. Christine Oliveto said Vitamin D levels need to be checked. She said that pretty much everyone that died of COVID had an 80% greater risk with their Vitamin D levels.

Sheryl Lawrinson said she can't wear a mask due to an anxiety disorder and other issues. She has three grown children and two grandchildren, a 14-year-old and 6-year-old. The 6-year-old went to all-day kindergarten last year and was written up for not wearing his mask correctly. She asked how healthy is it to breathe in a mask all day. She is infuriated about the push for vaccines that have not yet been approved by the Food and Drug Administration (FDA).

Randi Gilmore said she represents those that want to formally recommend mask mandate policies for schools to protect all, the vaccinated, the unvaccinated, and those unable to wear masks for medical reasons. University Hospitals Rainbow Babies and Children's Hospital recommends masks in schools. A school summer program already closed within two weeks due to COVID. She said schools need to stay open and she said kids wearing masks at school will be bullied by those who are not.

Heidi Ferg said the American Rescue Plan punishes the unvaccinated by making them wear masks. She said the vaccine has killed more people than the Hiroshima bomb. She said the spike protein causes issues and 80%-90% of those hospitalized with COVID in other countries are fully vaccinated. The health department has a chance to stop this insanity. She said the CDC admitted there is no way to detect the variant.

Cynthia Hardwick said there should be no masks and no mandates. She said she has a God-given freedom to make her own choices. She said we have to have HB248, then all this will go away.

Kathryn Hoover is a BSN/RN and specially trained in the correct way to wear, use, and dispose of PPE, such as masks. She said they spread more germs if worn incorrectly and it's hard for children to wear them correctly. She said many peer reviews show they are ineffective when worn incorrectly by laypeople.

Erin Fabian is a volunteer with the Lake County Medical Reserve Corps and she has a background in pharmacy, with a specialty in toxicology and adverse drug reactions. She said that masks and mitigation strategies work. She urged the Board to continue what's been done over the past year. She asked what the quarantine strategy was for unmasked students and lack of social distancing at school. Muhammad Jafar said quarantine is recommended for those within six feet.

Carrie Schaefer is a mother of a special needs child. She said her child is entitled to walk around in schools without other kids walking around with COVID. She said the Board should make a mask mandate.

Trent Gondek said his child is on the autism spectrum and attends Willoughby-Eastlake Schools. His child does not like to wear a mask, needs social cues, and totally regressed last year. He said to not mandate masks, let parents decide.

2.03 Certification of Delivery of Official Notices

Certification of delivery of the official notices of the regular meeting of the Board of Health on August 11, 2021, was made by Health Commissioner Ron H. Graham.

3.0 Board of Health

3.01 Approval of Minutes

Roger Anderson moved and Dr. Lynn Smith seconded a motion that the minutes of the July 19, 2021, Board of Health meeting be approved as written; motion carried.

4.0 Health District Staff Reports

4.01 Community Health Services

4.01 Division of Clinical and Community Health Services

4.01.01 Division Director's Report

All staff is continuing to work on their regular programs and the COVID-19 response at the same time. Additionally, we have been working with other Health Departments to optimize our approach to different programs, such as Children with Mental Handicaps and Vaccines for Children. Half the department attended a training by Stark County in July, and the other half will be traveling to Stark County in August for program specific education and guidance.

Our long time Vaccines for Children program representative and contact at Ohio Department of Health has retired. Before she left, she came and did a brief inspect of the lab, and provided some detailed education and resources for us to use.

One of our Helmer freezers has reached the end of its service life (approximately 13 years old), and is unable to maintain a temperature safe enough to use for vaccine storage. A repair to the unit was unsuccessful. During this time, the Helmer refrigerator purchased at the same time as the malfunctioning freezer began to malfunction as well. Both units have since been taken out of service to ensure the safety of our vaccine supply. A quote from Helmer for replacement of the units is currently being created. Additionally, the mobile vaccination unit does not have a vaccine storage refrigerator and will be added to the aforementioned Helmer quote.

Intensive eClinicalWorks trainings is tentatively planned for late September in central Ohio, and most staff will be required to attend. It is unclear at this time if a virtual option will be offered.

COVID-19 Updates

The Ohio Department of Health provided nurses have received another contract extension through 10/30/2021. The new contract starts 8/30/2021, and we will have 6 full time and 1 part time Ohio Department of Health nurse at that time.

Schools will again be reporting their positive staff and students to our School Health Services Supervisor, Lexi, for this coming school year.

Contract tracing data for 2021 is below. Contract tracing was done by Lake County General Health District from January through March. After March, Public Consulting Group has taken over contact tracing.

January	February	March	April	May	June	July
0	3	22	300	380	93	207

Immunization Clinics

Childhood/Adult

Postponed due to COVID-19 and supply shortages.

Influenza

In initial planning stages. Tentatively planning for clinics starting in October dependent on vaccine supply, syringe/needle supply, and COVID-19 status.

COVID-19

Clinics are still being held on an ongoing basis. We are continuing to work with local libraries, business, and vendors to reach the public. We are again working with local schools to set up in-school vaccinations for students 12 and older. Several schools have already scheduled their clinics for the beginning of the school year. Our total number of vaccinations given is 68,049 per the state system IMPACTSIIS. Our year to date total is 67,702.

Immunization Count per IMPACTSIIS

<u>January</u>	2300	<u>July</u>	398

Get Vaccinated Ohio (GV Ohio)

Staff have completed Maximizing Office Based Immunizations/Teen Immunization Education Sessions and Immunization Quality Improvement for Providers training for the new grant cycle. Beginning of grant cycle work has started, and we are waiting for fourth quarter trainings to be announced.

School Health Services

All school nursing staff attended a virtual state wide conference last month, and will be attending a weekly conference in August.

Children with Medical Handicaps (CMH)

In July, 433 clients were active in the Children with Medical Handicaps program. Staff is currently attending Ohio Department of Health trainings regarding the CMH program.

Lead

No new children were identified with elevated lead levels. There are currently 4 children being monitored for lead levels greater than 5.

Program lead has been attending Ohio Department of Health provided virtual trainings to better develop and implement the lead program.

Tuberculosis

We are currently monitoring 2 active Tuberculosis patients, and 1 immigrant investigation. Tuberculosis testing has not yet resume due to COVID-19 and associated supply shortages.

Car Seat Program (OBB)/Cribs for Kids

There were 4 car seats distributed in July, and 2 cribs. Education was provided to all who received a crib/car seat. Education is still virtual due to COVID-19 and appointments are on an individual basis.

Dyan Denmeade provided the following highlights:

- *No report.*

Discussion:

Patricia Murphy verified that the vaccination van did not have a refrigerator. Dyan Denmeade confirmed that the van did not come with a refrigerator. They were using a cooler with ice packs and used a data logger to verify the temperature.

Environmental Health

4.02.01 **Division Director's Report**

4.02.01.01
Updates and Special Topics

The 2021 Fall Oral Rabies Vaccine (ORV) Baiting Operation was scheduled to start on August 2nd. Hand baiting occurred August 2-4, helicopter baiting August 7-10, and fixed wing baiting is scheduled for August 20-25. Baits will be distributed in 14 northeast Ohio counties including Ashtabula, Carroll, Columbiana, Jefferson, Mahoning, Portage, Stark, Trumbull, and Tuscarawas, and parts of Belmont, Geauga, Harrison, Lake, and Monroe counties. As shown on the map below, only the very eastern edge of Lake County is being baited. The baiting in Lake County is being conducted from an airplane.

The vaccine is contained in a blister pack, covered in a waxy green coating containing vegetable fats and wax and a sugar vanilla attractant. The vaccine does **not** contain live rabies virus. The purpose of the baiting is to vaccinate the wild raccoon population and reduce the spread of raccoon variant rabies.

Harmful Algae Bloom (HAB)

As of August 4th, a bloom is present in the western portion of Lake Erie. The bloom is present along the East coast of Maumee Bay to Catawba Island. Toxin levels are currently below recreational limits. A HAB has not been detected in the Lake County area at this time. The bloom is predicted to remain mostly in areas of the Western basin. The Central and Eastern basins of the lake are usually unaffected, although localized blooms may occur around some of the rivers after summer rainstorms.

4.02.02 Air Pollution Control Programs

4.02.02.01

Unit Supervisor's Report

Air Pollution Control

B. Mechenbier participated in an Ohio Local Air Pollution Control Officers Association (OLAPCOA) conference call on July 12, 2021. The main topic was planning for the resumption of normal field work such as visiting air monitoring sites, compliance observations, and complaint investigations. The Ohio EPA hopes to have staff back in the office by October.

Staff participated in an Ohio Technical Services virtual meeting on July 15. Items discussed were new advances in ambient air monitors from Thermo Corp. and data logger issues. Staff attend anti-tampering class on July 22. This training is required by the Ohio EPA as staff need to be trained to conduct vehicle anti-tampering inspections in response to consumer complaints.

4.02.03 General Environmental Health Programs

4.02.03.01 Unit Supervisor's Report

Food Safety

The staff conducted 149 restaurant inspections, 31 restaurant re-inspections, 2 pre-licensing, 9 food complaint investigations, and 48 pool inspections. With the return of the County fair and festivals, approximately 60 mobile and temporary food service locations were inspected in July.

The staff has contacted their nonpaying food license holders to remind them of their obligation.

Housing

Lake County Elder Interdisciplinary Team

C. Loxterman attended the Interdisciplinary Team Meeting held by Job and Family Service/Adult Services via ZOOM this month.

4.02.04 Vector-borne Disease Program

4.02.04.01 Unit Supervisor's Report

Mosquito Control

The larval crew has begun using Survey 123 to expedite the complaint process. EH clerical staff can add complaints and problem areas into a spreadsheet that will eventually be accessible by staff in the field. The staff can update their findings and treatment of the area in real-time to make the entire process much quicker.

LCGHD received a new style Gravid trap from ODH. The collection system is easier to attach and retrieve mosquitoes from.

As of July 29, LCGHD has sent 2,000 mosquitoes to the state for testing. West Nile Virus has not been identified in any of our mosquitoes yet.

We have completed spraying the County twice so far and are planning for at least one more round. Clarke Mosquito Products has notified us that there is a shortage of our adulticide product. We are waiting to see if we will have any delivered in August.

4.02.05 Water and Waste Programs

4.02.05.01 Unit Supervisor's Report

Storm Water

K. Fink has been promoting stormwater by stenciling “The Lake Starts Here” at storm drain inlets. Inlets located in the parking lots at the Painesville Township Service Dept. and Fire Station were completed. We are offering stenciling to newly opened restaurants and stores also. Plans scheduled to stencil Willoughby Hills Library and City Hall inlets for further education.

K. Fink provided the stormwater article “Please, No Stream Dumping” for September publishing. The article discusses good housekeeping and best practices at home regarding raking up fallen leaves, cutting the grass, and picking up brush.

Facebook and Twitter messages regarding stream pollution identification and contact reporting illicit discharges were posted.

Staff screened 146 outfalls for possible pollution in the municipal storm sewers in Willoughby Hills, Kirtland Hills, Perry Village, and Painesville Twp.

On 7/30/2021 high levels of salinity and conductivity were found in a ditch line at the Morton Salt facility in Painesville Twp. Ohio EPA has been notified. The facility is regulated under Ohio EPA for industrial waste water. A Notice of Violation is to be issued by Kristen Fink.

K. Fink investigated a spill of limestone powder on Bishop Rd. and Rt. 90 West to Wickliffe exit tracked from a JAB construction truck driver. Clean up was conducted the same day by the company.

K. Fink attended the Lake County Fair during the last week of July. She helped alongside other Lake County agencies to hand out information on all of our environmental health related programs. The booth was inside the Natural Resources Building.

Solid Waste

E. Militante-Advey conducted the monthly inspections at the LCSWF in Painesville Township.

E. Militante-Advey conducted the semi-annual inspection at the Willoughby Pelton Road and Eastlake landfills.

E. Militante-Advey has begun to perform compost inspections at our registered composting sites.

Staff have also been investigating numerous rat complaints in Willowick and Eastlake that have been coming in over the summer months at a higher rate than normal. This may be due to road construction in these areas.

Sewage Treatment

We have issued 83 permits for new installations, and repair/replacements for household sewage treatment systems thus far this year.

In July another 450 homeowner properties were enrolled in our Operation and Maintenance program.

Our interns/techs from Lake Erie College wrapped up sampling of all of our permitted discharging household septic systems at the beginning of August. This year they sampled over 480 systems. Briana, Rachel, and George all start back at the college mid-August.

H2Ohio Fund & Water Pollution Control Loan Fund

The spreadsheet below contains the jobs completed and are in process to utilize monies from the H2Ohio grant 2021. After all these H2Ohio funds are depleted, we will have another \$150,000 left for 2021 funds to help homeowners with Water Pollution Control Loan Fund grant monies. We have applied for 2022 monies and once approved we will be able to help any new applicants in 2022 that apply.

Water Quality

Bathing Beach

Mary Grmek, our summer Environmental Health Technician/intern, has been performing most of the beach duties including surveying/sampling the beaches at Mentor Headlands and Fairport Harbor as well as entering all the data into the modelling program. She will be finishing up her time with us on August 16th and heading back to college at Akron University. Liz Militante-Advey will finish the summer out conducting the beach monitoring.

We currently are in the process of conducting a survey from beach goers to see how well we are doing in getting the daily information about the beach water quality out to the public. The survey can be found on our website here: [Beaches / Lake County General Health \(lcghd.org\)](https://www.lcghd.org/Beaches/) or by scanning the QR code below if you would like to take it.

4.02.06 Board Action Status

Note: New entries are bold faced

Program	Name	Pol. Sub.	BOH Ref. Date	Status

Dan Lark provided the following highlights:

- *No report.*

Discussion:

Anthony Vitolo asked how many people have been assisted with the sewer reimbursement program this year. Dan Lark said there are 10-12 right now and 6-8 more projects out for bid.

Dr. Lynn Smith asked for an update on the mosquito spraying. Dan Lark said that since we have two new electric sprayers which are substantially quieter, people don't hear them. The weather has not been cooperative lately and we are waiting for more supply to be produced.

Patricia Murphy asked if the Clean Inspection Awards will be given this year. Dan Lark said they would be.

4.03

Finance and HR Director's Report

4.03.01

Miscellaneous

1. The Health District has been awarded school nursing contracts with both Madison Schools and Our Shepherd School.
 - a. Perry Schools, Painesville Schools, and Fairport Harbor Schools have renewed their contracts with the Health District.
 - b. Through these contracts the Health District has been able to more than double the staff within the Nursing Division.
2. Health District audit is ongoing.
3. Geauga Public Health has extended their contract with the Health District through December 31, 2023.
4. The Health District is in the final planning phases to replace the elevator in the 5966 Heisley Road location.
5. The Health District is in the final planning phases to have a portion of the 5966 Heisley Road location parking lot replaced.

4.03.02

Employment

1. Open Positions
 - a. Head District Nurse
 - b. Certified LPN
 - c. Clinical Specialist
2. New Hires
 - a. Yolanda Mercado – Clerical Specialist/Translator – June 28, 2021
 - b. Jennifer Pratt – School District Registered Nurse – August 16, 2021
 - c. Deborah Rygel – Certified LPN – August 16, 2021
 - d. LaSonia Doss – Certified LPN – August 16, 2021
 - e. Krista Moses – Contact Tracer – August 16, 2021
 - f. Marley Siegel – Registered Dietician – August 23, 2021
3. Promotions
 - a. None
4. Lay-Offs / Terminations
 - a. None

5. Retirements
 - a. LuAnn Carano Anders – Registered Dietician – September 30, 2021
 - b. Tammy Hawn – Registered Dietician – November 30, 2021
6. Resignations
 - a. Fawziah Saleh – Registered Dietician – July 19, 2021
 - b. Rebecca Vojacek – Health Aid – July 19, 2021
7. Job Abolishment
 - a. None
8. Cancelled Positions
 - a. None

Note: The primary increases in fund balances from 2020 to 2021 are Fund 007, Board of Health (aka General Fund), and Fund 013, Public Health Nursing. The primary reason for the fund balance increase in both Fund 007 and Fund 013 are the COVID-19 grants received through Ohio Department of Health (ODH). The grants received through ODH, related to COVID-19, primarily conclude on December 31, 2021, however, the Health District does have one grant, referred to as EO21, that goes through July 31, 2022.

Adam Litke provided the following highlights:

- *New hires are in the report, including nurses for Madison and Our Shepherd schools.*

Discussion:

Rich Harvey asked if contact tracing will be back to local health departments since contact tracers were hired. Adam Litke said PCG is still contact tracing through the state. The local contact tracers were hired for school quarantine support to assist with COVID questions.

Patricia Murphy liked the summary that's provided in the Board of Health Report.

Dr. Alvin Brown asked how long the state nurses will be here. Dan Lark said their contract is extended to June 2022. Dyan Denmeade said two started today and three more start next Monday. She said we can have up to 10. Adam Litke said the goal is not to overwhelm current staff.

Rich Harvey asked if there were other jobs to be completed when the vaccine needs aren't as great.

Dyan Denmeade said the nurses are given other duties during those times.

Patricia Murphy asked if the school nurses were affiliated with the health department. Adam Litke said only the ones that we contract with; we now contract with six schools.

Dr. Alvin Brown asked how the nurses were paid and if the health department is making it more economical for schools. Adam Litke said they are paid by the schools when they are working at the schools. If they are working for the health department, they are paid by the health department. Some COVID funds were used this year when the school nurses worked at vaccination clinics. The nurses are all in direct communication with the health department, which leads to faster reaction times on issues. Their supervisor is a nurse and also a substitute can be provided if a school nurse is sick. Ron Graham said it is more efficient and timelier and we are working to build a workforce development program.

Dr. Alvin Brown suggested some kind of internship program could be beneficial for schools. Adam Litke said that is something we can look in to.

4.04

Health Education and Outreach

4.04

Division of Health Education and Outreach Report

4.04.01.01

Division Director's Report

The WIC waivers are extended through mid-November. The additional Cash Value Benefit (CVB) for up to \$35 for Ohio WIC participants expires effective July 31, 2021. Therefore, WIC Projects will no longer have the ability/option to issue this benefit after July 31, 2021.

Meetings and trainings attended:

July 12 - Executive meeting
July 12 – PHAB update meeting
July 13 – LC Breastfeeding Coalition meeting
July 14 – NWA Leadership webinar
July 14 – Birthright site visit
July 28 – Employee Wellness meeting
July 30 – PHAB update meeting

A Middlefield news release was sent to: Chagrin Valley Times/Solon Times/Geauga Times Courier; Chesterland News; Geauga County Maple Leaf; Middlefield Post; and News Herald

A Breastfeeding in the Workplace news release was sent to the Western Willoughby and the Eastern Lake County Chambers of Commerce. The news release was sent on behalf of the Lake County Breastfeeding Coalition. The Coalition was formed in 2013 as a small group to discuss the needs and brainstorm solutions regarding breastfeeding support, promotion, and protection throughout Lake County. The initial goal of the Coalition was to bridge communication gaps between the local hospital system and community agencies to encourage strategic thinking and planning, as well as determine how multiple agencies could increase breastfeeding rates throughout the county. The Coalition is led by Lake County General Health District/Lake-Geauga Women, Infants, and Children (WIC). Coalition partners include Lake Health, Signature Health, Crossroads Health, and local pediatrician and family practice offices.

One Door to Pathways

In July the Service Coordinator worked on continuing education trainings for her Patient Advocate board certification renewal, which is due next April. She also completed two Medicaid applications.

Webinars/Trainings Attended:

July 7th – Systems in Action Grant Webinar
July 8th – MLC Ask the Expert Webinar
July 9th – Quarter Performance Measures Meeting w/ Kathy Milo
July 12th – Virtual CE Classes through CDC Train
July 13th – Digital Marketing Webinar with Lakeland Community College
July 14th – Project Updates Meeting w/ Ron Graham and Denise Powell
July 15th - Virtual CE Classes through CDC Train
July 19th - Virtual CE Classes through CDC Train
July 20th - GoToWebinar - Practical Strategies to Increase the Supply of Housing (Home-Sharing and More)
July 21st – CIAG Live Training Series
July 22nd – MLC Ask the Expert Webinar
July 23rd – Client Medicaid App Meeting
July 26th - Virtual CE Classes through CDC Train
July 27th - Virtual CE Classes through CDC Train
July 28th – Employee Wellness Meeting w/ Kathy Milo
July 28th – Meeting with Denise Powell

4.04.02 Women, Infants and Children (WIC) Unit Report

Nutrition Education

The Farmer's Market Nutrition Program is in full swing. We are attending markets in Painesville, Wickliffe, and Madison. The WIC participant comes to the market, shows their WIC card, and we give them vouchers that they can spend at participating farmers at the markets. A family of 2 or fewer receives one booklet that has four \$5 coupons for a total of \$20 and a family of 3 or more will receive 2 booklets for a total of \$40. There are usually 3 farmers at each market. In Madison, WIC sets up a table at the individual farms, Waymans, Rainbow Farms, and Secor's Farms. At the Painesville Markets, WIC have started have Farmer's Market Navigators. This to show our new participants how to use the vouchers, showing the participants which farmer's accept the coupons, and suggestions on what produce to buy and how to store it.

Breastfeeding Update

Breastfeeding Awareness Month has kept the peer helpers very busy for the past few months. They have collected a lot of donations from the community who have shown that they support breastfeeding mothers. The peer helpers are planning a drive by "baby shower" for the 3rd week in August in both Painesville and Wickliffe. Below are pictures of the 2021 BAM logo and the new State of Ohio breastfeeding logo.

The pictures below show some of the donations the Breastfeeding Team has received. It includes diaper bags filled with goodies, tie dyed t shirts for the babies, gift certificates for places like the Rock and Roll Hall of Fame Museum, tickets to a Lake County Captains game, a session at a Salt Cave in Mentor, a free stay in a hotel, and many more.

4.05

Office of Health Policy and Performance Improvement

4.05.01

Director

The month of July was relatively brief for OHPPI Director Matthew Nichols, whom utilized vacation time from Monday, July 5 through Monday, July 19. On Monday, July 26, Matthew Nichols distributed a 2021-2023 LCGHD Strategic Planning informational packet to those serving on the 2021-2023 LCGHD Strategic Plan Steering Committee. The informational packet, which outlined the results of several internal, external, and community-driven assessments, was compiled in order to prepare for the committee's first of three scheduled meetings on Monday, August 2.

On Thursday, July 29, Matthew Nichols reconvened the Overdose Fatality Review Committee, which had not met since January 30 of 2020, due to the limited in-person engagements prompted by the COVID-19 pandemic. Barring the inability to meet in-person moving forward due to the rising prevalence of the COVID-19 Delta variant, the OFR will be convened quarterly, and the next meeting is tentatively scheduled for Thursday, October 28. Matthew Nichols also discussed the feasibility of collaborating with Better Health Partnerships' Dr. Mundorf on a county or regional public health data initiative on Friday, July 30, the latter of which may focus specifically on data to be utilized as part of the future community health needs assessments.

4.05.02

Quality Assurance and Special Projects Coordinator

Christine Margalis began biweekly accreditation progress meeting with staff members assigned as leads on reaccreditation requirements. During the month of July, a total of 13 meetings were held with nine different staff members pertaining to accreditation. Christine also attended a meeting with the organization's health educators focused on reviewing accreditation requirements in regards to program planning.

A staff review and comment period took place between June 30 and July 16 for LCGHD's Operational Policy and Procedure Manual. Based on staff suggestions, edits were made to several documents including the Visitors and Guests Policy, and the Non-Emergency Communication Protocols and Procedures. The manual was reissued to staff on August 2, and will be reviewed again in February of 2022.

LCGHD staff participated in United Way of Lake County's Annual Day of Caring on July 22 by donating four large boxes of school supplies for Salvation Army's Back to School Bash. Supplies donated will be distributed to children throughout Lake County in preparation of the upcoming school year.

Limited COVID-19 response duties continued in July. Christine Margalis attended weekly public information calls, Ohio Department of Health (ODH) weekly local health department calls, and continued to post COVID-19 clinic information to social media when received.

4.05.03

Policy, Research, and Planning Coordinator

Jessica Wakelee continues to administer the Vaccine Equity (VE21), Coronavirus Response Supplemental (CO21), and COVID-19 Enhanced Operations (EO21) subgrants, which remain active through September 30, 2021, December 30, 2021, and July 31, 2022, respectively. On July 26, LCGHD was notified that it would be receiving an additional allocation of \$214,267.00 as part of the CO21 grant. A budget revision will be prepared and submitted during the month of August.

In late July, Jessica Wakelee took over management of the potassium iodide (KI) program for the Perry Nuclear Power Plant from Kathy Milo. A new shipment of KI was delivered on Thursday, August 6. The Public Health Emergency Preparedness team (including Jessica Wakelee, Preparedness Specialist Dawn Cole and Medical Reserve Corps Coordinator Tammy Spencer) are planning to organize a staff notification and assembly drill in August to assist with packaging the KI for distribution to residents via LCGHD, a list of pre-determined community partners, and local pharmacies beginning in September for Preparedness Month. Medical Reserve Corps and Citizen Corps will also be deployed to assist with packaging and distribution.

The new budget period for the Public Health Emergency Preparedness Grant began July 1. On July 13, Jessica Wakelee and Dawn Cole met virtually with representatives from ODH Bureau of Health Preparedness to obtain further clarification related to requirements for receiving credit for COVID-19

vaccination clinics to meet the full scale exercise requirement for the Cities Readiness Initiative Grant. The meeting also served to re-engage ODH in discussions about a collaborative anthrax points of dispensing full scale exercise that was originally being planned for June 2020, and ultimately canceled due to the pandemic response. LCGHD intends to seek credit for COVID-19 activities to meet the exercise requirement for 2021, and is in the early stages of a plan to conduct a full scale dispensing exercise with an anthrax scenario in July 2022. The team is exploring several training opportunities, as well as smaller drills and exercises for staff and the Medical Reserve Corps throughout the coming year to prepare and build capabilities for this exercise.

4.05.04
Emergency Preparedness

July 1, 2021 marked the beginning of Public Health Emergency Preparedness (PHEP) Budget Period 3. Emergency Preparedness Coordinator Dawn Cole attended the PHEP BP 3 Kickoff Meeting on July 12, 2021 to obtain specific information regarding grant deliverables. Dawn also attended meetings with ODH on July 13 and July 28, 2021 to determine exercise requirements and review plans, respectively, in support of the Cities Readiness Initiative grant.

Meetings/Trainings Attended:

- Participated in weekly conference calls with ODH every Wednesday in July.
- Participated in all Tuesday Public Information Officer calls with ODH.

News Releases 2021	Date Released
WIC Middlefield Office to Adjust Hours Every Fourth Tuesday of Each Month	July 13, 2021
Breastfeeding in the Workplace	July 15, 2021
Lake County Commissioners and Lake County General Health District Partner on Mobile Medical Clinics	July 22, 2021
Rabies Baiting in Lake County to Begin August 2	July 28, 2021

Marketing Committee

The Marketing Committee met on July 7 and discussed the creation of a Health Literacy subcommittee and free media opportunities. The Marketing Committee also updated the marketing presentation for new hires and decided that a marketing “refresher” should be offered annually at staff meetings so that staff may keep current with requirements for marketing materials.

4.05.05

Health Education

Tobacco Youth / Cessation

The 2021-2022 Tobacco Use Prevention and Cessation Grant started during the month of July. Health Educator Tammy Spencer began work on the new deliverables for the grant. She attended the mandatory ODH Tobacco Unit Kickoff Trainings for the grant, as well as deliverable-specific webinars. Tammy Spencer also conducted an Ask, Advise, Refer (AAR) Training with the Lake County Free Clinic. Moving forward, the clinic will make referrals directly for their clients to the Ohio Tobacco Quit Line (OTQL). The OTQL will make the first call to the client rather than the client initiating the first call. The goal of the training is to provide information and education about tobacco use in the community and how each referral agent can screen and refer individuals for tobacco use. The OTQL offers telephonic tobacco cessation treatment, and up to eight weeks of nicotine replacement therapy (NRT). The program is open to all Ohioans regardless of insurance status.

The following TUPC grant deliverables were submitted to ODH:

- Deliverable Objective CR1A – Activity 1 – Community Readiness First Quarter Activity Plan
- Deliverable Objective P2A – Activity 1 – Plan for Community-Wide Survey
- Deliverable Objective C5B-3 – Activity 1 – Disparate Population for Quit Line Utilization
- Deliverable Objective HE6B- Activity 1 – Health Equity Workgroup Confirmation

Meetings/Trainings Attended:

- ODH “One on One” Monthly Call
- County Collaboration Tobacco Call
- LGA Coalition Meeting
- Lake County Free Clinic Introduction Meeting
- Tobacco Free Ohio Alliance (TFOA) Quarterly Meeting
- Lake County Quarterly CHIP Meeting
- ODH Community Readiness Deliverable Webinar
- ODH Cessation Deliverable Webinar
- ODH Health Equity Deliverable Webinar
- ODH Policy Deliverable Webinar
- ODH Youth/Vaping Deliverable Webinar
- Kickoff Training – Introductions and Administration
- Kickoff Training – Youth/Vaping
- Kickoff Training – Cessation
- Kickoff Training – Policy
- Kickoff Training – Health Equity

Tammy Spencer also staffed a health education table at the Lake County Fair on July 28-30. Visitors to the LCGHD table were encouraged to spin a spin-wheel to answer a question related to tobacco or healthy eating. Educational information regarding youth vaping and the OTQL were available at the table. Seven hundred individuals visited the LCGHD table during the fair. Tammy Spencer assisted

the Mentor Police Department on Friday to conduct seat belt compliance checks at the Lake County Fair; over 240 automobiles were observed for this check.

Medical Reserve Corps (MRC)

Lake County MRC Coordinator Tammy Spencer attended a virtual training on the new National MRC unit profile and activity reporting system. The system was set to be released in June; due to technical difficulties, all of the updates were not completed until July. The new system will make entering unit activities easier. All Lake County MRC activities should be entered into the new system by the middle of August. The Lake County MRC unit had no request during the month of July for deployment.

Meetings/Trainings Attended:

- State MRC Coordinator Monthly Call
- MRC Well Check Webinar Safe Communities

Safe Communities

- July car crash fatality – 0 (Data Source: SAU Fatal Crash Database)
- Highlights – Planning for upcoming events at the Lake County Fair, Painesville Speedway, and Great Lakes Mall. These events will focus on seat belt usage and impaired driving messaging. Local agency participation is desired for each event and the coordinator has made contact with community partners.
- Meeting – Hometown Heroes event planning meeting, July 8

Project DAWN/IN22

- Total number of Naloxone trainings: 6
 - Naloxone kits distributed: 15
 - Reported lives saved: 1
- Presentations/Events:
 - LCGHD restarted in-person naloxone clinics on June 26th, and clinics are held every Monday from 10:00 am to 11:00 am. The trainings are advertised on social media every Wednesday, Friday, and Sunday to create community awareness. The trainings are also advertised in the Vital Statistics waiting area at the health department.
 - Lake County Fair – Naloxone training clinics were advertised to fair patrons. Approximately 300 people were reached at the fair.
- Meetings Attended:
 - OPN Policy Meeting – July 1
 - OPN Data Subcommittee – July 6
 - Grant Consultant meeting – July 8

OMHAS

- Law enforcement naloxone administration reported: None reported
- ER transports reported: None reported

Community Health Improvement Plan / Motivate Lake County

The quarterly Community Health Improvement Plan (CHIP) meeting took place on Monday, July 12, and status updates for CHIP work plans were provided by lead agencies. The group also discussed resuming in-person meetings pending safety for the next quarterly meeting in October to help foster more robust conversation and collaboration. Feedback is also being provided to determine how to make the group more collaborative as we resume normal activities.

Motivate Lake County continues to provide health and wellness information to Lake County residents, and its “Ask the Expert” series continues to gain traction and attract experts from a wide variety of industries. It continues to take place on Thursday mornings at 11:00 am, and this month the series featured:

- Ron H. Graham, Health Commissioner at LCGHD on 7/1
- Betty Jacobs, Executive Director of LGBTQ+ Allies Lake County on 7/8
- Courtney Gravens, Medical Director at the Lake County Free Clinic on 7/15
- Dr. Cara Ogren, Physical Therapist at Synergy Physical Therapy and Wellness on 7/22
- Anne Sweeney, Managing Attorney at the Legal Aid Society of Cleveland on 7/29

Meetings/Trainings Attended

- OHPPI Continuous Quality Improvement meetings every other Thursday
- ODH Creating Healthy Communities exploratory call
- CHIP Coalition Quarterly Meeting on 7/12
- ODOT Active Transportation Programs exploratory call
- Health Education meetings
- Active Transportation Basics recorded trainings
- Advocating for Active Transportation recorded training
- Advancing Social Change Through Logic Models webinar

Events Attended

- United Way Emerging Leaders Open House
- Lake County Fair 7/28-7/30
 - Approximately 700 people visited the LCGHD booth
 - Assisted with the Buckle Down event on 7/30, seeing more than 240 cars

Matthew Nichols provided the following highlights:

- *May have some opportunities in the coming months for additional staff.*

Health Commissioner's Report

4.06.01

Nominating Committee Meeting

A Nominating Committee Meeting will be held on Monday, August 16, 2021, at 2:30 PM. In accordance with Article IV, Section 2 of the Board's By-Laws, "...in August of each year the Board of Health will consider a recommendation by an Ad Hoc Nominating Committee and then, by a majority vote will elect the President and the President Pro-Tem(pore)". Also, as specified in the By-Laws starting in 2008, neither the President nor President Pro-Tem may serve more than three consecutive years in their respective office. Their terms begin in September.

4.06.02

Board of Health Committees

Members of the Board of Health are asked to indicate the Board of Health Committee(s) on which they are interested in being a member for the upcoming year. The current committee membership for the 2020-2021 year is listed below this report, as well as a brief summary of Committee purpose. Committee chairmanships are either appointed by the Board president or chosen by Committee members. Typically, the BOH President and President Pro-Tem(pore) are notified and may attend all meetings. Gina Parker will enclose signup sheets in your September Board packets. If you wish to make any changes relative to the committees on which you serve, please complete the form and return it to Gina at the September Board meeting. The names will then be submitted to the President of the Board for approval. You will receive a new 2021-2022 Committee list after changes have been made and it has been approved by the Board President.

It is recommended that all board members serve on at least one committee and no more than four. Ideally each committee should not be composed of more than five members.

Web Site Report

COMMITTEE NAME AND PURPOSE

COMMITTEE NAME	TYPE	PURPOSE
Finance/Audit	Standing	Formulates recommendations to the BOH relative to the financial activities of the Health District.
Personnel	Standing	Is responsible for formulating recommendations to the BOH on matters related to Health District Personnel
Negotiating	Standing	Membership is predetermined by By-Laws as Chair of Personnel, Finance and BOH President Gives guidance in contract negotiations and matters concerning the Health Commissioner's contract
Policy Review	Standing	Is responsible to formulate and recommend policies relative to the BOH's responsibility established in Ohio law. Typically receives and reviews annual Health District "Cost Report" used to establish fees. Reviews BOH By-Laws
Nominations	Standing	Recommends BOH nominations for President and President Pro-Tem(pore).
Environmental Health Advisory	Advisory	Provides advice on existing and proposed environmental health services including fee changes
Child Fatality Review Board	Special Purpose	Reviews the deaths of children under 18. Required under Ohio Law
Rabies Task Force	Special Purpose	Gives guidance as requested concerning rabies issues
Sewage Project Advisory	Special Purpose	Reviews home sewage legislation/rules as needed
Strategic Planning Committee	Special Purpose	Reviews and provides recommendation on the Strategic Plan
Overdose Fatality Review Board	Special Purpose	Reviews all drug overdose deaths
Technical Advisory Committee	Special Purpose	Reviews and provides recommendation on future technology
School Health Committee	Special Purpose	Gives guidance as requested concerning school health issues

Ron Graham provided the following highlights:

- *Thank you to the Board of Health members and the public. Everyone needs to be heard and it's important to listen to both sides. There are a lot of ramifications and information shifts constantly.*
- *We continue to monitor the status of House Bill 248.*

Discussion:

Board of Health members discussed the recommendations regarding masks in schools.

Highlights include:

Dr. Lynn Smith said he strongly supports wearing masks, but understands there are reasons why some people cannot.

Steve Karns asked what school protocols are. Ron Graham said that some are making masks optional, but some schools are changing their protocols.

Dr. Irene Druzina said the superintendents use guidance, but the guidance keeps changing. We need to watch what language we use and need to weigh both sides.

Dr. Sachin Patel said he understands parents' concerns regarding masks and that this is a country where people value their freedom. He said that some open schools have already had significant outbreaks. Studies have been completed in ideal conditions, socially-distanced masked students in school and those in home school environments, and masks were effective to some degree. He would feel more comfortable if all students wear masks and would recommend mask wearing, without mandating it. He asked what our contingency plan is if the hospitals have no pediatric beds. He said there is a more than significant chance of that happening with no mitigation. The risk of spreading was small for students who were exposed in masked classrooms due to the mitigation strategies. Exposure of those unmasked should quarantine in order not to spread COVID.

Dr. Druzina asked if there was a spike in Lake County due to summer camps and band camps.

Dr. Patel said everything relates to timing and that case numbers rise exponentially. While the rates are low, children under 2 years of age and older than 12 years of age tend to have the most severe complications from COVID-19 for that age group. Measures should be recommended to most likely protect them.

Ron Graham said we are looking at the data to make decisions. We can have specific guidelines for monitoring, but it's also important to have one policy. Ohio High School Athletic Association now deals with quarantines on the athletics side. We need to see how we can be most effective on a case by case basis. Dyan Denmeade said, with the school reporting system, we receive reports of positive students and staff weekly. The trends can be seen on a weekly basis. Communications with schools may also be taking place on a daily basis.

Dr. Irene Druzina said we need to look at the patterns. We owe it to the superintendents to listen to the data and help them make meaningful decisions. Ron Graham said that we are provided some data, but other data can't be given out publicly. Schools are encouraged to follow the recommendations of the CDC and ODH.

Dr. Sachin Patel said there will be outbreaks in schools and kids will be sent home. The fewer kids that wear masks, the more disruption in the classroom. Ron Graham also said there may be staffing issues as well.

Steve Karns asked about masking on busses. Ron Graham said a federal law mandates wearing masks on busses. The enforcement is not with us.

Patricia Murphy said with Ron's meetings with senior managers and superintendents, daily/weekly information being provided, and feedback being received from schools, we are able to change as needed.

Rich Harvey said his grandchildren cannot receive the vaccination due to their ages. He said he's seen the success of car seats, seatbelts, smoke detectors, and vaccinations in the past. He is uncomfortable with where we are now. He feels we need to provide the strongest recommendation we can; nothing less than trying to make schools safe for the kids.

Dr. Irene Druzina asked if there is more data on the mental health aspects. Dr. Patel said there has been a spike in mental health issues, but being a pandemic, it is a stressful time. It's unclear if it's specifically from wearing masks or for other COVID-related reasons, like the death of a parent or caregiver, loss of a job, etc. There are downsides to mask wearing, but it's not that simplistic. Education is far more disjointed and stressful for everyone if most kids are not wearing masks.

Muhammad Jafar said the main spread last year was through athletics. With measures in place, it was rare to see positive cases in classrooms.

Nicole Jelovic said there are other preventative measures in addition to masks. Dr. Sachin Patel said any mitigation strategies will be less effective to some degree. Mask wearing and social distancing are most effective.

Ron Graham said we need to make the most informed decision. Our current statement is that we encourage schools to follow the CDC and ODH recommendations.

Dr. Irene Druzina would like to know the data from schools in Lake County. Adam Litke said reports can be given to the Board members bi-weekly.

Dr. Sachin Patel said most models show peaks in late September/October. It is predicted that vaccinations for younger children will be available before the end of the year.

Dr. Irene Druzina asked if there is any oral anti-viral that can be used as treatment. Dr. Sachin Patel said he has not hear of any. He said it's difficult to create as viral infections have an unstable genome and keep mutating.

Randy Owoc said a meeting will be scheduled to discuss modifications to the health department's recommendations.

Dr. Sachin Patel said that once the vaccine is FDA approved, the market will dictate the vaccination rate.

Committee Reports

5.01

Nominations Committee, Meeting Held August 16, 2021

Nominations Committee Meeting August 16, 2021

The meeting of the Board of Health's Nominations Committee took place on August 16, 2021, at 2:30 p.m. at the Lake County General Health District offices. In attendance were:

Committee Members

Chairman Roger Anderson
Anthony Vitolo

Others

Ron Graham, Health Commissioner/BOH Secretary
Adam Litke, Finance Director and HR
Gina Parker, Deputy Registrar
Steve Pelton

The Board Secretary verified that a quorum was present.

Committee Chairman Roger Anderson began the meeting at 2:30 p.m. Mr. Roger Anderson had e-mailed all of the Board members asking for nominations for President and President Pro Tempore. No nominations were received. He proposed to re-elect our current Board of Health officer positions, Randy Owoc as President and Dr. Alvin Brown for President Pro Tempore. Mr. Anderson will solicit additional nominations from the floor at today's Board of Health meeting.

Roger Anderson moved and Anthony Vitolo seconded a motion to forward the nominations of Randy Owoc for Board President and Dr. Alvin Brown for President Pro Tempore to the Board of Health. All present voted unanimously in favor of the motion.

Anthony Vitolo moved and Roger Anderson seconded a motion to adjourn the meeting; motion carried.

The meeting was adjourned at 2:35 p.m.

Recommendations from the School Health Committee, Meeting Held Tuesday, May 4, 2021

Any recommendations resulting from the School Health Committee will be acted upon under this Old Business item. Additional meetings were held May 11th and 25th. This item was tabled at the Board Meeting on May 17, 2021.

7.01

7.01.01

Certification of Monies, Resolution 21-08-07-01-01-100

Dr. Lynn Smith moved and Roger Anderson seconded a motion to adopt Resolution 21-08-07-01-01-100 to approve payment of bills, as listed in the recapitulation sheets attached to these minutes, be adopted; motion carried.

7.01.02

Increase/Decrease Appropriations, Resolution 21-08-07-01-02-100

Patricia Murphy moved and Dr. Alvin Brown seconded a motion to adopt Resolution 21-08-07-01-02-100 to Increase/Decrease Appropriations, as listed in the recapitulation sheets attached to these minutes, be adopted; motion carried.

7.02

Permission to Accept the Coronavirus Response Supplemental Grant, \$214,276.00

Patricia Murphy moved and Dr. Alvin Brown seconded a motion to accept from the Ohio Department of Health for the Coronavirus Response Supplemental grant in the amount of \$214,276.00. The grant period is March 1, 2020, through December 30, 2021; motion carried.

This is an additional amount awarded for the Coronavirus Response Supplemental grant. This grant is an additional emergency allocation to support Lake County Coronavirus (COVID-19) response and enforcement activities. This additional award brings the total amount received to \$802,027.00.

7.03

Permission to Submit the COVID-19 Public Health Workforce Supplemental Grant, \$440,000.00

Dr. Alvin Brown moved and Dr. Lynn Smith seconded a motion to submit to the Ohio Department of Health for the COVID-19 Public Health Workforce Supplemental Grant in the amount of \$440,000.00. The grant period is September 1, 2021 – June 30, 2023; motion carried.

CDC expects public health agencies to use available funding to recruit, hire, and train personnel to address projected jurisdictional COVID-19 response needs over the performance period, including hiring personnel to build capacity to address State, Territorial, Local, Tribal (STLT) public health priorities deriving from COVID-19.

7.04

Permission to Submit the Category 2 - Inspection Equipment Needs - Association of Food and Drug Officials (AFDO) Grant, \$30,000.00

Roger Anderson moved and Anthony Vitolo seconded a motion to submit to the U.S. Food and Drug Administration (FDA) for the Category 2 - Inspection Equipment Needs - Association of Food and Drug Officials (AFDO) Grant in the amount of \$30,000.00. The grant period is October 1, 2021, through March 31, 2022; motion carried.

The FDA is releasing funds through AFDO to jurisdictions who are actively involved with the Voluntary Retail Food Standards. Each jurisdiction can ask for up to \$30,000 to purchase equipment for use to improve inspection methods and further progress their Voluntary Retail Food Program response.

Discussion:

Dan Lark said the equipment purchased will be used for food inspections.

7.05

Permission to Apply for Water Pollution Control Loan Fund (WPCLF) Funds for 2022 for the Repair or Replacement of Home Septic Systems, \$150,000

Dr. Lynn Smith moved and Dr. Alvin Brown seconded a motion to apply for Water Pollution Control Loan Fund (WPCLF) funds for 2022 for a principal forgiveness loan program for the repair and replacement of household sewage treatment systems in 2021-2022. Lake County applied for \$150,000 with the hopes of assisting 10 to 15 homeowners with failing sewage systems. We are asking to be a part of the program again in 2022. A total of \$6 million was available statewide. There is a three tier system for homeowner qualification for families at 100% of the U.S. Dept. of Health & Human Services poverty guidelines and one at 200% and 300% of the poverty level. We are applying for the same dollar amount as last year which is the maximum awarded of \$150,000; motion carried.

7.06

Permission to Accept a Contract with the Ohio Department of Health to Conduct Environmental Sampling in and around the Perry Nuclear Power Plant, \$45,964.10

Dr. Lynn Smith moved and Roger Anderson seconded a motion to accept a contract with the Ohio Department of Health to conduct environmental sampling in and around the Perry Nuclear Power Plant. The contract runs from July 2021 to June 2023. This is a program which LCGHD has been conducting for the past 36 years and includes sampling of air, water, sediment, broad leaf vegetables, and fish. The contract is limited to \$45,964.10 for the term; motion carried.

Discussion:

Anthony Vitolo asked what types of sampling is completed. Dan Lark said they take samples of milk, fish, and grass once or twice a month.

Steve Karns asked if there have been any abnormalities. Dan Lark said there have been none.

7.07

Permission to Contract for School Nursing Services

Patricia Murphy moved and Dr. Alvin Brown seconded a motion to enter into a contract with Madison Local School District and Our Shepherd Schools for school nursing services; motion carried.

7.08

Permission to Renew Contracts for School Nursing Services

Patricia Murphy moved and Dr. Alvin Brown seconded a motion to renew contracts with Fairport Harbor School District, Perry Local School District, and Painesville Local School District; motion carried.

7.09

Permission to Purchase Two Refrigerators and One Freezer from Helmer for the Community Health Services Programs, Not to Exceed \$16,000.00

Dr. Lynn Smith moved and Nicole Jelovic seconded a motion to purchase two refrigerators and one freezer from Helmer for the clinical services program, not to exceed \$16,000.00 total. One refrigerator and freezer will replace two 10-plus year old units that are at the end of their service life. One refrigerator unit will be installed on the mobile vaccination unit. The quote from Helmer will include the units, delivery, installation, calibration, and removal of the old units; motion carried.

7.10

Permission to Purchase COVID-19 PCR Tests from ThermoFisher Scientific for the Community Health Services Program, Not to Exceed \$45,000.00

Dr. Alvin Brown moved and Rich Harvey seconded a motion to table the purchase of COVID-19 PCR Tests from ThermoFisher Scientific for the Community Services Program, not to exceed \$45,000.00 total, until further research can be conducted. These test kits are to replace our depleted supply of COVID-19 PCR Tests from ThermoFisher Scientific; motion carried.

7.11

Permission to Purchase Vaccine Incentives, Not to Exceed \$50,000.00

Dr. Alvin Brown moved and Rich Harvey seconded a motion to table the purchase of up to \$50,000.00 of vaccine incentive gift cards until further research can be conducted. Gift cards will be provided to individuals who receive the COVID-19 vaccination. Gift cards will be in \$100.00 increments and be issued when the person receives their first vaccination; motion carried.

7.12

Permission to Accept up to \$24,000 from the Lake County Commissioners to Purchase Book Bags and School Supplies

Roger Anderson moved and Anthony Vitolo seconded a motion to accept up to \$24,000 from the Lake County Commissioners to purchase book bags and school supplies for families and residents. COVID-19 and American Rescue Plan Act funds will be utilized to purchase up to \$24,000 in supplies to promote equity and educational obtainment for minority and at-risk families that are economically and socially disadvantaged. COVID-19 vaccinations will also occur at this event; motion carried.

BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
Date August 16, 2021

The Board of the Lake County General Health District met this day, August 16, 2021, in a regularly scheduled meeting with the following members present:

	
Alvin S. Brown, MD	Patricia L. Murphy
	
Richard Z. Havia	Cathy
	
	
Dr. Lynn Smith	

Dr. Lynn Smith presented the following resolution and named its adoption.

RESOLUTION TO: APPROVE CURRENT BILLS FOR PAYMENT

WHEREAS, the Board of the Lake County General Health District hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board of Health, and that all the deliberations of this Board of Health and of its committees, if any, which resulted in formal actions, were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Revised Code, and

WHEREAS, the Board of Health, by this resolution, approves the payment of current bills as indicated on the attached recapitulation sheets.

BE IT RESOLVED by the Board of Health in and for the Lake County General Health District, that as evidenced by the Certification of Funds signed by the Lake County Auditor, the Health Commissioner is hereby authorized to forward a certified copy of this resolution and attached recapitulation sheets to the Lake County Auditor for payment of current bills during the fiscal year ending December 31, 2021.

Roger Anderson seconded the resolution and the vote being called upon its adoption, the vote resulted as follows:

"AYES" 11 "NAYS" 0

CLERK'S CERTIFICATION

I, Ron Graham, Health Commissioner of the Board of Health do hereby certify that this is a true and accurate copy of a resolution adopted by the said Board on August 16, 2021.

Witness my hand this 16th day of August 2021.

Secretary, Board of Health

BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT

Date: August 16, 2021

The Board of the Lake County General Health District met this day, August 16, 2021, in a regularly scheduled meeting with the following members present:

Richard Hawley
Nyssa Starnes
David Valentine
Dr. Alvin Brown

Patricia L. Murphy
Alvin Brown, MD

Patricia Murphy presented the following resolution and named its adoption.

RESOLUTION TO: INCREASE/DECREASE appropriations in Health District Funds

WHEREAS, the Board of the Lake County General Health District hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board of Health, and that all the deliberations of this Board of Health and of its committees, if any, which resulted in formal actions, were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Revised Code, and were taken in an open meeting of this Board of Health and,

WHEREAS, the Board of Health, by resolution, may transfer funds from one item in the appropriation to another item, reduce or increase any item, create new items, make additional appropriations or reduce the total appropriations, and transfer revenue in support of Health District controlled funds in accordance with Section 3709.28 of the Revised Code.

BE IT RESOLVED by the Board of Health in and for the Lake County General Health District, that adjustments in appropriations for various Health District fund line items be made as indicated on the attached schedule. The Health Commissioner is hereby authorized to forward a certified copy of this resolution to the Lake County Auditor.

Dr. Alvin Brown seconded the resolution and the vote being called upon its adoption, the vote resulted as follows:

"AYES" 12 "NAYS" 0

CLERK'S CERTIFICATION

I, Ron Graham, Health Commissioner of the Board of Health do hereby certify that this is a true and accurate copy of a resolution adopted by the said Board on August 16, 2021.

Witness my hand this 16th day of August 2021.

8/14/21	8/1 – 8/14	303 (131.7)**

**Data collection in process

Per ODRS Data Extract as of yesterday morning, we've had 303 new cases with event dates (date of test specimen collection or date of symptom onset if known from case interview) between 8/1 and 8/14. This makes our most recent incidence rate (based on Event date) 131.7 per 100,000. (Using 230,149 population estimate).

Please note, event dates right now in ODRS only go up through 8/11, so there is a lag, and this number will be higher over the next week or so as data accrues.

We are currently monitoring one active COVID-19 outbreak; it is related to a school.

Subject: OHIO COVID19 UPDATE #62: DATA THROUGH 7/31/21

7/31/21

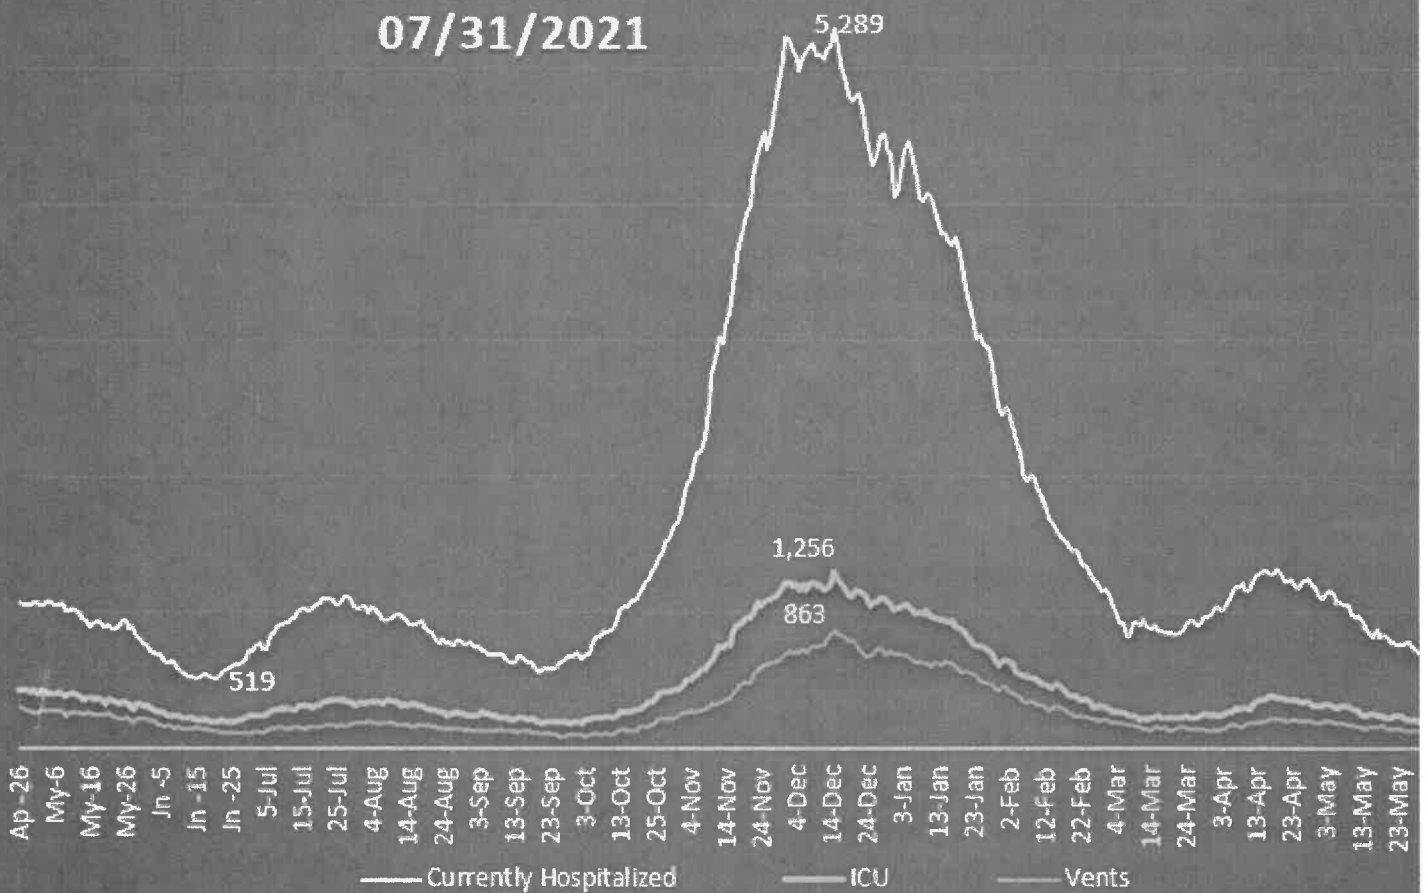

Ohio COVID19 hospitalized count increased to 2.3% of total available beds, 625 total patients. That is up from the low of .7% and 202 total patients on July 6. For context, the high point was 5,289 total patients on December 15 which was approximately 19% of total available beds. Active cases increased to 0.145% Vaccine counts increasing slowly.

YOU HAVE A RIGHT SAY NO TO VACCINES, MY BODY MY CHOICE

1. **FACT** NONE OF THE VACCINES KEEP YOU SAFE FROM COVID.
2. **FACT** 65% of NEW COVID CASES ARE VACCINATED PERSONS.
3. **FACT** You have a right to informed consent, I am providing information!
4. **FACT** The COVID VACCINES ARE DANGEROUS!
5. **FACT** **FED GOVT HHS SITE*** shows **149,252 EXTREME ADVERSE reactions***
6. **FACT** This includes **3000 DEATHS WITHIN THE FIRST 3 MONTHS**
7. **FACT** **NO ANIMAL LIVED EVEN 1 YR IN 20 YRS OF 1000's OF TESTS!!!!**
8. **FACT** REMEMBER THE FDA AND CDC APPROVED ALL THE DRUGS BELOW!

CHOOSING YOUR COVID-19 VACCINE FACTS YOU NEED TO KNOW 	
	Pfizer: \$4.7 billion in fines for false claims, drug and medical equipment safety violations, off-label promotion, corrupt practices, kickbacks, and bribery.
	Moderna: Has never brought a vaccine to market since its founding, despite fielding 9+ vaccine candidates, none of which made it through phase 3 clinical trials.
	Johnson & Johnson: Named in hundreds of thousands of lawsuits for toxic and/or dangerous products, including drugs, shampoos, medical equipment, and asbestos-contaminated baby powder.
	AstraZeneca: Suspended by two dozen European countries due to severe, lethal adverse reactions, like blood clots.

Don't worry, you're in safe hands!
If you're vaccinated, remember to wear a mask and socially distance because you can still spread COVID-19. Trust The Science™
