

AGENDA
BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
June 26, 2023

- 1.0 Call Meeting to Order, President Randy Owoc
- 2.0 Opening of Meeting
 - 2.01 Declaration of Quorum
 - 2.02 Citizen's Remarks
 - 2.03 Certification of Delivery of Official Notices of Meeting
- 3.0 Board of Health
 - 3.01 Minutes, Regular Meeting May 15, 2023
- 4.0 Health District Staff Reports
 - 4.01 Clinical and Community Health Services Report
 - 4.02 Environmental Health Report
 - 4.03 Finance and HR Director
 - 4.04 Health Education and Outreach Report
 - 4.05 Population Health & Emergency Planning
 - 4.06 Health Commissioner's Report
- 5.0 Committee Meetings
 - Technical Advisory Committee, Meeting Held Monday, June 26, 2023
- 6.0 Old Business
 - 6.01 Board of Health Tracking

- 7.0 New Business
 - 7.01 Resolutions
 - 7.01.01 Certification of Monies, Resolution 23-06-07-01-01-100
 - 7.01.02 Increase/Decrease Appropriations, Resolution 23-06-07-01-02-100
 - 7.02 Variance Request for Vacant Parcel ID 20A0240000330, Located Next To 10565 Worrell Road, Kirtland
 - 7.03 Permission to Contract with the Lake County Free Clinic for the WIC Clinic, Not to Exceed \$90,000
 - 7.04 Permission to Accept Tobacco Use Prevention and Cessation (TU24) Grant, \$264,000
 - 7.05 Permission to Reimburse Lake-Geauga Recovery Center, Not to Exceed \$121,440
 - 7.06 Request for Legal Action Against Azteca Mexican Restaurant, 9515 Diamond Centre Drive, Mentor, OH 44060
 - 7.07 Permission to Contract with First United Methodist Church of Middlefield for the WIC Clinic, Not to Exceed \$1260.00
 - 7.08 Recommendations from the Technical Advisory Committee, Held Prior to Board Meeting
- 8.0 Adjournment

1.0 Call to Order

The regular meeting of the Board of Health of the Lake County General Health District was called to order at 4:12 p.m. on Monday, June 26, 2023, by President Randy Owoc. The meeting was held at the Lake County Health District office located at 5966 Heisley Road, Mentor, Ohio.

2.0 Opening of Meeting

2.01 Declaration of Quorum

The following members were present constituting a quorum:

Roger Anderson	Brian Katz	Ana Padilla
Dr. Alvin Brown	Tom Loncala	Filippo Scafidi
Rich Harvey	Patricia Murphy	Dr. Lynn Smith
Steve Karns	Randy Owoc	David Valentine

Absent: Dr. Irene Druzina and Lindsey Virgilio

Minutes were recorded by Gina Parker, Deputy Registrar.

Also present from the Health District staff:

Dyan Denmeade	Bert Mechenbier	Elizabeth Rinnder
Ron Graham	Kathy Milo	Dan Sinclair
Adam Litke	Gina Parker	Cady Stromp

Also in attendance: Assistant Prosecutor Nina Germano, Andrea Schwartz, Francis and Marilyn Raishart, Jeff Szuter, Adam Fuller, Alex Martinez, Arturo Martinez, Claudio Fuentes, Bill Thompson

2.02 Citizens' Remarks

There were no Citizens' Remarks.

2.03 Certification of Delivery of Official Notices

Certification of delivery of the official notices of the regular meeting of the Board of Health on June 21, 2023, was made by Health Commissioner Ron H. Graham.

3.0 Board of Health

3.01 Approval of Minutes

Brian Katz moved and Dr. Alvin Brown seconded a motion that the minutes of the May 15, 2023, Board of Health meeting be approved as written; motion carried.

4.0 Health District Staff Reports

4.01 Community Health Services

4.01.01 Division of Nursing Director's Report

Staff has been busy assisting with school coverage and staffing field trips. Staff has been working with Geauga's nurses to determine a joint Back to School Immunization Clinic schedule that allows each department to back the other up, and refer as needed. Staff has also been assisting Geauga with preparing for their ODH Vaccine for Children site inspection, scheduled for early June. Several community events are scheduled for June that staff is excited for, such as Pet the Truck at Madison Library.

Nursing Divisional Quality Improvement Activities

We continue to work on our IQIP for our quality improvement activity.

Grants

Get Vaccinated Ohio (GVO)

Grant period: 7/1/2022-6/30/2023

D1- Immunization Reminder and Recall System: On track, submitted 4/7/2023

D2- Immunization Coverage Disparities: On track, D2A Report submitted 4/7/2023

D3- Immunization Provider Identification: Completed, submitted 9/9/2022

D4- Immunization Quality Improvement for Providers: LCGHD's started 12/8, submitted 4/7/2023

D5- Provider Education-MOBI and TIES: On track, submitted 4/7/2023

D6- Perinatal Case Identification and Follow-up: on track, submitted 4/7/2023

D7- School Immunization Assurance: List completed and submitted 9/10/2022, school validation assessments submitted 4/7/2023

4.01.02 Clinical Services Programs

4.01.02.01

Immunization Clinics

Childhood/Adult

Routine childhood immunizations have been steady with children age 1 month through 18 years of age being seen at clinics. We administered a total of 18 vaccines for the month of May with a clinic being held on 5/8/23 at the health department in Mentor. A total of 9 children were seen, 3 are returning children and 6 new. 6 children had private insurance, 3 children qualified for the Vaccine for Children (VFC) program, 3 uninsured. VFC vaccines are provided to participating providers are no charge, and are provided to qualifying children for no/reduced cost. VFC immunization doses that were administered include: Infanrix (DTaP), Vaxelis(DTaP, Polio, Hib and Hep B), HepB, Gardasil 9 (HPV), Prevnar 13 (pneumococcal 13) and Rotarix. Private immunization doses that were administered include: Pneumococcal PCV13, Vaxelis (Dtap, Polio, Hib, HepB), Daptacel (DTaP), Pediarix (DTaP, Polio, Hep B), Kinrix (DTaP, Polio), ActHIB, Meningococcal, MMR and Varicella. We are continuing to schedule returning children for additional doses as well as new children. As well as adding additional clinics during the summer dedicated to Back to School immunizations to ensure all children are up to date.

Influenza

Influenza vaccines are still being offered at all clinics. The demand/request rate for the vaccine has dropped off considerably, which is not unexpected. The reservation for 2023-2024 vaccine has been submitted. Sanofi has sent out the return forms for unused 2022-2023 influenza vaccine, which must be returned by the end of July to receive account credit for unused doses. We are preparing to submit return forms by July 7th.

COVID-19

COVID-19 clinics continue to be held for separate age brackets, those being: 6months-5 years, 6 years-11 years, and 12 years and older.

We are still waiting for information regarding the privatization of COVID-19 vaccines and adding the vaccines to the VFC/VFA program. We also do not have any additional information at this time regarding if a seasonal COVID-19 booster will be needed and/or developed for fall.

The state opted to extend the ODH provided nurses through July. We have been able to keep our same staff, who are preparing for a busy summer of mobile clinics.

Children with Medical Handicaps (CMH)

We will be posting for this position.

Communicable Disease

We currently have no patients receiving Tuberculosis medications.

Car Seat Program (OBB) and Cribs for Kids

4.01.03 School Services Program

4.01.03.01

Division of School Services Director's Report

We continued to fill daily assignments at our current contracted schools. Additional support was given to Mentor for some elementary school coverage. Additional field trip coverage was required last month for Fairport, Perry, and Madison. At the writing of this report, many of our schools are either out for summer, or are in their last week of school for the 2022-2023 session. We will also be providing staff for Madison Local School's summer school and associated field trips in the month of June. A number of schools have already requested their contracts for the 2023-2024 school year. Staff is continuing to complete their self-paced educations prior to the end of the current school year. The Director attended a training class for teaching Basic Life Support CPR to assist Brittany Rowan with providing education to staff.

School Services Divisional Quality Improvement Activities

Staff is working to develop a quality improvement project for the next school year.

Dyan Denmeade provided the following highlights:

4.02

Environmental Health

4.02.01 Division Director's Report

4.02.01.01

Updates and Special Topics

In early June Ohio was affected by the smoke from the Canadian wildfires in Quebec.

The smoke was pushed to the south by a storm system swirling off the coast of Nova Scotia. The smoke from these fires drifted to the south into the United States last week, and then east to the Atlantic Ocean. The Particulate Matter (PM2.5 micrometers) monitor LCGHD operates in Painesville detected the smoke particulates starting on June 6 with hourly concentrations around 50 micrograms per cubic meter of air and a 24 hour average of 30.8 micrograms per cubic meter, which equates to an Air Quality Index in the Unhealthy for Sensitive Groups range.

US AQI Level	PM2.5 (µg/m ³)	Health Recommendation (for 24 hour exposure)
WHO PM2.5 (µg/m ³) Recommended Guidelines as of September 22, 2021: 0-5.0		
 Good 0-50	0-12.0	Air quality is satisfactory and poses little or no risk.
 Moderate 51-100	12.1-35.4	Sensitive individuals should avoid outdoor activity as they may experience respiratory symptoms.
 Unhealthy for Sensitive Groups 101-150	35.5-55.4	General public and sensitive individuals in particular are at risk to experience irritation and respiratory problems.
 Unhealthy 151-200	55.5-150.4	Increased likelihood of adverse effects and aggravation to the heart and lungs among general public.
 Very Unhealthy 201-300	150.5-250.4	General public will be noticeably affected. Sensitive groups should restrict outdoor activities.
 Hazardous 301+	250.5+	General public at high risk of experiencing strong irritations and adverse health effects. Should avoid outdoor activities.

Wildfire Smoke: A Complex Mixture

Wildfire smoke is comprised of a mixture of gaseous pollutants (e.g., carbon monoxide), hazardous air pollutants (HAPs), water vapor, and particle pollution. Particle pollution represents a main component of wildfire smoke and the principal public health threat.

Particle pollution, also referred to as particles, particulate matter, or PM is a general term for a mixture of solid and liquid droplets suspended in the air. There are many sources of particle pollution; the most common is combustion-related activities, such as wildfires. Because of the variety of sources, particles come in many sizes and shapes. Some particles are so small that they are only visible using an electron microscope (Figure 1). Particles can be made up of different components, including acids, such as sulfuric acid, inorganic compounds such as ammonium sulfate, ammonium nitrate, and sodium chloride, organic chemicals, soot, metals, soil or dust particles, and biological materials like pollen and mold spores.

The air we breathe, both indoors and outdoors, always contains particle pollution. Because of their small size, particles can easily penetrate homes and buildings, increasing indoor particle concentrations. During a wildfire or other combustion-related activities, concentrations of particles can substantially increase in the air to the point that particle pollution is visible to the naked eye.

Fine, inhalable particulate matter (PM_{2.5}) is the air pollutant of greatest concern to public health from wildfire smoke because it can travel deep into the lungs and may even enter the bloodstream.

Individuals at greater risk of health effects from wildfire smoke include those with cardiovascular or respiratory disease, older adults, children under 18 years of age, pregnant women, outdoor workers. The public who are at risk for health effects due to wildfire smoke should be concerned about particles that are 10 micrometers (μm) in diameter or smaller because these are the particles that generally pass through the nose and throat and enter the lungs, with the smallest particles ($< 2.5 \mu\text{m}$) possibly even translocating into circulation. Once inhaled, these particles can affect the lungs and heart and cause serious health effects. Larger particles ($> 10 \mu\text{m}$ in diameter) are generally of less concern because they usually do not enter the lungs; however, they can still irritate the eyes, nose, and throat.

Particles in the air are characterized by aerodynamic diameter, and can be grouped into two main categories:

- **Coarse particles** (also known as PM_{10-2.5}): particles with diameters generally larger than $2.5 \mu\text{m}$ and smaller than or equal to $10 \mu\text{m}$. Coarse particles are primarily generated from mechanical operations (e.g., construction and agriculture), but a small percentage is present in wildfire smoke (Vicente et al. 2013; Groß et al. 2013).
- **Fine particles** (also known as PM_{2.5}): particles generally $2.5 \mu\text{m}$ in diameter or smaller represent a main pollutant emitted from wildfire smoke, comprising approximately 90% of total particle mass (Vicente et al. 2013; Groß et al. 2013). Fine particles from wildfire smoke are of greatest health concern. This group of particles also includes **ultrafine particles**, which are generally classified as having diameters less than $0.1 \mu\text{m}$.

- There is evidence of an increase in the risk of both cardiovascular- and respiratory-related effects in response to wildfire smoke exposure, particularly as the intensity of wildfire smoke increases.

Because particle pollution is the main component of wildfire smoke, most of the scientific community's understanding of the potential health consequences of wildfire smoke exposure is derived from the decades of research examining particle pollution in ambient air primarily in urban settings.

Additionally, the focus on ambient particle pollution in conveying the potential health effects attributed to wildfire smoke exposure is partly a reflection of the relatively short duration of wildfire events measured in days to weeks, and the relatively small number of health events observed during a wildfire event, compared to the years of data available to examine the relationship between ambient air pollution and health.

4.02.02 **Air Pollution Control Programs**

4.02.02.01

Unit Supervisor's Report

Air Pollution Control

B. Mechenbier participated in the monthly Ohio Local Air Pollution Control Officers Association (OLAPCOA) conference call on May 1, 2023. The main topic of discussion was the federal appropriations and the need for contract extensions to cover the period from July 1 to September 30, 2023. Updates were provided for the American Rescue Plan funds that were distributed to the state and local air agencies. The beginning of the 2023 Ozone monitoring season was busy with higher-than-normal Ozone concentrations across the state.

Field Monitoring Team

B. Mechenbier is continuing to work with Energy Harbor to finalize the contract.

4.02.03 **General Environmental Health Programs**

4.02.03.01

Unit Supervisor's Report

Food Safety

In May, the food staff completed 197 standard food inspections, 22 re-inspections, 7 temporary inspections, 8 pre-licensing inspections, 30 mobile inspections, 14 complaints, 5 consultations, and 5 plan reviews. In addition, they completed 2 school inspections, 8 indoor pool inspections, 43 outdoor pool inspections, 48 pool equipment inventory inspections, and 1 jail inspection.

Staff continued to work on the Self-Assessment of the FDA Retail Standards and completed the Certified Pool Inspector Course. A. Hilliard completed field training with Jenni Friedhoff of the Ohio Department of Health Food Safety Division. C. Armstrong attended a Model Pool Code Webinar. A. Lustig attended the Cuyahoga Food Safety Annual Educational Conference. Finally, Jenni Friedhoff of the Ohio Department of Health completed a survey of the Food Service Operation program covering years 2016-2022.

Housing

Lake County Elder Interdisciplinary Team

Staff attended this month's meeting.

Building

The doorknob replacement project has started and should be completed in early June. This is the replacement of doorknobs with levers for compliance with ADA.

Work on the third-floor restrooms has started and should be completed in June. We are making two ADA compliant restrooms on the third floor.

Work on the second-floor lab is scheduled to start in early June.

4.02.04 Vector-borne Disease Program

4.02.04.01

Unit Supervisor's Report

Mosquito Control

C. Armstrong was busy finishing the setup of the two new mosquito spray trucks. This included coordinating the installation of the sprayers, control units and the decals on the trucks. All 6 of the sprayers are scheduled to be calibrated in June before the start of the spray season.

The day crew have all been hired. We have one person dedicated to the surveillance program and 5 other staff working on complaints, treatment of known breeding areas, and education.

We are getting closer to the voice turn by turn directions for the routes we have. The County GIS department has been instrumental in this endeavor, and we are currently testing the routes that are completed. This will make it safer for the drivers as they will not need to act as navigators and drivers when completing a route.

4.02.05 Water and Waste Programs

4.02.05.01 Unit Supervisor's Report

Storm Water

A social media Facebook and Twitter stormwater rain barrel message was posted for May. This was a reminder to collect rainwater and use it around your yard, as you will help reduce the amount of water that flushes through a stream during a storm and filter out some of the pollutants as well. Additionally, you may even reduce your water utility bill in the summer.

Storm water Best Management Practices (BMPs) posters were distributed to four food services (Willoughby) to educate managers and employees on potential pollution, along with a talk on BMPs to help reduce pollution from their facilities. A county poster was updated to include a section on the proper cleaning of hood systems and contracting with a reputable company that is aware of the community's storm water rules and policies.

Eastlake and Timberlake Service departments were inspected as guidance to implement BMPs during activities to prevent pollution runoff and track out from the facilities.

Four residential illicit discharge complaints were received; three had no detection and one is being investigated as sewage complaint.

Summer intern Lauren Grundy has started field screenings throughout the County.

Staff attended the 2023 Annual Ohio Stormwater Conference at Kalahari Resort in Sandusky on May 10-12, 2023.

Sewage Treatment

Tyrin Morris, George Minger, Jason McColl, Abigail Buzdon, and Janet Wittine are our other summer EH Technician/interns for the NPDES program. They will be conducting our sampling program for our entire household discharging septic systems in the NPDES program. We currently have over 550 discharging systems that must be sampled yearly to verify their performance and prevent pollution of the waters of the State. They will be sampling systems Monday through Thursday throughout the summer. They are all students at Lake Erie College. We continue to contract with the College in conducting this program.

H2Ohio/Water Pollution Control Loan Fund

Bids went out on June 9th for four (4) properties: Bids are due back by June 30th.

Solid Waste

Monthly inspection conducted at the Lake County Solid Waste Facility Landfill in Painesville Township.

Water Quality

Bathing Beach Program

The beach program began on May 22nd and the recreation season officially started on Memorial Day. Staff has worked hard to update the predictive modelling program that we utilize to predict when the lake water may pose a bacterial hazard to swimmers.

Lauren Grundy, once again will be our summer EH Technician/intern. She will be performing most of the beach duties including surveying/sampling the beaches at Mentor Headlands and Fairport Harbor as well as entering all the data into the modelling program.

The bathing beach pages on our website have been updated and redesigned to provide user friendly information to beach goers. Daily monitoring results are also posted on our social media pages.

Notes to above chart:

General Fund

The General Fund decreased by \$545,844 in May of 2023 compared to May of 2022. Mosquito Control spay of \$110,000 was purchased in May 2023 and made up 20% of the difference. The additional staff from the Geauga Contract for services was also part of the decrease as LCGHD has not billed Geauga for April and May.

Division Director's Report

The Director continues to plan for the Painesville WIC clinic move. The tentative move date is in August/September.

The WIC staff in Wickliffe are in the mobile unit and increasing caseload with a SMILE! The staff is adjusting well and making sure each family is getting the most updated information about the transition.

WIC received a bike helmet grant through the Ohio Chapter, American Academy of Pediatrics. Thirty-six (36) helmets will be distributed through the three WIC clinics in Lake County this summer. Next year, WIC will apply for helmets for Geauga County. Bike helmets are a great segway to learning about the family's physical activities and ensuring that they are safe.

The Farmers Market Nutrition Program will be starting soon. The staff will only be present at the Painesville Farmers Outdoor Market to distribute the coupon booklets. All other coupon booklets will be distributed at the clinics. Vittums Farms is the newest farmer to join the Farmer Market Nutrition Program this year. Welcome! Each coupon booklet is \$30 each. If a family has more than 2 participants, they may receive 2 booklets.

Meetings and trainings attended:

May 1 – Health Services Advisory Committee for Lake and Geauga Counties

May 2 – STATE WIC mobile unit arrived.

May 4- Moving Wickliffe WIC to WIC mobile unit.

May 8 – Executive meeting

May 8 – STATE WIC call

May 9 – Early Childhood Services Committee

May 12 – meeting with UH new OB Director

May 15 – STATE WIC call

May 15 - Geauga County Family First Council meeting

May 22 – Marketing Director

May 23 – State WIC Director's Meeting

May 31 – McKinley Community Center

Divisional Quality Improvement Activities:

The Continuous Quality Improvement (CQI) Project for Women, Infants, and Children (WIC) is to increase the caseload in Chardon WIC. Chardon relocated in September 2022.

No update currently. Committee has not met.

4.04.02 Women, Infants and Children (WIC) Unit Report

Nutrition Education/Other Updates

The formula shortage is still a problem throughout the State of Ohio and throughout the country. The WIC staff continue to work with the moms on finding the approved formula. This has been a challenging time for staff and the families in both counties. Our Breastfeeding Peer Helpers are initiating conversations with the pregnant moms to give them all the infant feeding options so an informed decision can be made.

Breastfeeding Update

A Breastfeeding Success Story!

A mom on WIC just had her second baby. During her pregnancy she was concerned how well she would be able to breastfeed because of her age and the fact that her older child is now a teenager. The baby did not want to latch at all. She had told us that she only planned to breastfeed for two weeks and then switch to formula when she returns to work. She stated that her work environment was not suited to be able to pump. We discussed the benefits of breastfeeding, different types of pumps and workplace policies. Once the baby was born, she asked for formula so that dad could help feed. At this time, we talked about how she had a really good milk supply and gave information on how to store and feed breastmilk with bottles. She ended up not getting the formula. She also talked with Supervisor about her schedule that allowed her to pump during the workday. The baby is now 3 months old, and mom is exclusively pumping. Her plan is to continue pumping as long as possible.

	Breastfeeding Initiation Rates	Breastfeeding Rates
October 2022	71%	36%
November 2022	73%	39%
December 2022	73%	40%

Population Health and Emergency Planning

4.05.01

Population Health Coordinator

LCGHD's reaccreditation documents were submitted on May 26. LCGHD has been assigned an Accreditation Specialist (AS) with the Public Health Accreditation Board (PHAB) who reviews all submissions for completeness and compliance. The AS may reopen requirements to request difference examples, more information in written narratives, or updated plan documents. LCGHD will have 45 days to upload new documentation once notified of reopened requirements.

Christine Margalis continued to work with GPH's Health Educator Emily Landis to successfully complete a budget revision for GPH's FY 2023 Safe Communities grant, submit the FY 2024 Safe Communities grant application, and provide support for grant activities. Christine assisted Geauga's Safe Communities Coalition at their Click It or Ticket Kickoff event on May 25 at the Mayfield Drive-In Theatre.

With the pause in accreditation activities, Christine Margalis was able to spend additional time focusing on relationship building within Lake County's social service systems and promoting the Community Health Improvement Plan (CHIP). Christine worked with Emily Kolacz and Anna Wilson to build out a social media campaign featuring short videos created by the partners themselves promoting their work and the partnership. Videos will begin posting in June. Christine attended Lifeline's Community Needs Assessment focus group on May 23, which provided an opportunity to personally connect with organizations not currently involved in the CHIP and offered them the opportunity to reengage.

Christine Margalis' service on United Way of Lake County's (UWLC) Allocation Committee wrapped on May 25 when the group agreed on a funding recommendation to be voted on by its board of directors. However, Christine was then invited to participate in UWLC's Community Impact Committee, which consists of board members and stakeholders, and is tasked with evaluating and revising the current grant allocation process. UWLC's three focus areas are health, financial stability, and education, and closely aligns with activities and priorities established in the Lake County CHIP. Christine began serving on Leadership Lake County's (LLC) Board of Directors, attending its board retreat on May 18. Christine also met with the organization's new Executive Director Tricia Johnston on May 25 and discussed opportunities for LCGHD and LLC to collaborate on future community initiatives.

Health Education

Tobacco Use Prevention and Cessation Program

Christine Schriefer and assistance of Emily Kolacz continued to work on the Tobacco Use Prevention and Cessation Program (TUPC) Grant deliverables for the current grant year. Christine and Emily have finished working with the Tobacco Cessation Workgroup for the year TU23 and have discussed next year's Strategic Plan requirements with the community and other agencies/organizations. Social media posts continued to run on LCGHD's Facebook, Twitter, and Instagram pages, with the posts reaching 1,453 people on Facebook, 428 people on Twitter, and 71 people on Instagram in the month of May.

TUPC Grant Deliverables Completed	Deliverable Summary
Deliverable Objective A4A- Activity 5 Implementation and Campaign	Implementation and Campaign plan for TRL (Tobacco Retail License)
Deliverable Objective H6A- Activity 1 Sign Contract and Reporting Tab, second half	Signed contract with NAMI for Tobacco Health Equity group and work done with the first year of the Strategic Plan
Deliverable Objective H6A- Activity 2 Reporting Template and NAMI completed deliverables	NAMI deliverables indicating completion of first year of Strategic Plan
Deliverable Objective P3B- Activity 3 80% of implementation of SHS policy	Meeting minutes of Willoughby- Eastlake school district approving of updating their Secondhand Smoke policy
Deliverable Objective C2D-Activity 4 Cessation outreach activities	Lakeland Community College Wellness Fair and media posts about cessation services
Deliverable Objective Y5D- Activity 4 Youth outreach activity	HOLA Cinco de Mayo event
Deliverable Objective H6B- Activity 8 Review and revision of Strategic Plan	Revision of changes of Health Equity Strategic Plan
Deliverable Objective M7A- Activity 2 Earned Media	Channel 5 News interview about use of electronic vaping products inclusion into Ohio's smoke-free workplace law

Tobacco Use & Cessation Program Program Performance	May 2023	YTD 2023
People Reached Through Media Outreach	1,528	44,922
Number of individuals impacted by new smoke-free policies	7,000	7,000
Number of school tobacco policies updated or adopted	1	1
Number of people reached at events and presentations	300	1,400

Other Activities by Christine Schriefer

Christine is continuing work towards implementing the StoryWalk in Kiwanis Recreation Park and has partnered with Morley Library. Christine and Morley Library have applied for the State Library Grant and have been awarded the grant. Christine, Morley Library and the City of Painesville Parks & Recreation department have ordered the StoryWalk materials which are expected to arrive in mid- July. A site visit has been scheduled with the Parks & Recreation department and Morley Library to discuss the placement of the StoryWalk.

Capacity Building for Healthy Eating and Active Living (HEAL)

Emily continued to work on the Capacity Building for Healthy Eating and Active Living (HEAL) Grant deliverables. She is continuing to work with the St. Gabriel Food Pantry to find ways in which to encourage the food pantry guests to be healthier; the St. Gabriel Food Pantry has fully implemented Supporting Wellness at Pantries (SWAP). The shelf tags, which mark pantry items as Green- Choose Always, Yellow- Choose Sometimes, and Red- Choose Rarely, have been added to the shelves. The posters, which will educate the food pantry guests on what the shelf tags mean, have been hung up. The St. Gabriel Food Pantry has also added a SWAP slide to their PowerPoint presentation and added SWAP information to the handout that the food pantry guests/shoppers use while they shop. Emily has been to the St. Gabriel Food Pantry and

taken photos of these new changes, so that it can be shared with the Ohio Department of Health, as well as the community as a whole. The City of Painesville has completed the Policy, Systems, and Environmental Change Assessment and Planning Tool; the goal of the survey was to narrow down the potential strategies that were identified by the Policy, Systems, and Environmental Change Assessment and Planning Tool. The results of the survey show that community members are most interested in the strategy that focuses on parks and playgrounds within Painesville. These results will be used as a stepping-stone for the upcoming Community Engagement Activity, which will center on collecting more information from community members regarding specifics on how they would like to improve the parks and playgrounds. Emily plans to attend the Farmers’ Market in Painesville in order to engage the community and collect information.

HEAL Deliverables Completed	Deliverable Summary
Health Eating and Active Living (HEAL) Food Service Guidelines- Deliverable #3	Proof of environmental/behavioral intervention, such as photos, planograms, menu with pricing information, signage in place- Photos were sent of the environmental changes: shelf tags, posters, PowerPoint slide, informational packet

Meetings/Trainings/Initiatives Attended by Emily Kolacz

- 5/2- Prom Blitz at Lake Catholic High School
- 5/3, 5/10, 5/24, 5/31- Weekly ODH Call
- 5/4- Beach Clean Up with Perry High School Environmental Class
- 5/10- One on One Meeting with Tobacco Use Prevention and Cessation Grant Consultant
- 5/18- Lake County Sexual Assault Response Team Meeting
- 5/19- HEAL Huddle
- 5/19- Safe Communities Click It or Ticket Kickoff at Painesville Car Cruise
- 5/22- McDonald’s Buckle Down at Madison Location
- 5/24- McDonald’s Buckle Down at Concord Location
- 5/25- Tobacco Health Equity Workgroup Meeting

Safe Communities

As coordinator of the Safe Communities Coalition, Ms. Yarbrough planned Click It or Ticket (CIOT) event activities with colleague Emily Kolacz, coalition members, and business partners. For the CIOT Kick Off event, the Safe Communities Coalition partnered with the Downtown Painesville Organization to host a booth at their first Car Cruise event of the summer in Downtown Painesville. A press release was sent to media outlets highlighting the CIOT campaign and event where info regarding Ohio’s new distracted driving law, traffic trivia, and giveaways were distributed for participants. Coalition members from the Ohio State Highway Patrol, Students against Destructive Decisions, Mentor Police Department and the Lake County Sheriff’s Office assisted with the booth activities and interacted with guests. Sgt. Jerrold Infalvi also gave remarks regarding local traffic car crash incidents and the life-saving value of seat belts when used properly. The following week, Mandovi Enterprises allowed the coalition to conduct surprise seat belt observations at three of their McDonald’s restaurant locations:

Concord, Madison, and Mentor. The observations were taken during the drive-thru lane. Patrons wearing seat belts received a McDonald’s coupon, while unbuckled patrons received literature on the importance of seat belt usage. A total of 464 motor vehicle passengers were observed. 402 were belted for a compliance seat belt usage rate of 84.6%.

Lake County Safe Communities Coalition Program Performance	May 2023	YTD 2023
Number of People Reached	673,797	1,366,124
Number of Social Media Posts	7	41
Number of Fatal Accidents in Lake County	4	5

Integrated Harm Reduction

Nikesha Yarbrough continues to develop partnerships with local partners to offer naloxone education and harm reduction services. She presented proper naloxone administration, harm reduction strategies, emerging trends, and behavioral health resources to school nurses for Hawken Upper and Mastery School. Nurses obtained personal kits, but also emergency naloxone kits to be stored with first aid supplies on school grounds. Nikesha was invited to Senior Day and the Lake County School Community Forum where she promoted safe medication disposal and harm reduction education.

Integrated Harm Reduction Activities Program Performance	May 2023	YTD 2023

- 5/17 Senior Day event
- 5/19 Click It or Ticket Kick Off event

Marketing & Communications

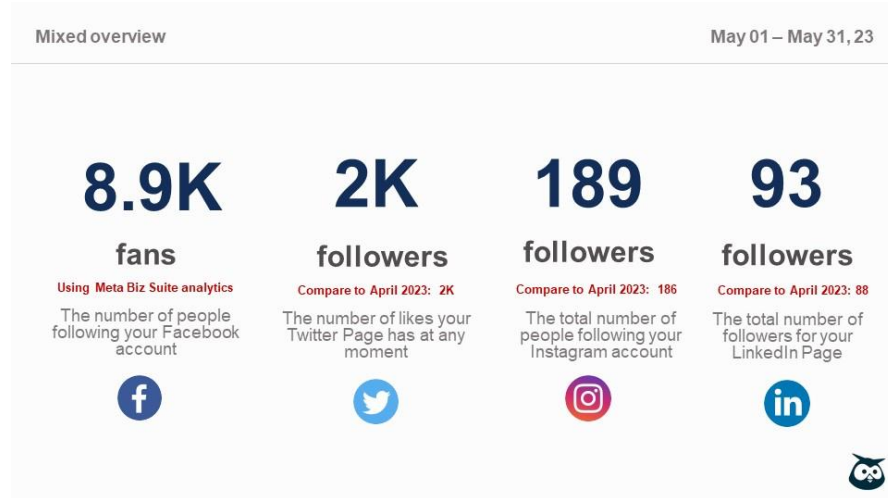

In the first week of May, Anna Wilson attended a social media conference where she was able to access applicable tools and resources to help improve LCGHD's social media presence and was able to hear from experts about pitfalls and common compliance and general practice issues of varying government bodies, and how to avoid them. Because of that conference, Anna was able to employ some strategies and tools in her day-to-day content management, as well as suggest updates to the Social Media policy and has begun investigating using certain services to better engage with Lake County residents. She began drafting an updated version of the social media policy and will turn it into appropriate management. She also began working on a second draft of an overall Marketing & Social Media policy and strategy document (with supporting sources and educational items) that she plans to have completed and turned into appropriate management by the end of June.

Anna worked with CDC PHAP Associate on the upcoming issue of the quarterly newsletter. She participated in interviewing some divisions, will draft articles for division leaders to review (in June), and will continue to provide support to help complete the newsletter by mid-July. She also created an updated Community Health Improvement Plan (CHIP) webpage to highlight CHIP partners, provide updated information, and to provide a way for community members and organizations to express interest in becoming a CHIP partner. She plans to have this page finalized, approved, and on the website in June.

She participated in a Website committee meeting where she volunteered to monitor and improve the Search Engine Optimization (SEO) scores of each page that has a low score on an ongoing basis. She also began implementing digital ads on social media and has been tracking performance.

Daily, she monitored social media and created requested content for different division and program needs and assisted with press releases. She continued to create content for the remainder of the year and plans to get content calendars to appropriate management for review by mid-June.

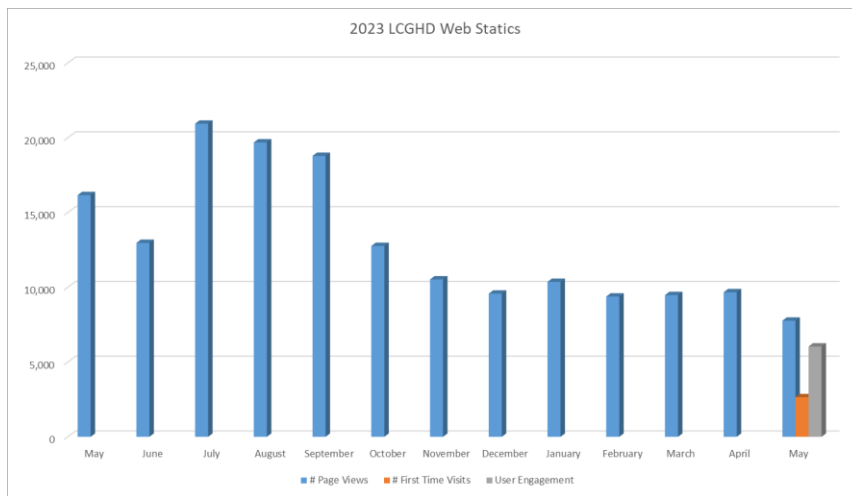

May Social Media Analytics

May Website Analytics

With the launch of the new website in May, web analytics will now include first time visits and user engagement statistics along with page views.

4.05.03

Emergency Preparedness and Epidemiology Manager

An application for the COVID-19 Enhanced Operations (EO23) grant was submitted on May 8, and the requested amount was \$369,229.14 to cover ongoing COVID-19 activities including targeted case investigation (cases under age 18 due to higher risk of outbreak in daycare and school settings and cases residing in long term care settings due to risk of outbreak), outbreak investigation and associated contact tracing support, infection prevention and control activities in long term care and congregate living settings, testing support, and data, surveillance, and communication/ educational activities. These funds are not able to support vaccination efforts. LCGHD’s proposal is currently under review by ODH and if fully awarded will begin August 1.

LCGHD was notified in early June of an additional \$10,000 allocation for the 2023 Workforce Development grant, which is also under review by ODH at the time of this report. This would bring the total for this award up to \$760,000. The additional \$10,000 allocation has been provided to all health departments to support health equity training and development for all staff. Details will be forthcoming, and a notice of award is anticipated in the month of June. A budget revision will be required to allocate the additional funds. This grant begins July 1, 2023, and continues through October 2027.

During the month of May, Jessica Wakelee and Preparedness Specialist Dawn Cole worked to onboard Lydia Castner, the new Preparedness Specialist for Geauga County. This included introductions to contacts at the Ohio Department of Health, a meeting to discuss the status of activities listed in Geauga's Medical Countermeasures Action Plan for the CRI grant with ODH grant staff, an introductory meeting with contacts at the Geauga Emergency Management Agency on May 23, and several meetings to get system access, credentials, equipment, and other needed materials from Geauga Public Health. Lydia will be working primarily out of Lake County during her probationary period and as the new grant year commences. Lydia also attended meetings with regional public health and healthcare coalition partners on May 16 (Regional COVID-19 lessons learned discussion) and the Master Scenario Events List Meeting for the October statewide full scale anthrax exercise.

4.05.04

Emergency Preparedness

Preparedness Specialist Dawn Cole issued one internal situation report in May. With the United States Department of Health and Human Services declaration of the end of the Public Health Emergency for COVID-19 on May 11, 2023, the decision was made to suspend the situation reports until further notice.

The following Public Health Emergency Preparedness (PHEP) and Cities Readiness Initiative (CRI) grant deliverables were submitted to Ohio Department of Health (ODH):

- PHEP Deliverable-Objective 5.4 – Outbreak Report Status Worksheet, Lake County
- PHEP Deliverable-Objective 5.4 – Outbreak Report Status Worksheet, Geauga County
- PHEP Deliverable-Objective 8.2 – After Action Report-Improvement Plan (AAR-IP), Lake County
- PHEP Deliverable-Objective 8.2 - AAR-IP, Geauga County
- PHEP Deliverable-Objective 11.2 – Verification of Attendance Budget Period (BP) 5 Full-Scale Exercise (FSE) Planning Meetings, Lake County
- PHEP Deliverable-Objective 11.2 – Verification of Attendance BP5 FSE Planning Meetings, Geauga County
- PHEP Deliverable-Objective 14.4 – Communications Worksheet, Lake County
- PHEP Deliverable-Objective 14.4 – Communications Worksheet, Geauga County
- PHEP Deliverable-Objective 17.1 – National Preparedness Summit Attendee Lessons Learned Workbook, Lake County

The following PHEP1 and/or CRI grant deliverables were approved by ODH:

- PHEP Deliverable-Objective 1.1 - Radiological Incident Response Annex (RIRA) Rubric for Fiscal Year (FY) 23, Lake County
- PHEP Deliverable-Objective 1.1 - RIRA Rubric for FY23, Geauga County
- PHEP Deliverable-Objective 5.4 – Outbreak Report Status Worksheet, Lake County
- PHEP Deliverable-Objective 5.4 – Outbreak Report Status Worksheet, Geauga County
- PHEP Deliverable-Objective 8.2 - AAR-IP, Lake County
- PHEP Deliverable-Objective 8.2 - AAR-IP, Geauga County
- PHEP Deliverable-Objective 11.2 – Verification of Attendance BP 5 FSE Planning Meetings, Lake County
- PHEP Deliverable-Objective 11.2 – Verification of Attendance BP5 FSE Planning Meetings, Geauga County
- PHEP Deliverable-Objective 14.4 – Communications Worksheet, Lake County

Exercises/Meetings/Trainings Attended:

- ODH/Local Health Department Wednesday calls with Local Partners every Wednesday in May.
- Northeast Ohio Healthcare Coalition (NEOHCC) General Membership meeting on May 5, 2023.
- Virtual COVID-19 AAR Discussion sponsored by the NEOHCC on May 8, 2023.
- Virtual BioWatch Advisory Committee meeting on May 9, 2023 and provided the Public Information Lead report.
- Facilitated the virtual BioWatch Risk Communications Work Group meeting on May 11, 2023.
- Virtual Regional Epidemiology and Public Health Planning meetings on May 12, 2023.
- COVID-19 After Action meeting sponsored by the Northeast Ohio Regional Public Health Partnership on May 16, 2023 at the Willoughby Public Library.
- 2022-2023 Quarter 4 CRI Technical Assistance Call on behalf of both Lake and Geauga counties on May 22, 2023.
- Virtual Regional Pertussis Outbreak Response Coordination Meeting on May 31, 2023. As a result of the meeting, PHEP1 took the lead in coordinating the regional public information officers in the affected jurisdictions for the sharing of educational resources created.

4.05.05

Epidemiology

During May, Epidemiology staff has been working to onboard and train Priyanka Parikh, who will serve half time as Geauga county's epidemiologist and half time as an epidemiologist for LCGHD assisting with COVID-19 activities.

During May, a total of 223 new COVID-19 cases were reported for Lake County. Of these, 14 were pediatric cases investigated by Tania Nanavati and Priyanka Parikh. Two long term care facilities had COVID-19 outbreaks that were investigated by LCGHD during May. These outbreaks included a total of 9 residents and 15 staff, for a total of 24 outbreak-affiliated cases. LCGHD provided all the facilities with ICAR pre-assessment forms and mitigation guidance, but none opted for completing ICAR Assessments.

Table 1: COVID-19 cases reported during the month of May 2023

Dates	Cases
5/1-5/6	48
5/7-5/13	63
5/14-5/20	51
5/21-5/27	39
5/28-5/31	22
Total	223

No additional suspected or confirmed cases of Mpox have been reported since October. To date, Lake County has had 11 confirmed cases of Mpox. A total of 125 Lake County residents have received vaccination for Mpox to date at the time of this report.

Through the end of flu season in May, Lake County had a total of 160 influenza hospitalizations for the current flu season, two of which were reported in April, with numbers continuing to decrease significantly since the start of the new year. LCGHD began a weekly cadence reporting the first week of December.

During April, LCGHD investigated four EpiCenter anomalies for Lake County, which did not require additional follow-up.

One suspected *Clostridium Perfringens* outbreak was investigated by LCGHD in May. It was associated with a Mentor restaurant and included two linked illnesses. Additionally, LCGHD was involved in an investigation of a Hand, Foot, and Mouth Disease outbreak at a Chagrin pre-school with eight positive children. LCGHD provided guidance to the preschool for addressing parents, a cleaning regiment, and educational resources for staff and families.

The Epidemiology team also distributed Candida Auris factsheets to long term care facilities and added information to the website regarding human metapneumovirus and new COVID vaccination guidelines.

Communicable Diseases reported among Lake County residents through May 2023 are provided below.

Communicable Disease Report	JAN	FEB	MAR	APR	MAY	JUNE	JULY	AUG	SEPT	OCT	NOV	DEC	Year to Date (1/1/23 to current)	2022 Year End Totals	2021 Year End Totals	2020 Year End Totals

Social Determinants of Health Dashboard

The [Community Wellbeing: Social Determinants of Health dashboard](#) on the DataOhio Portal is one of the most utilized dashboards in over 300 State of Ohio datasets available – and enhancements were just added to expand the core populations it serves.

Health Opportunity, in collaboration with the InnovateOhio Platform team, has released its first dashboard enhancements, which include 27 new metrics across four domains, including:

- Veteran status.
- Labor force participation rate.
- Vacant housing.
- Physical inactivity.

The Community Wellbeing: Social Determinants of Health dashboard was designed to better understand the health inequities that exist and inform program and policy decisions to better serve Ohioans. It utilizes data from the Census Bureau, CDC, and American Community Survey at the census tract and county levels, which is filterable on five domains and now over 150 metrics that impact health, including economic vitality, neighborhood and physical environment, healthcare access and quality, education access and quality, and social and community environment.

Surgeon General Advisory Links Social Media to Poor Mental Health Outcomes for Teens

Social media can profoundly harm the mental health of youth, particularly adolescent girls, the U.S. Surgeon General warned in an advisory on Tuesday (Source: "[Social media could harm youth mental health, U.S. Surgeon General warns.](#)" Reuters, May 23).

In a [25-page advisory](#), U.S. Surgeon General Vivek Murthy called for safeguards from tech companies for children who are at critical stages of brain development. The report said that while social media offers some benefits, there are "ample indicators that social media could also harm children's well-being."

Social media use may cause and perpetuate body image issues, affect eating behaviors and sleep quality, and lead to social comparison and low self-esteem, especially among adolescent girls, the advisory said, citing responses from a survey conducted among adolescents.

Adolescents who spend more than three hours per day on social media face double the risk of experiencing poor mental health outcomes, such as symptoms of depression and anxiety, according to the advisory.

House of Representatives Passes Two Bills Targeting Fentanyl-Related Substances

This week, the House passed two bills targeting fentanyl analogues. The [Preventing the Financing of Illegal Synthetic Drugs Act](#), sponsored by Rep. Monica De La Cruz (R-TX) passed 402-2. The bill requires the Government Accountability Office (GAO) to study trafficking of synthetic drugs, specifically targeting the financial methods used by criminal organizations both in the US and internationally, and reports findings to Congress. The [Halt All Lethal Trafficking of Fentanyl Act, or HALT Fentanyl Act](#), sponsored by Rep. Morgan Griffith (R-VA), passed 289-133. The bill permanently classifies all fentanyl analogues as Schedule 1 drugs, which it constitutes as a drug, substance, or chemical that has a high potential for abuse, has no currently accepted medical value, and is subject to regulatory controls as well as administrative, civil, and criminal penalties under the Controlled Substances Act. In addition, the bill expedites research into fentanyl analogues. Fentanyl itself is approved for medical use, so it is classified as a Schedule 2 drug.

4.06.04

Senate Changes to Biennial Budget Bill, HB 33

Review the changes of interest to local public health, as reviewed by the Public Affairs Committee on the top priority issues:

- All changes related to Registered Environmental Health Specialists (REHSs) and Environmental Health Specialists In-Training (EHSIT) have been removed.

- All changes related to dry wells were removed.
- \$20 million for local health departments (LHDs) to implement evidenced-based health improvements has been removed.
- All changes to authority to run a replacement levy were removed.

[Substitute Bill Synopsis](#) | [Comparison Document](#)

4.06.05

COVID-19 QI Project Invitation to Participate

The total cost of this project will be \$200,096.00. Both Ohio Department of Health (ODH) and Association of Ohio Health Commissioners (AOHC) have committed funds (\$125,000 and \$31,439, respectively), but a total of \$43,657 is needed from LHDs to ensure there are sufficient resources to complete this work. The contribution level varies, depending on the size of the population served:

Population	Contribution
< 30,000	\$ 300
30,001 - 50,000	\$ 600
50,001 - 100,000	\$ 900
100,001 - 200,000	\$1,200
> 200,000	\$1,500

Investment in this review will both document key lessons learned from the COVID response and position Ohio to make strategic investments in public health in the future and hope that every LHD will choose to be involved in this project, and we look forward to the improvements that will be accomplished through it.

Lake County General Health District Technical Advisory Committee Meeting Minutes June 26, 2023

The meeting of the Board of the Lake County General Health District's Technical Advisory Committee was held on June 26, 2023. The meeting was held at the Lake County Health District office located at 5966 Heisley Road, Mentor, Ohio.

In attendance at the meeting were Board of Health members:

Dr. Alvin Brown	Tom Loncala
Steve Karns	Randy Owoc
Brian Katz	

Also in attendance were: Tim Snell, Senior IT Manager; Chris Wilson, IT Tech; and Gina Parker, Deputy Registrar.

The meeting was called to order at 2:15 p.m. by Brian Katz.

The following topics regarding the new website were discussed:

- Using the search bar does not provide anticipated results, such as a search for "Jobs" does not provide a link to employment opportunities.
- The link to swimming pool inspections is a dead link.
- The calendar only has Board of Health information. Tim Snell stated that the goal is to build the calendar with all LCGHD events. There will be tabs to filter by type. Tom Loncala asked if the calendar could default to the list view.
- Suggestion of old articles being removed from the News section. Steve Karns stated that it's not uncommon and that older articles provide a historical timeline. Tim Snell suggested having a cut off for old news or remove dated events.
- The beach monitoring article is missing the hyperlinks to the monitoring websites.
- Add meeting agendas to the Reports and Minutes page.
- Suggestion of a private employment section for employees only.

Discussion:

Steve Karns asked who the webmaster is. Tim Snell said there is a website committee led by him and Anna Wilson as the web editor.

Tom Loncala asked who built the website. Tim Snell said that Sixth City Marketing created the custom framing in WordPress.

Steve Karns asked how you know what pages people are viewing on the website. Tim Snell said they use Google Analytics to see what pages are viewed and to choose the quick link buttons on the home page.

The meeting was adjourned at approximately 2:45 p.m.

Certification of Monies, Resolution 23-06-07-01-01-100

Dr. Lynn Smith moved and Brian Katz seconded a motion to adopt Resolution 23-06-07-01-01-100 to approve payment of bills, as listed in the recapitulation sheets attached to these minutes, be adopted; motion carried.

7.01.02

Increase/Decrease Appropriations, Resolution 23-06-07-01-02-100

Dr. Lynn Smith moved and Roger Anderson seconded a motion to adopt Resolution 23-06-07-01-02-100 to Increase/Decrease Appropriations, as listed in the recapitulation sheets attached to these minutes, be adopted; motion carried.

7.02

Variance Request for Vacant Parcel ID 20A0240000330, Located Next To 10565 Worrell Road, Kirtland

Brian Katz moved and Dr. Alvin Brown seconded a motion to accept the recommendation of LCGHD to deny the request for a variance to Ohio Administrative Code 3701-29-06(G) (3) (b) which states; “A Sewage Treatment System soil absorption components shall be at least fifty feet from any wetland.” Property owners Francis and Marilyn Raishart and family (see enclosed letter) are requesting a variance from Ohio Administrative Code 3701-29-06(G) (3) (b). This code section requires sewage treatment system soil absorption components to be a minimum 50 feet from any wetland. Because of the difficult topography and location of suitable soils, the soil absorption components of a sewage treatment system cannot be installed to meet the 50-foot separation distance required from the wetlands, making this lot unbuildable. An isolation distance of only 15 feet can be achieved; motion carried.

The staff recommends disapproval of the variance because allowing it could lead to untreated sewage entering the county’s waterways and LCGHD could be setting a dangerous precedent for future lots in similar situations.

Discussion:

Dan Sinclair provided background information regarding septic systems installed close to wetlands. Dan stated that the code requires the components of the system to be on the same parcel as the dwelling and it also requires room for primary and secondary systems.

Andrea Schwartz said her parents had bought the property in 1975. She wanted to build next to them so they could continue to reside in their home.

David Valentine suggested a storage tank. Dan Sinclair said the current Administrative Code does not allow for tanks on residential properties.

Variance Request for vacant parcel located next to 10565 Worrell Rd. Kirtland OH 44094.

Permission is hereby requested from the Board of Health for a variance to Ohio Administrative Code 3701-29-06(G) (3) (b). Which states;

"A Sewage Treatment System soil absorption components shall be at least fifty feet from any wetland".

Property owners Francis & Marilyn Raishart and family (see enclosed letter) are requesting a variance from Ohio Administrative Code 3701-29-06(G) (3) (b). This code section requires sewage treatment system soil absorption components to be a minimum 50 feet from any wetland. Because of the difficult topography and location of suitable soils, the soil absorption components of a sewage treatment system cannot be installed to meet the 50 foot separation distance required from the wetlands, making this lot unbuildable. An isolation distance of only 15 feet can be achieved.

The staff recommends disapproval of the variance because LCGHD could be setting a dangerous precedent for future lots in similar situations.

Lake County General Health District Sewage Treatment System Variance Application

RECEIVED MAY 30 2023 pd fee # 63569

Variance Fee \$100.00

Name of property owner Francis & Marilyn Raishart Phone 440 451-8176

Address of property where variance is requested 10555 Worrell Road

Mailing Address 80565 Worrell Road Kirtland, Ohio 44094

Ohio Administrative Code 3701-29-22 (A) states: "A board of health may grant a variance from the requirements of this chapter when a person has made written application for a variance to the board requesting the variance from a specified rule or rules and the applicant shows that because of practical difficulties, or other special conditions, compliance with this chapter will cause unusual and unnecessary hardship. The board of health shall not grant a variance that would defeat the spirit and general intent of this chapter or is otherwise contrary to public interest, adversely affect the public health, cause contamination of the environment, or not comply with the requirements of Chapter 3718 of the Revised Code."

- 1. Variance Submittal Procedure: Persons requesting a variance to the rules must submit the following information along with the variance application and fee to the Lake County General Health District. All variance requests must be delivered to the Health District by the first Monday of the month to provide for staff review and preparation for the Board of Health meeting. Board of Health meetings are held on the third Monday of every month except for January & February.
2. All submissions must include the specific provision(s) of the sewage treatment system rules to which the variance pertains.
3. All submissions must include a narrative summary that demonstrates why compliance with the rules will cause unusual or unnecessary hardship. Be specific in your summary and submit any supporting documentation that will assist in demonstrating your hardship.
4. For variance submissions involving a soil based on-lot sewage treatment system, it will be necessary for the applicant to also submit a Lake County General Health District site review application. Site review application includes the required soil evaluation, topographic site plans prepared by an experienced sewage treatment system designer, treatment areas staked/located on the property and the appropriate fee.
5. For variance submissions involving sewage treatment systems in the floodplain, the submission must include a copy of the flood insurance rate map corresponding to the property that clearly indicates the floodplain and the floodway as they are located on the property.

Please be advised that the approval of a variance by the Lake County Board of Health does not imply or otherwise guarantee or warranty the function of the sewage treatment system for which the variance was granted. The variance applicant and property owner take full legal and financial responsibility for any and all damage to any residential or public property, or to any residential or public structure(s) or for any contamination of the environment that may be caused by the malfunction or failure of the sewage treatment system that may result from the location, design, installation, operation and maintenance of the sewage treatment system, or by an act of nature or catastrophic event. By applying for and agreeing to the terms and conditions of the variance, the variance applicant and property owner hold the Board of Health and the Lake County General Health District harmless from any and all damages that result from the granting of this variance and indemnifies the Board of Health and Lake County General Health District from said damages.

sts.septic@gmail.com 440-669-7014

Date: May 29th, 2023

STS, Szuter Treatment Systems has been asked to help with the variance request for 10555 Worrell Rd. The property has limited available area for the septic. We request a variance to 3701-29-06(G)(3)(b)

" A sts soil absorption component shall be a least fifty feet from any surface water impoundment, lake, river, wetland, perennial stream, and road cut banks or stream cut banks." The proposed system will be isolated by at least 15'. There is sufficient room for a replacement system should this system fail. That system is more complicated and would require more clearing, maintenance , and has a much higher cost.

Please feel free to contact me with any questions you may have.

RE: Concerning 10555 Worrell Rd, Kirtland, 44094

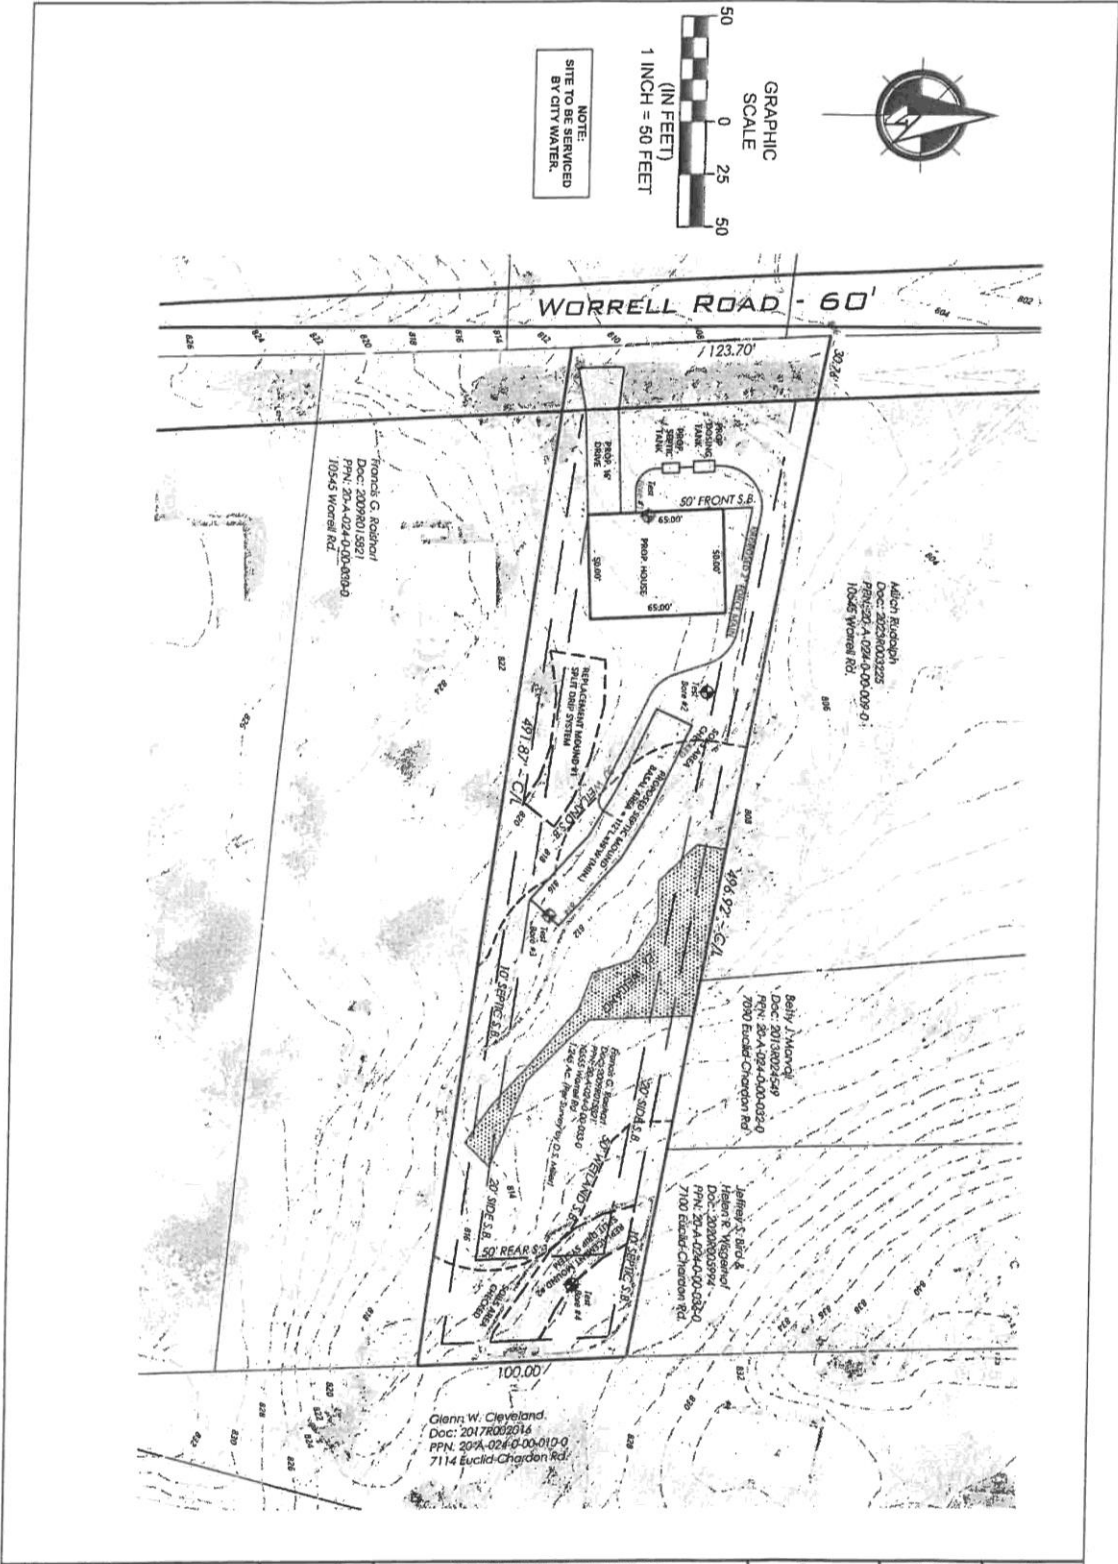

Board of Health,

We wanted to write to you to ask that you grant the variance for the septic to be installed at 10555 Worrell Rd in Kirtland Ohio. Andrea grew up at 10565 Worrell Rd and now wants to return to Kirtland to live. Her Parents, Mr. and Mrs. Francis Raishart, still live at 10565 Worrell Rd. We would like to build a home on the parcel just north of Andrea's family home for a few reasons: First is to return to Kirtland, the City that Andrea grew up in. Secondly to help care for her parents who want to stay in their home that Mr. Francis Raishart helped to build about 50 years ago. This is important to the family to have a central place to visit and have family gatherings. So, we request that you grant this variance so that we can move forwarding with building the new home.

Sincerely,

William and Andrea Schwartz

Permission to Contract with the Lake County Free Clinic for the WIC Clinic, Not to Exceed \$90,000

Dr. Alvin Brown moved and Roger Anderson seconded a motion to contract with the Lake County Free Clinic for the WIC clinic (2500 sq. ft.) at 89 Chester St., Painesville for three years, June 1, 2023 – May 31, 2026. The rent will be \$30,000 annually. This includes cleaning. Utilities are separate; motion carried.

Discussion:

Ron Graham said the WIC Clinic will move out of Victoria Place and into the Lake County Free Clinic.

7.04

Permission to Accept Tobacco Use Prevention and Cessation (TU24) Grant, \$264,000

Dr. Alvin Brown moved and Brian Katz seconded a motion to accept from the Ohio Department of Health for the Tobacco Use Prevention and Cessation (TU24) Grant, \$264,000. The grant period is from July 1, 2023-June 30, 2024; motion carried. Patricia Murphy abstained.

TU24 will be used to continue tobacco cessation, secondhand smoke policy, youth prevention, and health equity work in both Lake and Geauga Counties. LCGHD will continue to contract with Lake-Geauga Recovery Centers for activity in Geauga County.

7.05

Permission to Reimburse Lake-Geauga Recovery Center, Not to Exceed \$121,440

Dr. Alvin Brown moved and Roger Anderson seconded a motion to reimburse Lake-Geauga Recovery Center for FY24 Tobacco Use Prevention and Cessation (TU24) grant deliverables conducted in Geauga County, not to exceed \$121,440.00 for the budget period of July 1, 2023 – June 30, 2024. Lake County General Health District administers the grant on behalf of Lake and Geauga Counties, and this is the second year of a three-year cycle; motion carried. Patricia Murphy abstained.

7.06

Request for Legal Action Against Azteca Mexican Restaurant, 9515 Diamond Centre Drive, Mentor, OH 44060

Patricia Murphy moved and Dr. Lynn Smith seconded a motion to suspend the food license for Azteca Mexican Restaurant until July 10, 2023, in accordance with recommendations set forth by LCGHD sanitarians and staff effective immediately; motion carried.

AGAINST

Azteca Mexican Restaurant
9515 Diamond Centre Drive
Mentor, OH
44060

VIOLATIONS

Failure to maintain sanitary conditions.

ORC 3717.49- Licensors may suspend or revoke food service operation license

(A) A licensor may suspend or revoke a food service operation license on determining that the license holder is in violation of any requirement of this chapter or the rules adopted under it applicable to food service operations, including a violation evidenced by the documented failure to maintain sanitary conditions within the operation.

HISTORY

10/18/23- Operation was licensed.

11/30/21- Standard/Critical Control Point Inspection. 7 critical and 5 non-critical violations.

12/3/21- Reinspection. 2 critical and 2 non-critical violations.

3/29/22- Consultation for small fire.

3/30/22- Reinspection from fire.

6/23/22- Standard/Critical Control Point Inspection. 7 critical and 12 non-critical violations.

6/30/22- Reinspection. 3 critical and 7 non-critical violations.

7/7/22- Reinspection. 3 critical and 2 non-critical violations.

7/14/22- Administrative hearing.

8/30/22- Reinspection. 2 critical and 2 non-critical violations.

10/6/22- Reinspection. 2 critical and 0 non-critical violations.

1/11/23- Standard/Complaint/Critical Control Point Inspection. 3 critical and 2 non-critical violations.

5/10/23- Standard/Complaint/Critical Control Point Inspection. Complaint was regarding foodborne illness. 8 critical and 6 non-critical violations.

5/18/23 Reinspection. 4 critical and 5 non-critical violations. Placed under increased inspection frequency to include two inspections within 6 weeks. If improvement is not noted, operation will be referred to BOH for legal action.

5/23/23 Reinspection. 1 non-critical violation.

6/6/23- Reinspection. First inspection of 6-week period. 3 critical and 3 non-critical violations.

Critical violations noted during most previous inspections include:
Ohio Uniform Food Code 3717-1-03.2 (C)- Preventing contamination by separation, packaging, and segregation, 3717-1-03.4 (F) (1) (b)- Time/temperature controlled for safety food- cold holding, 3717-1-03.4 (G)- ready to eat, time/temperature controlled for safety foods- date marking, and 3717-1-03.4 € cooling methods- Temperature and time control.

Following OAC 3701-21-26, a written letter was mailed, and hand delivered on 6/8/23 explaining the legal process. A reinspection will take place on 6/22/23 with Board of Health notification at the 6/26/23 Board of Health meeting.

7.07

Permission to Contract with First United Methodist Church of Middlefield for the WIC Clinic, Not to Exceed \$1260.00

Patricia Murphy moved and Dr. Alvin Brown seconded a motion to contract with First United Methodist Church of Middlefield for the WIC clinic in Middlefield for three years, July 1, 2023 – June 30, 2026. The rent will be \$35.00 a month for a total of \$1260.00. The Church donates our rent back to the WIC program in diapers for our WIC families; motion carried.

7.08

Recommendations from the Technical Advisory Committee, Meeting Held Prior to Board Meeting

Brian Katz stated that the website was reviewed. Suggestions were made to clean it up and make it more user-friendly. He said that staff will make corrections.

Brian Katz moved and Patricia Murphy seconded a motion to temporarily adjourn the meeting at approximately 4:26 p.m.; motion carried. Meeting reconvened at 5:10 p.m.

8.0

Adjournment

Dr. Lynn Smith moved and David Valentine seconded a motion to adjourn the meeting at approximately 5:16 p.m.; motion carried.

BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT
Date June 26, 2023

The Board of the Lake County General Health District met this day, June 26, 2023, in a regularly scheduled meeting with the following members present:

	
<u>Kevin McGowan</u>	<u>Bryan Johnson</u>
	
<u>Patricia Murphy</u>	<u>[unclear]</u>
	
<u>[unclear]</u>	<u>[unclear]</u>
	
<u>Richard Haway</u>	<u>R.A. Anderson</u>
	
<u>J.T. [unclear]</u>	
<u>Dr. Lynn Smith</u>	

Dr. Lynn Smith presented the following resolution and named its adoption.

RESOLUTION TO: APPROVE CURRENT BILLS FOR PAYMENT

WHEREAS, the Board of the Lake County General Health District hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board of Health, and that all the deliberations of this Board of Health and of its committees, if any, which resulted in formal actions, were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Revised Code, and

WHEREAS, the Board of Health, by this resolution, approves the payment of current bills as indicated on the attached recapitulation sheets.

BE IT RESOLVED by the Board of Health in and for the Lake County General Health District, that as evidenced by the Certification of Funds signed by the Lake County Auditor, the Health Commissioner is hereby authorized to forward a certified copy of this resolution and attached recapitulation sheets to the Lake County Auditor for payment of current bills during the fiscal year ending December 31, 2023.

Brian Katz seconded the resolution and the vote being called upon its adoption, the vote resulted as follows:

"AYES" 12 "NAYS" 0

CLERK'S CERTIFICATION

I, Ron Graham, Health Commissioner of the Board of Health do hereby certify that this is a true and accurate copy of a resolution adopted by the said Board on June 26, 2023.

Witness my hand this 26th day of June 2023.

Secretary, Board of Health

Board Report - 06/01/2023 - 06/26/2023

BILLS PRESENTED TO BOARD OF HEALTH FOR CERTIFICATION OF PAYMENT ON: 6/26/23

I CERTIFY THERE ARE FUNDS TO MEET THE ENCUMBRANCES BELOW.

June 2023 Appropriation Changes Cover Page

Documents included in this packet

(Please note that each transfer description below has an identifier code, E1-E2, that corresponds to both the cash transfer resolution and increase/decrease appropriations documents.)

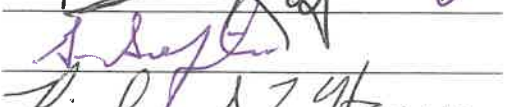

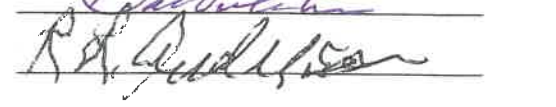

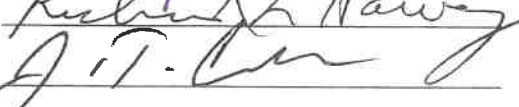

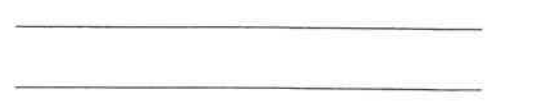

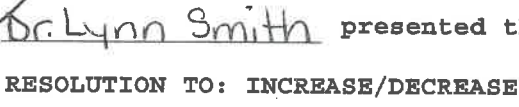

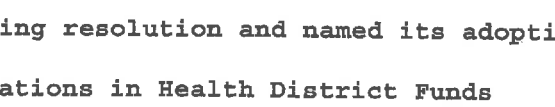

E1 – Throughout the year the budget is reevaluated to determine if it will meet the needs of the agency at December 31st (year end). During this review this line item was expected to exceed the current appropriations and thus an increase is necessary.

E2 – Cash Transfer from Board of Health (General Fund) to Air Pollution Control to meet needs of the fund. Generally LCGHD makes a cash transfer into the Air Pollution Control fund at least one time per year. This is often necessary due to the timing of receipts from the Air Pollution Control grant.

BOARD OF HEALTH
LAKE COUNTY GENERAL HEALTH DISTRICT

Date: June 26, 2023

The Board of the Lake County General Health District met this day, June 26, 2023, in a regularly scheduled meeting with the following members present:

Dr. Lynn Smith presented the following resolution and named its adoption.

RESOLUTION TO: INCREASE/DECREASE appropriations in Health District Funds

WHEREAS, the Board of the Lake County General Health District hereby finds and determines that all formal actions relative to the adoption of this resolution were taken in an open meeting of this Board of Health, and that all the deliberations of this Board of Health and of its committees, if any, which resulted in formal actions, were taken in meetings open to the public, in full compliance with applicable legal requirements, including Section 121.22 of the Revised Code, and were taken in an open meeting of this Board of Health and,

WHEREAS, the Board of Health, by resolution, may transfer funds from one item in the appropriation to another item, reduce or increase any item, create new items, make additional appropriations or reduce the total appropriations, and transfer revenue in support of Health District controlled funds in accordance with Section 3709.28 of the Revised Code.

BE IT RESOLVED by the Board of Health in and for the Lake County General Health District, that adjustments in appropriations for various Health District fund line items be made as indicated on the attached schedule. The Health Commissioner is hereby authorized to forward a certified copy of this resolution to the Lake County Auditor.

Roger Anderson seconded the resolution and the vote being called upon its adoption, the vote resulted as follows:

*Preliminary and subject to change as more cases are investigated.

Event date = earliest known date associated with a case. When the case is initially reported, this is by default the date of test specimen collection. Once the case is determined positive and reported to the local health department, PCG makes up to 3 attempts to contact the case for interview (this procedure may be amended during surge). If the case (or case's point of contact) completes the interview, Event Date is then backfilled with the self-reported date of symptom onset. Because of time it takes for case to have symptoms, get tested, get results, results to be reported into the system, and then contacted for interview, this number lags and backfills. This is why last 2-3 weeks are considered preliminary.

COVID-19 Cases investigated by LCGHD

Due to the potential for outbreaks, LCGHD has elected to focus case investigation on all cases ages 18 and under and all ages 65+ that are associated with a long-term care facility. Since the beginning of June LCGHD has investigated a total of 9 cases among those 18 and younger. (Total for similar timeframe in May was 7).

COVID-19 Outbreaks

LCGHD has also been two active outbreaks in long-term care facilities during the month of June: one in Madison, and one in Mentor. There have been a total of six residents and three staff positive in the Madison facility and 16 residents and three staff positive in Mentor. No hospitalizations or deaths have been associated with these outbreaks.

Infection Prevention & Control

All facilities in active outbreak were offered resources, information and education, and in-person ICARS or consultation calls with ODH.

Mpox

To date, Lake County has 12 confirmed cases of Mpox as part of the current outbreak, including one new case reported in the past week, which is the first in Lake County since October of 2022. A total of 127 Lake County residents have been vaccinated for Mpox as of June 26th.

Influenza

The 2022-2023 flu season ended on May 20, 2023. Reportable metrics for seasonal influenza include influenza-associated hospitalizations and pediatric flu deaths. Individual cases of influenza are only reported if a novel strain is detected. As of May 15, for the current flu season, Lake County has 160 hospitalizations for seasonal influenza.

Measles

To date, LCGHD has not been notified of any suspected cases or contacts for measles.

Other Outbreaks

LCGHD investigated a suspected norovirus outbreak with three people sick after eating at a restaurant in Mentor.

LCGHD has been assisting with investigation of an outbreak of Pertussis in Geauga County. A total of 345 cases have been reported: 74 confirmed with testing, and 271 who were exposed but have not had confirmatory testing. Cases associated with this outbreak have been seen in Geauga, Ashtabula, Trumbull, and Portage counties. Most cases to date associated with this outbreak have been among members of the Amish community. Lake County has had 4 confirmed and two suspected cases of Pertussis, but there have not yet been links to the outbreak that have been identified.
